Contents

1 How to use the codebook 18

2 Study description 18

3 Data collection 1 (F2F 1) 18

4 Identifiers: IDs on wave, family, household and invidual level 18
fid – family ID (scientific use file) . . . 20
hid_1 – household ID wave-specific (scientific use file) (F2F 1) . . . 20
pid – person ID (scientific use file) . . . 20
wid – data collection ID - consecutively numbered (gen) . . . 21

5 Identifiers: Indicator and sample variables 21
cgr – twin birth cohort . . . 21
ptyp – type of respondent . . . 22
ptyp_hq – type of respondent for household questionnaire (gen) . . . 22
wav0100 – subsample (gen) . . . 23
wav0200 – survey wave (gen) . . . 23
wav0300 – part of the survey wave (gen) . . . 24
wav0400 – wave (wav0200, wav0300, wav0100 combined) . . . 24

6 Socio-demographics 25
age0100 – age in years on the date of the family questionnaire (gen) . . . 25
age0100t – age twins in years on the date of the family questionnaire (gen) . . . 26
age0100s – age sibling in years on the date of the family questionnaire (gen) . . . 26
age0101 – age in months on the date of the family questionnaire (gen) . . . 27
age0200 – age in years on 01 January of survey year of subsample (gen) . . . 27
age0201 – age in months on 01 January of survey year of subsample (gen) . . . 28
ewi – Eastern or western federal state (federal state indicator) (gen) . . . 28
gkpol_r – community size classification (political), 4 groups (gen) . . . 29
sex – sex . . . 30

7 Family structure and household characteristics 30
fhc – number of households belonging to the family (gen) . . . 30
fpr0107 – relation to the twins . . . 31
fpr0400f – twins' biological father in Germany (HH) . . . 32
fpr0400m – twins' biological mother in Germany (HH) . . . 32
fpr0401f – contact to twins' biological father (HH) . . . 32
fpr0401m – contact to twins' biological mother (HH) . . . 33
fpr0403f – twins' biological father no longer in household since - month (HH) . . . 33
fpr0403m – twins' biological mother no longer in household since - month (HH) 34
fpr0404f – twins' biological father no longer in household since - year (HH) . . . 34
fpr0404m – twins' biological mother no longer in household since - year (HH) . . . 35
fpr0405f – biological father of the twins deceased - month (HH) . . . 35
fpr0405m – biological mother of the twins deceased - month (HH) . . . 35
fpr0406f – biological father of the twins deceased - year (HH) . . . 36
fpr0406m – biological mother of the twins deceased - year (HH) . . . 36
hlt – twin1 lives in household (gen) . . . 36
hlu – twin2 lives in household (gen) . . . 37
hls – sibling lives in household (gen) . . . 37

hlf – father lives in household (gen) . . . 38
hlg – stepfather lives in household (gen) . . . 38
hlm – mother lives in household (gen) . . . 38
hln – stepmother lives in household (gen) . . . 39
hpc – number of persons belonging to the household (gen) . . . 39
liv0210 – housing conditions of the twins (gen) . . . 39
liv0410 – household type (gen) . . . 40
liv0500 – lives with parents (t,u,s, > 10 yr) . . . 41

8 Marital status **41**
fam0100 – marital status (>= 16 yr) . . . 41
fam0200 – permanent partnership (>= 16 yr) . . . 42
fam0300 – sex of partner (>= 16 yr) . . . 42

9 Migration and citizenship **43**
mig0200 – immigration to Germany (year) (>= 16 yr) . . . 43
mig0200t – immigration to Germany twin 1 - year (m/f/n/g) . . . 43
mig0200u – immigration to Germany twin 2 - year (m/f/n/g) . . . 44
mig0200s – immigration to Germany sibling - year (m/f/n/g) . . . 45
mig0520 – german citizenship available (gen) . . . 45
mig0600 – German citizenship since (year) . . . 46
mig0600t – German citizenship since - twin 1 (m/f/n/g) . . . 46
mig0600u – German citizenship since - twin 2 (m/f/n/g) . . . 47
mig0600s – German citizenship since - sibling (m/f/n/g) . . . 47
mig0620 – German citizenship since (year) (gen) . . . 48
mig0700 – residency status (>= 16 yr) . . . 49
mig0700t – residential status twin 1 (m/f/n/g) . . . 49
mig0700u – residential status twin 2 (m/f/n/g) . . . 49
mig0700s – residential status sibling (m/f/n/g) . . . 50
mig0800 – language spoken at home (>= 16 yr) . . . 50
mig0800t – language spoken at home twin 1 (m/f/n/g) . . . 51
mig0800u – language spoken at home twin 2 (m/f/n/g) . . . 51
mig0800s – language spoken at home sibling (m/f/n/g) . . . 52
mig2000 – country of birth (gen) . . . 52
mig2001 – born in the GDR (gen) . . . 53
mig2100 – country of birth of respondent's mother (gen) . . . 54
mig2101 – born in the GDR - respondent's mother (gen) . . . 55
mig2200 – country of birth of respondent's father (gen) . . . 56
mig2201 – born in the GDR - respondent's father (gen) . . . 57
mig3000 – country of birth - extended (gen) . . . 58
mig3100 – country of birth of respondent's mother - extended (gen) . . . 59
mig3200 – country of birth of respondent's father - extended (gen) . . . 60
mig4000 – migration background (t,u,s, up to the 3rd generation) (gen) . . . 60
mig4100 – migration background (up to the 2nd generation) (gen) . . . 61

10 Zygosity questionnaire **62**
zyg0102 – zygosity: result questionnaire and DNA in F2F1 (gen) . . . 62
zyg0112 – zygosity: result questionnaire and DNA in F2F1 & F2F3 (gen) . . . 63

11 Twin-specific questions **63**
tsf0100 – doing things with the twins (p,q, >= 18 yr) . . . 63

tsf0200 – twins have same hobbies and interests (p,q, >= 18 yr) 64
tsf0300 – relationship between the twins (p,q, >= 18 yr) 64
tsp0100 – twins dress identically (m,f,n,g) 65
tsp0101 – twins dressed identically up to age of . . . (m,f,n,g) 65
tsp0200 – twins currently: same hobbies and interests (m,f,n,g) 65
tsp0300 – relationship between the twins (m,f,n,g) 66
tsp0400 – people sometimes can't tell the twins apart (m,f,n,g) 66
tss0100 – doing things with twins (s, >= 10 yr) 67
tss0200 – twins same hobbies and interests (s, >= 10 yr) 67
tss0300 – relationship between twins (s, >= 10 yr) 68
tst0100 – doing things with other twin (t,u, >= 10 yr) 68
tst0200 – hobbies/interests as other twin (t,u, >= 10 yr) 69
tst0300 – relationship to other twin (t,u, >= 10 yr) 69

12 Educational attainment and success **70**
cer0001 – participation in the report card module (gen) 70
cer1000 – school attendance 70
cer1001 – photo: consent photo report card 71
cer1002 – photo: consent photo report card (gen) 71
cer1100 – interview: average grade highest school degree 72
cer1300 – interview: year of highest school degree 72
cer1400 – interview: math grade of last report card 72
cer1500 – interview: german grade of last report card 73
cer1600 – interview: school class of last report card 73
cer1700 – interview: type of school of last report card 74
cer1800 – missing report card - qnr generated - flag 74
cer2000 – photo: year of last report card 75
cer2001 – photo: half-year of last report card 75
cer2002 – photo: school class of last report card 76
cer2003 – photo: type of school of last report card 76
cer2003g – photo: type of school of last report card - extended 77
cer2100 – photo: last report card is final report card 78
cer2101 – photo: type of school of final report card 78
cer2103 – photo: average grade of final report card 79
cer2200 – photo: math grade of last report card 79
cer2201 – photo: german grade of last report card 80
cer2202 – photo: grade of language usage of last report card 80
cer2203 – photo: grade of language usage (oral) of last report card 81
cer2204 – photo: grade of language usage (written) of last report card 81
cer2205 – photo: reading grade of last report card 81
cer2206 – photo: writing grade of last report card 82
cer2207 – photo: orthography grade of last report card 82
cer2208 – photo: english grade of last report card 83
cer2209 – photo: other foreign language in last report card 83
cer2210 – photo: other foreign language grade of last report card 84
cer2211 – photo: chemistry grade of last report card 84
cer2212 – photo: physics grade of last report card 85
cer2213 – photo: biology grade of last report card 85
cer2214 – photo: computer science grade of last report card 86
cer2215 – photo: science grade of last report card 86
cer2216 – photo: regional history and geography grade of last report card 86

cer2217 – photo: social science grade of last report card . . . 87
cer2218 – photo: history grade of last report card . . . 87
cer2219 – photo: geography grade of last report card . . . 88
cer2220 – photo: political science grade of last report card . . . 88
cer2221 – photo: political science/economics grade of last report card . . . 89
cer2222 – photo: religion grade of last report card . . . 89
cer2223 – photo: ethics grade of last report card . . . 90
cer2224 – photo: philosophy grade of last report card . . . 90
cer2225 – photo: art grade of last report card . . . 90
cer2226 – photo: music grade of last report card . . . 91
cer2227 – photo: textile design grade of last report card . . . 91
cer2228 – photo: business and employment studies grade of last report card . . . 92
cer2229 – photo: technics grade of last report card . . . 92
cer2230 – photo: carpentry and handicrafts grade of last report card . . . 93
cer2231 – photo: home economics grade of last report card . . . 93
cer2232 – photo: economics grade of last report card . . . 94
cer2233 – photo: sports grade of last report card . . . 94
cer2235 – photo: further subject 1 grade in last report card . . . 94
cer2237 – photo: further subject 2 grade in last report card . . . 95
cer2239 – photo: further subject 3 grade in last report card . . . 95
cer2241 – photo: further subject 4 grade in last report card . . . 96
cer2300 – photo: behavioral grade (participation) in last report card (gen) . . . 96
cer2301 – photo: behav. grade (participation) written assess. in last report card (gen) 97
cer2302 – photo: behavioral grade (social behavior) in last report card (gen) . . . 97
cer2303 – photo: behav. grade (social behavior) written assess. in last report card (gen) . . . 98
cer3000 – photo: number of additional subjects - uncoded . . . 99
cer3002 – photo: type of assessment of last report card . . . 99
cer9000 – interview: type of school of highest school degree . . . 99
eca0100 – highest degree of school: type (>= 15 yr) . . . 100
eca0102 – no school degree: type of last school (>= 15 yr) . . . 101
eca0104 – school of general education: year of graduation (>= 15 yr) . . . 101
eca0105 – highest educational degree: final grade (>= 15 yr) . . . 102
eca0106 – ISCED 1997 [outdated generated variable: only F2F1, CATI1] (gen) . . . 102
eca0107 – ISCED 1997, 1 digit based on eca0106 [only F2F1, CATI1] (gen) . . . 103
eca0108 – ISCED 1997 (International Standard Classification of Education) (gen) . 103
eca0109 – CASMIN educational classification (gen) . . . 105
eca0110 – highest degree of school: attained at German school (>= 15 yr) . . . 106
eca0130 – highest degree of school (gen) . . . 106
eca0200 – type of vocational training or university degree/diploma/qualification(>= 15 yr) . . . 107
eca0201 – year of vocational training or university degree/diploma/qualification(>= 15 yr) . . . 108
eca0203 – KldB 2010 2-digit based on eca0202 - occupational qualification (gen) . 108
eca0205 – ISCO-08 2-digit based on eca0202 - occupational qualification (gen) . . 109
eca0207 – ISEI based on eca0205 (International Socio Economic Index) (gen) . . . 110
eca0208 – SIOPS based on eca0205 (Standard Int. Occupational Prestige Scale) (gen) 111
eca0230 – highest vocational or university degree (gen) . . . 112
eca0300 – school class repeated (>= 16 yr) . . . 113
eca0300t – school class repeated twin 1 (m/f/n/g) . . . 113

eca0300u – school class repeated twin 2 (m/f/n/g) . . . 114
eca0300s – school class repeated sibling (m/f/n/g) . . . 114
eca0301 – 1st school class repeated (>= 16 yr) . . . 115
eca0301t – 1st school class repeated twin 1 (m/f/n/g) . . . 115
eca0301u – 1st school class repeated twin 2 (m/f/n/g) . . . 116
eca0301s – 1st school class repeated sibling (m/f/n/g) . . . 116
eca0302 – 2nd school class repeated (>= 16 yr) . . . 117
eca0302t – 2nd school class repeated twin 1 (m/f/n/g) . . . 117
eca0302u – 2nd school class repeated twin 2 (m/f/n/g) . . . 117
eca0302s – 2nd school class repeated sibling (m/f/n/g) . . . 118
eca0303 – 3rd school class repeated (>= 16 yr) . . . 118
eca0303t – 3rd school class repeated twin 1 (m/f/n/g) . . . 119
eca0303u – 3rd school class repeated twin 2 (m/f/n/g) . . . 119
eca0303s – 3rd school class repeated sibling (m/f/n/g) . . . 120
eca0304 – 4th school class repeated (>= 16 yr) . . . 120
eca0304t – 4th school class repeated twin 1 (m/f/n/g) . . . 121
eca0304u – 4th school class repeated twin 2 (m/f/n/g) . . . 121
eca0304s – 4th school class repeated sibling (m/f/n/g) . . . 121
eca0305 – 5th school class repeated (>= 16 yr) . . . 122
eca0305t – 5th school class repeated twin 1 (m/f/n/g) . . . 122
eca0305u – 5th school class repeated twin 2 (m/f/n/g) . . . 123
eca0305s – 5th school class repeated sibling (m/f/n/g) . . . 123
eca0306 – 6th school class repeated (>= 16 yr) . . . 124
eca0306t – 6th school class repeated twin 1 (m/f/n/g) . . . 124
eca0306u – 6th school class repeated twin 2 (m/f/n/g) . . . 125
eca0306s – 6th school class repeated sibling (m/f/n/g) . . . 125
eca0307 – 7th school class repeated (>= 16 yr) . . . 125
eca0307t – 7th school class repeated twin 1 (m/f/n/g) . . . 126
eca0307u – 7th school class repeated twin 2 (m/f/n/g) . . . 126
eca0307s – 7th school class repeated sibling (m/f/n/g) . . . 127
eca0308 – 8th school class repeated (>= 16 yr) . . . 127
eca0308t – 8th school class repeated twin 1 (m/f/n/g) . . . 128
eca0308u – 8th school class repeated twin 2 (m/f/n/g) . . . 128
eca0308s – 8th school class repeated sibling (m/f/n/g) . . . 129
eca0309 – 9th school class repeated (>= 16 yr) . . . 129
eca0309t – 9th school class repeated twin 1 (m/f/n/g) . . . 129
eca0309u – 9th school class repeated twin 2 (m/f/n/g) . . . 130
eca0309s – 9th school class repeated sibling (m/f/n/g) . . . 130
eca0310 – 10th school class repeated (>= 16 yr) . . . 131
eca0310t – 10th school class repeated twin 1 (m/f/n/g) . . . 131
eca0310u – 10th school class repeated twin 2 (m/f/n/g) . . . 132
eca0310s – 10th school class repeated sibling (m/f/n/g) . . . 132
eca0311 – 11th school class repeated (>= 16 yr) . . . 133
eca0311t – 11th school class repeated twin 1 (m/f/n/g) . . . 133
eca0311u – 11th school class repeated twin 2 (m/f/n/g) . . . 133
eca0311s – 11th school class repeated sibling (m/f/n/g) . . . 134
eca0312 – 12th school class repeated (>= 16 yr) . . . 134
eca0312t – 12th school class repeated twin 1 (m/f/n/g) . . . 135
eca0312u – 12th school class repeated twin 2 (m/f/n/g) . . . 135
eca0312s – 12th school class repeated sibling (m/f/n/g) . . . 136

eca0313 – 13th school class repeated (>= 16 yr) . . . 136
eca0313t – 13th school class repeated twin 1 (m/f/n/g) . . . 137
eca0313u – 13th school class repeated twin 2 (m/f/n/g) . . . 137
eca0313s – 13th school class repeated sibling (m/f/n/g) . . . 137
eca0398 – school class repeated - don't know (>= 16 yr) . . . 138
eca0399 – school class repeated - n.a. (>= 16 yr) . . . 138
eca0400 – school class skipped (>= 16 yr) . . . 139
eca0400t – school class skipped twin 1 (m/f/n/g) . . . 139
eca0400u – school class skipped twin 2 (m/f/n/g) . . . 140
eca0400s – school class skipped sibling (m/f/n/g) . . . 140
eca0401 – 1st school class skipped (>= 16 yr) . . . 141
eca0401t – 1st school class skipped twin 1 (m/f/n/g) . . . 141
eca0401u – 1st school class skipped twin 2 (m/f/n/g) . . . 142
eca0401s – 1st school class skipped sibling (m/f/n/g) . . . 142
eca0402 – 2nd school class skipped (>= 16 yr) . . . 143
eca0402t – 2nd school class skipped twin 1 (m/f/n/g) . . . 143
eca0402u – 2nd school class skipped twin 2 (m/f/n/g) . . . 143
eca0402s – 2nd school class skipped sibling (m/f/n/g) . . . 144
eca0403 – 3rd school class skipped (>= 16 yr) . . . 144
eca0403t – 3rd school class skipped twin 1 (m/f/n/g) . . . 145
eca0403u – 3rd school class skipped twin 2 (m/f/n/g) . . . 145
eca0403s – 3rd school class skipped sibling (m/f/n/g) . . . 146
eca0404 – 4th school class skipped (>= 16 yr) . . . 146
eca0404t – 4th school class skipped twin 1 (m/f/n/g) . . . 147
eca0404u – 4th school class skipped twin 2 (m/f/n/g) . . . 147
eca0404s – 4th school class skipped sibling (m/f/n/g) . . . 147
eca0405 – 5th school class skipped (>= 16 yr) . . . 148
eca0405t – 5th school class skipped twin 1 (m/f/n/g) . . . 148
eca0405u – 5th school class skipped twin 2 (m/f/n/g) . . . 149
eca0405s – 5th school class skipped sibling (m/f/n/g) . . . 149
eca0406 – 6th school class skipped (>= 16 yr) . . . 150
eca0406t – 6th school class skipped twin 1 (m/f/n/g) . . . 150
eca0406u – 6th school class skipped twin 2 (m/f/n/g) . . . 151
eca0406s – 6th school class skipped sibling (m/f/n/g) . . . 151
eca0407 – 7th school class skipped (>= 16 yr) . . . 151
eca0407t – 7th school class skipped twin 1 (m/f/n/g) . . . 152
eca0407u – 7th school class skipped twin 2 (m/f/n/g) . . . 152
eca0407s – 7th school class skipped sibling (m/f/n/g) . . . 153
eca0408 – 8th school class skipped (>= 16 yr) . . . 153
eca0408t – 8th school class skipped twin 1 (m/f/n/g) . . . 154
eca0408u – 8th school class skipped twin 2 (m/f/n/g) . . . 154
eca0408s – 8th school class skipped sibling (m/f/n/g) . . . 155
eca0409 – 9th school class skipped (>= 16 yr) . . . 155
eca0409t – 9th school class skipped twin 1 (m/f/n/g) . . . 155
eca0409u – 9th school class skipped twin 2 (m/f/n/g) . . . 156
eca0409s – 9th school class skipped sibling (m/f/n/g) . . . 156
eca0410 – 10th school class skipped (>= 16 yr) . . . 157
eca0410t – 10th school class skipped twin 1 (m/f/n/g) . . . 157
eca0410u – 10th school class skipped twin 2 (m/f/n/g) . . . 158
eca0410s – 10th school class skipped sibling (m/f/n/g) . . . 158

eca0411 – 11th school class skipped (>= 16 yr) . . . 159
eca0411t – 11th school class skipped twin 1 (m/f/n/g) . . . 159
eca0411u – 11th school class skipped twin 2 (m/f/n/g) . . . 159
eca0411s – 11th school class skipped sibling (m/f/n/g) . . . 160
eca0412 – 12th school class skipped (>= 16 yr) . . . 160
eca0412t – 12th school class skipped twin 1 (m/f/n/g) . . . 161
eca0412u – 12th school class skipped twin 2 (m/f/n/g) . . . 161
eca0412s – 12th school class skipped sibling (m/f/n/g) . . . 162
eca0413 – 13th school class skipped (>= 16 yr) . . . 162
eca0413t – 13th school class skipped twin 1 (m/f/n/g) . . . 163
eca0413u – 13th school class skipped twin 2 (m/f/n/g) . . . 163
eca0413s – 13th school class skipped sibling (m/f/n/g) . . . 163
eca0498 – school class skipped - don't know (>= 16 yr) . . . 164
eca0499 – school class skipped - n.a. (>= 16 yr) . . . 164
eca0500 – training/academic studies abroad (>= 16 yr) . . . 165
eca0600 – recommendation for the secondary school (>= 16 yr) . . . 165
eca0600t – recommendation for secondary school twin 1 (m/f/n/g) . . . 166
eca0600u – recommendation for secondary school twin 2 (m/f/n/g) . . . 166
eca0600s – recommendation for secondary school sibling (m/f/n/g) . . . 167
eca0700 – desired school-leaving qualification (t,u,s,p,q, >= 10 yr) . . . 167
eca0700t – desired school-leaving qualification twin 1 ((m,f,n,g), twin<=15 yr) . . . 168
eca0700u – desired school-leaving qualification twin 2 ((m,f,n,g), twin<=15 yr) . . . 168
eca0700s – desired school-leaving qualification sibling ((m,f,n,g), sib<=15 yr) . . . 169
eca0701 – probability of attaining desired school-leaving qualification (t,u,s,p,q,>=10yr) 169
eca0701t – probability of twin 1 attaining desired school-leaving qualification (m/f/n/g) 170
eca0701u – probability of twin 2 attaining desired school-leaving qualification (m/f/n/g) 171
eca0701s – probability of sibling attaining desired school-leaving qualification (m/f/n/g) 171
eca0800 – plan to complete further vocational training or university degree (>= 16 yr) 172
eca0801 – probability of attaining desired qualification or degree (>= 16 yr) . . . 172
edu0100 – school attendance (t,u,s,p,q, <22 yr) . . . 173
edu0100t – school attendance twin 1 (m/f/n/g) . . . 174
edu0100u – school attendance twin 2 (m/f/n/g) . . . 174
edu0100s – school attendance sibling (m/f/n/g) . . . 174
edu0200 – after-school job (t,u,s, >=13) . . . 175
edu0202 – hours/week in after-school job (t,u,s, >=13) . . . 175
edu0203 – hourly wage in after-school job (t,u,s, >=13 & <16 yr) . . . 176
edu0300 – In training (>= 15 yr) . . . 176
edu0301 – type of training (>= 15 yr) . . . 177
edu0303 – type of higher education (>= 15 yr) . . . 178
edu0305 – education: further education (>= 15 yr) . . . 178
edu0307 – type of vocational education (>= 15 yr) . . . 179
edu0400 – type of school (> 10 yr) . . . 179
edu0400t – type of school twin 1 (m/f/n/g) . . . 180
edu0400u – type of school twin 2 (m/f/n/g) . . . 181
edu0400s – type of school sibling (m/f/n/g) . . . 181
edu0402 – school class (> 10 yr) . . . 182
edu0402t – school class twin 1 (m/f/n/g) . . . 182
edu0402u – school class twin 2 (m/f/n/g) . . . 183
edu0402s – school class sibling (m/f/n/g) . . . 183

asc0104 – academic self-concept: Do you know lots of different shapes? (t,u,s, <= 7 yr) . . . 431
asc0105 – academic self-concept: Are you good at counting? (t,u,s <= 7 yr) . . . 431
asc0106 – academic self-concept: Do you know lots of numbers? (t,u,s <= 7 yr) . . 432
spa0100 – academic self-concept: Do you think you will do well at school? (t,u,s) . 432
spa0100t – twin 1 will do well in school (m,f,n,g, twin<=7 yr) . . . 433
spa0100u – twin 2 will do well in school (m,f,n,g, twin<=7 yr) . . . 433
spa0100s – sibling will do well in school (m,f,n,g, sib<=7 yr) . . . 434
spa0200 – academic self-concept: talent in school in general . . . 434
spa0201 – academic self-concept: ability for school in general . . . 435
spa0202 – academic self-concept: problem-solving in school in general . . . 435
spa0202t – school will be easy for twin 1 (m,f,n,g, twin<=7 yr) . . . 436
spa0202u – school will be easy for twin 2 (m,f,n,g, twin<=7 yr) . . . 436
spa0202s – school will be easy for sibling (m,f,n,g, sib<=7 yr) . . . 437
spa0300 – academic self-concept: talent for mathematics . . . 437
spa0301 – academic self-concept: ability in mathematics . . . 438
spa0302 – academic self-concept: problem-solving in mathematics . . . 438
spa0400 – academic self-concept: talent for subject German . . . 439
spa0401 – academic self-concept: ability in subject German . . . 439
spa0402 – academic self-concept: problem-solving in German . . . 440
spa0500 – academic self-concept: to be good at my job . . . 440
spa0501 – academic self-concept: to be good at my job compared to co-workers . . 441
spa0502 – academic self-concept: high job skills after training period . . . 442
spa0503 – academic self-concept: to be satisfied with my job performance . . . 443
spa0504 – academic self-concept: to have high skills at work . . . 443

17 Motivation **444**
imo0100 – intrinsic motivation: Will like school (t,u,s <= 10 yr) . . . 444
imo0100t – twin 1 will like school (m,f,n,g, twin<=7 yr) . . . 445
imo0100u – twin 2 will like school (m,f,n,g, twin<=7 yr) . . . 445
imo0100s – sibling will like school (m,f,n,g, sib<=7 yr) . . . 446
imo0101 – intrinsic motivation: Will like learning at school (t,u,s <= 10 yr) . . . 447
imo0101t – twin 1 will like school subject matter (m,f,n,g, twin<=7 yr) . . . 447
imo0101u – twin 2 will like school subject matter (m,f,n,g, twin<=7 yr) . . . 448

imo0101s – sibling will like school subject matter (m,f,n,g, sib<=7 yr) 448
imo0102 – intrinsic motivation: Looking forward to school (t,u,s <= 10 yr) 449
imo0102t – twin 1 is looking forward to school (m,f,n,g, twin<=7 yr) 450
imo0102u – twin 2 is looking forward to school (m,f,n,g, twin<=7 yr) 450
imo0102s – sibling is looking forward to school (m,f,n,g, sib<=7 yr) 451
imo0103 – intrinsic motivation: looking f. to learning interesting things (t,u,s <=10 yr) 452
imo0104 – intrinsic motivation: looking f. to understanding diff. things (t,u,s <=10 yr) 452
imo0105 – intrinsic motivation: looking f. to learning as much as possible (t,u,s <=10 yr) 453
imo0200 – intrinsic motivation: I like doing the things I learn at school 453
imo0201 – intrinsic motivation: School is fun 454
imo0202 – intrinsic motivation: Things that I learn (at school) are interesting. . . 454
imo0300 – intrinsic motivation: I like doing math 455
imo0301 – intrinsic motivation: Math is fun 456
imo0302 – intrinsic motivation: Math is interesting 456
imo0400 – intrinsic motivation: I like learning German 457
imo0401 – intrinsic motivation: German is fun 458
imo0402 – intrinsic motivation: German is interesting 458
imo0500 – learning motivation: to learn interesting things (>= 10 yr) 459
imo0501 – learning motivation: understanding difficult things (>= 10 yr) 460
imo0502 – learning motivation: learning as much as possible. (>= 10 yr) 460
imo0550 – learning motivation: to learn interesting things (< 10 yr) 461
imo0551 – learning motivation: understanding difficult things (< 10 yr) 462
imo0552 – learning motivation: learning as much as possible. (< 10 yr) 462
imo0600 – performance motivation job: learning interesting things (>= 16 yr) . . 463
imo0601 – performance motivation job: getting food for thought (>= 16 yr) 464
imo0602 – performance motivation job: gaining a deeper understanding (>= 16 yr) 464
imo0700 – performance motivation: good performance is important (>= 16 yr) . . 465
imo0701 – performance motivation: good grades are important (>= 7 & <= 15 yr) . 466
imo0701t – it is important for me that twin 1 gets good grades (m,f,n,g, twin<=15 yr) 466
imo0701u – it is important for me that twin 2 gets good grades (m,f,n,g, twin<=15 yr) 467
imo0701s – it is important for me that sibling gets good grades (m,f,n,g, sib<=15 yr) 468
imo0702 – performance motivation: readiness to make a major effort (>= 16 yr) . 468

18 Employment status of household members 469
hpr0101 – employment status - kindergarten/child care institution 469
hpr0102 – employment status - in school - first education path 470
hpr0103 – employment status - training/uni./further education/other edu. 470
hpr0104 – employment status - employed full-time 471
hpr0105 – employment status - employed part-time - also in more than one job . . 472
hpr0106 – employment status - vocational training/apprenticeship/retraining . . 472
hpr0107 – employment status - marginally employed/mini-job/1-euro-job 473
hpr0108 – employment status - occasionally/irregularly employed 473
hpr0109 – employment status - voluntary military service 474
hpr0110 – employment status - voluntary social/ecological year 475
hpr0111 – employment status - unemployed/seeking employment 475
hpr0112 – employment status - maternity/parental leave/special leave 476
hpr0113 – employment status - housewife/househusband 476
hpr0114 – employment status - in (early) retirement/occupational disability 477

hpr0115 – employment status - partial retirement with zero working hours 478
hpr0116 – employment status - not employed 478
hpr0120 – employment status - other 479
hpr0198 – employment status - don't know 480
hpr0199 – employment status - not specified - refused to answer 480

19 Employment status, current position and job-related burden 481
emp0100 – employed (based on ILO concept) (>= 15 yr) 481
emp0200 – maternity/parental leave (>= 15 yr) 481
emp0300 – registered as unemployed (>= 15 yr) 482
emp0400 – employment (>= 16 yr) 483
emp0501 – KldB 2010 of occup. activity, 2 digits based on emp0500 (gen) 484
emp0503 – ISCO-08 of occ. activity, 2 digits based on emp0500 (gen) 485
emp0505 – ISEI based on ISCO-08 (International Socio Economic Index) (gen) . 486

inc0423 – flag: categorical income integrated in inc0401 (gen) . . . 528

21 Social participation **528**
sop0100 – participation: sports club (>= 10 yr) . . . 528
sop0100t – participation twin 1: sports club (m/f/n/g) . . . 529
sop0100u – participation twin 2: sports club (m/f/n/g) . . . 529
sop0100s – participation sibling: sports club (m/f/n/g) . . . 530
sop0101 – participation: choir, theater group, etc. (>= 10 yr) . . . 530
sop0101t – participation twin 1: choir, theater group (m/f/n/g) . . . 531
sop0101u – participation twin 2: choir, theater group (m/f/n/g) . . . 531
sop0101s – participation sibling: choir, theater group (m/f/n/g) . . . 532
sop0102 – participation: church/religious group (>= 10 yr) . . . 532
sop0102t – participation twin 1: church/religious group (m/f/n/g) . . . 533
sop0102u – participation twin 2: church/religious group (m/f/n/g) . . . 533
sop0102s – participation sibling: church/religious group (m/f/n/g) . . . 534
sop0103 – participation: trade union/occupational association/student council (>=10 yr) . . . 534
sop0104 – participation: volunteer fire department/technical assistance, etc. (>= 10 yr) . . . 535
sop0104t – participation twin 1: volunteer fire dept./technical assistance, etc (m/f/n/g) 535
sop0104u – participation twin 2: volunteer fire dept./technical assistance, etc (m/f/n/g) 536
sop0104s – participation sibling: volunteer fire dept./technical assistance, etc (m/f/n/g) 536
sop0105 – participation: local organisations/marksmen club (>= 10 yr) . . . 537
sop0105t – participation twin 1: local organisations/marksmen club(m/f/n/g, t >= 10 yr) . . . 537
sop0105u – participation twin 2:local organisations/marksmen club(m/f/n/g, u >= 10 yr) . . . 538
sop0105s – participation sibling: local organis./marksmen club (m/f/n/g, s>=10yr) 538
sop0106 – participation: political organisation/party/citizens' initiative (>= 10 yr) . 539
sop0107t – participation twin 1: student council (m/f/n/g, t >= 10 yr) . . . 539
sop0107u – participation twin 2: student council (m/f/n/g, u >= 10 yr) . . . 540
sop0107s – participation sibling: student council (m/f/n/g, s >= 10 yr) . . . 540
sop0150 – participation: other club/association (>= 10 yr) . . . 541
sop0150t – participation twin 1: other club/association (m/f/n/g) . . . 541
sop0150u – participation twin 2: other club/association (m/f/n/g) . . . 542
sop0150s – participation sibling: other club/association (m/f/n/g) . . . 542
sop0200 – function in association or club (>= 10 yr) . . . 543

22 Political orientation and participation **543**
pop0100 – interest in politics (>= 10 yr) . . . 543
pop0200 – political activity: attending political meetings/discussions/protest (>= 10 yr) . . . 544
pop0201 – political activity: participating in (online) petitions (>= 10 yr) . . . 544
pop0202 – political activity: boycott of companies/products (>= 10 yr) . . . 545
pop0300 – participation in last parliamentary election (>= 18 yr) . . . 545
pop0301 – hypothetical participation in election (>= 10 yr) . . . 546
pop0302 – political leanings: party (>= 10 yr) . . . 546
pop0310 – political leanings: party (gen) . . . 547

23 Social networks **548**
net0100 – trust: overall (>= 13 yr) . . . 548
net0101 – trust: you can't trust anybody nowadays (>= 13 yr) . . . 549
net0102 – trust: be careful about trusting strangers (>= 13 yr) . . . 549

net0200 – friends: shared acquaintances (>= 8 yr) . . . 550
net0201 – friends: hardly know anyone at friends' parties (>= 10 yr) . . . 551
net0202 – friends: Acquaintance family (>= 10 yr) . . . 551
net0203 – number of close friends (>= 8 yr) . . . 552
net0203t – number of close friends twin 1 (m/f/n/g) . . . 552
net0203u – number of close friends twin 2 (m/f/n/g) . . . 553
net0203s – number of close friends sibling (m/f/n/g) . . . 553
net0204 – number of close friends outside the household (>= 10 yr) . . . 554
net0204t – number of close friends outside the household twin 1 (m/f/n/g) . . . 554
net0204u – number of close friends outside the household twin 2 (m/f/n/g) . . . 555
net0204s – number of close friends outside the household sibling (m/f/n/g) . . . 555
net0300 – 1st important person: age (>= 10 yr) . . . 556
net0301 – 1st important person: sex (>= 10 yr) . . . 556
net0302 – 1st important person: highest educational qualification (>= 10 yr) . . . 557
net0303 – 1st important person: type of school (>= 10 yr) . . . 557
net0400 – 2nd important person: age (>= 10 yr) . . . 558
net0401 – 2nd important person: sex (>= 10 yr) . . . 558
net0402 – 2nd important person: highest educational qualification (>= 10 yr) . . . 559
net0403 – 2nd important person: type of school (>= 10 yr) . . . 559
net0500 – 3rd important person: age (>= 10 yr) . . . 560
net0501 – 3rd important person: sex (>= 10 yr) . . . 560
net0502 – 3rd important person: highest educational qualification (>= 10 yr) . . . 561
net0503 – 3rd important person: type of school (>= 10 yr) . . . 561
net0600 – loneliness (>= 10 yr) . . . 562

24 Global life satisfaction 562
gls0100 – satisfaction: life almost ideal (>=16 yr) . . . 563
gls0200 – satisfaction: excellent life conditions (>=16 yr) . . . 563
gls0300 – satisfaction: satisfied with life (>=16 yr) . . . 564
gls0400 – satisfaction: most important wishes in life fulfilled (>=16 yr) . . . 564
gls0500 – satisfaction: would change almost nothing in new life (>=16 yr) . . . 565
gls0600 – satisfaction: life as favored (t,u,s, <= 15 yr) . . . 566
gls0700 – satisfaction: excellent things in life (t,u,s, <= 15 yr) . . . 566
gls0800 – satisfaction: happy with life (t,u,s, <= 15 yr) . . . 567
gls0900 – satisfaction: most important wishes in life fulfilled (t,u,s, <= 15 yr) . . . 568
gls1000 – satisfaction: same life in new life (t,u,s, <= 15 yr) . . . 568

25 Domains of life satisfaction 569
sat0100 – satisfaction: health (>= 10 yr) . . . 569
sat0101 – satisfaction: job (>= 10 yr) . . . 570
sat0102 – satisfaction: school, if attending (>= 10 yr) . . . 570
sat0103 – satisfaction: personal income (>= 10 yr) . . . 571
sat0104 – satisfaction: leisure time (>= 10 yr) . . . 572
sat0105 – satisfaction: family life (>= 10 yr) . . . 572
sat0106 – satisfaction: partnership (>= 10 yr) . . . 573
sat0107 – satisfaction: friends (>= 10 yr) . . . 574
sat0200 – satisfaction with relationship to other twin (t,u, >= 10 yr) . . . 575
sat0200t – satisfaction with relationship to twin 1 (s, >= 10 yr) . . . 575
sat0200u – satisfaction with relationship to twin 2 (s, >= 10 yr) . . . 576
sat0200s – satisfaction with relationship to sibling (t,u, >= 10 yr) . . . 577
sat0300 – would like to be twin again in new life (t,u, >= 10 yr) . . . 577

26 Subjective physical health **578**
she0100 – last 12 months: state of health (>= 10 yr) . . . 578
she0100t – last 12 months: state of health twin 1 (m/f/n/g) . . . 578
she0100u – last 12 months: state of health twin 2 (m/f/n/g) . . . 579
she0100s – last 12 months: state of health sibling (m/f/n/g) . . . 579

27 Objective physical health / Diagnoses **580**
bdy0100 – height in cm (>= 10 yr) . . . 580
bdy0100t – height in cm twin 1 (m/f/n/g) . . . 581
bdy0100u – height in cm twin 2 (m/f/n/g) . . . 581
bdy0100s – height in cm sibling (m/f/n/g) . . . 582
bdy0100_dht – difference between several height values (gen) . . . 582
bdy0100_hgt – height in cm: corrected (gen) . . . 582
bdy0100_nht – number of height values given (gen) . . . 583
bdy0200 – weight in kg (>= 10 yr) . . . 583
bdy0200t – weight in kg twin 1 (m/f/n/g) . . . 584
bdy0200u – weight in kg twin 2 (m/f/n/g) . . . 584
bdy0200s – weight in kg sibling (m/f/n/g) . . . 584
bdy0200_dwt – difference between several weight values (gen) . . . 585
bdy0200_nwt – number of weight values given (gen) . . . 585
bdy0200_wgt – weight in kg: corrected (gen) . . . 586
bdy0300 – BMI: corrected (gen) . . . 586
bdy1001 – flag: peculiarities height (gen) . . . 587
bdy1002 – flag: peculiarities weight (gen) . . . 587
bdy1003 – flag: peculiarities BMI (gen) . . . 588
dia0100 – diagnosis: sleeping disorder (>= 16 yr) . . . 588
dia0101 – sleeping disorder: start month (>= 16 yr) . . . 588
dia0102 – sleeping disorder: start year (>= 16 yr) . . . 589

28 Health-related behavior **767**
doc0100 – visits to the doctor in the last 12 months (>= 16 yr) . . . 767
doc0100t – twin 1 visit to the doctor in the last 12 months (m/f/n/g) . . . 767
doc0100u – twin 2 visit to the doctor in the last 12 months (m/f/n/g) . . . 768
doc0100s – sibling visit to the doctor in the last 12 months (m/f/n/g) . . . 768
doc0101 – visits to the doctor in the last 12 months: frequency (>= 16 yr) . . . 769
doc0101t – frequency: twin 1 visits to the doctor in the last 12 months (m/f/n/g) . 769
doc0101u – frequency: twin 2 visits to the doctor in the last 12 months (m/f/n/g) . 770
doc0101s – frequency: sibling visits to the doctor in the last 12 months (m/f/n/g) . 770
hbe0100 – smoking behavior (>= 16 yr) . . . 771
hbe0101 – smoking behavior: age at beginning (>= 16 yr) . . . 772
hbe0102 – smoking behavior: in company or alone (>= 16 yr) . . . 772
hbe0200 – alcohol consumption: age at beginning (>= 16 yr) . . . 773
hbe0201 – alcohol consumption: in company or alone (>= 16 yr) . . . 773
hbe0202 – excessive alcohol consumption: frequency (>= 16 yr) . . . 774
hbe0210 – excessive alcohol consumption: beer - number of glasses (>= 16 yr) . . 774
hbe0220 – excessive alcohol consumption: wine - number of glasses (>= 16 yr) . . 775
hbe0230 – excessive alcohol consumption: high-proof alcohol - number of glasses (>= 16 yr) . . . 775
hbe0240 – extent of alcohol consumption: beer (>= 16 yr) . . . 776
hbe0241 – extent of alcohol consumption: wine, sparkling wine (>= 16 yr) . . . 776
hbe0242 – extent of alcohol consumption: high-proof alcohol (>= 16 yr) . . . 777
hbe0250 – alcohol consumption: impairment at work (>= 16 yr) . . . 778
hbe0300 – medication with side-effects (>= 16 yr) . . . 778
hbe0400 – preventive health care (>= 16 yr) . . . 779
hbe0500t – medication twin 1 (m/f/n/g) . . . 779
hbe0500u – medication twin 2 (m/f/n/g) . . . 780
hbe0500s – medication sibling (m/f/n/g) . . . 780

29 Internalizing problem behavior **780**
int0100 – I have frequent headaches/stomach aches (>= 10 yr) . . . 781
int0100t – frequent headaches/stomachaches twin 1 (m/f/n/g) . . . 781
int0100u – frequent headaches/stomachaches - twin 2 (m/f/n/g) . . . 782

int0100s – frequent headaches/stomachaches sibling (m/f/n/g) 782
int0101 – I'm often worried (>= 10 yr) 783
int0101t – many worries, often depressed - twin 1 (m/f/n/g) 783
int0101u – many worries, often depressed - twin 2 (m/f/n/g) 784
int0101s – many worries, often depressed - sibling (m/f/n/g) 784
int0102 – I'm often unhappy or depressed (>= 10 yr) 785
int0102t – often unhappy, often cries - twin 1 (m/f/n/g) 785
int0102u – often unhappy, often cries - twin 2 (m/f/n/g) 786
int0102s – often unhappy, often cries - sibling (m/f/n/g) 786
int0103 – I'm nervous in new situations (>= 10 yr) 787
int0103t – nervous in new situations, loses self-confidence - twin 1 (m/f/n/g) . . . 787
int0103u – nervous in new situations, loses self-confidence - twin 2 (m/f/n/g) . . 788
int0103s – nervous in new situations, loses self-confidence - sibling (m/f/n/g) . . 788
int0104 – I have a lot of fears (>= 10 yr) 789
int0104t – many fears, gets scared easily - twin 1 (m/f/n/g) 789
int0104u – many fears, gets scared easily - twin 2 (m/f/n/g) 790
int0104s – many fears, gets scared easily - sibling (m/f/n/g) 790
int0105 – I'm usually on my own (>= 10 yr) 791
int0105t – loner, mostly plays alone - twin 1 (m/f/n/g) 791
int0105u – loner, mostly plays alone - twin 2 (m/f/n/g) 792
int0105s – loner, mostly plays alone - sibling (m/f/n/g) 792
int0106 – I have one or more good friends (>= 10 yr) 793
int0106t – has one or more good friends - twin 1 (m/f/n/g) 793
int0106u – has one or more good friends - twin 2 (m/f/n/g) 794
int0106s – has one or more good friends - sibling (m/f/n/g) 794
int0107 – Other people my age generally like me (>= 10 yr) 795
int0107t – is generally popular - twin 1 (m/f/n/g) 795
int0107u – is generally popular - twin 2 (m/f/n/g) 796
int0107s – is generally popular - sibling (m/f/n/g) 796
int0108 – I get teased or bullied by others (>= 10 & <18 yr) 797
int0108t – frequently teased or bullied - twin 1 (m/f/n/g) 797
int0108u – frequently teased or bullied - twin 2 (m/f/n/g) 798
int0108s – frequently teased or bullied - sibling (m/f/n/g) 798
int0109 – I get on better with adults than with people my own age (>= 10 & <18 yr) 799
int0109t – gets along better with adults than with other children-twin 1 (m/f/n/g) 799
int0109u – gets along better with adults than with other children-twin 2 (m/f/n/g) 800
int0109s – gets along better with adults than with other children-sib (m/f/n/g) . . 801
int0110 – I'm withdrawn (>= 18 yr) 801
int0111 – Other people pick on me or bully me (>= 18 yr) 802

30 Externalizing problem behavior **802**
ext0100 – I'm often restless (>= 10 yr) 802
ext0100t – hyperactive - twin 1 (m/f/n/g) 803
ext0100u – hyperactive - twin 2 (m/f/n/g) 803
ext0100s – hyperactive - sibling (m/f/n/g) 804
ext0101 – I'm always moving, fidgeting (>= 10 & <18 yr) 804
ext0101t – easily distracted, unfocused - twin 1 (m/f/n/g) 805
ext0101u – easily distracted, unfocused - twin 2 (m/f/n/g) 805
ext0101s – easily distracted, unfocused - sibling (m/f/n/g) 806
ext0102 – I'm easily distracted and unfocused (>= 10 yr) 807
ext0102t – thinks before acting - twin 1 (m/f/n/g) 807

ext0102u – thinks before acting - twin 2 (m/f/n/g) . . . 808
ext0102s – thinks before acting - sibling (m/f/n/g) . . . 808
ext0103 – I think before acting (>= 10 yr) . . . 809
ext0103t – finishes tasks - twin 1 (m/f/n/g) . . . 809
ext0103u – finishes tasks - twin 2 (m/f/n/g) . . . 810
ext0103s – finishes tasks - sibling (m/f/n/g) . . . 810
ext0104 – I finish what I start and am able to concentrate (>= 10 yr) . . . 811
ext0104t – frequent fits of anger, short temper - twin 1 (m/f/n/g) . . . 811
ext0104u – frequent fits of anger, short temper - twin 2 (m/f/n/g) . . . 812
ext0104s – frequent fits of anger, short temper - sibling (m/f/n/g) . . . 813
ext0105 – I get mad easily (>= 10 yr) . . . 813
ext0105t – mostly compliant - twin 1 (m/f/n/g) . . . 814
ext0105u – mostly compliant - twin 2 (m/f/n/g) . . . 814
ext0105s – mostly compliant - sibling (m/f/n/g) . . . 815
ext0106 – I normally do what people tell me to do (>= 10 yr) . . . 815
ext0106t – argues with and bullies other children - twin 1 (m/f/n/g) . . . 816
ext0106u – argues with and bullies other children - twin 2 (m/f/n/g) . . . 817
ext0106s – argues with and bullies other children - sibling (m/f/n/g) . . . 817
ext0107 – I attack others physically (>= 10 yr) . . . 818
ext0107t – frequent lying/cheating - twin 1 (m/f/n/g) . . . 818
ext0107u – frequent lying/cheating - twin 2 (m/f/n/g) . . . 819
ext0107s – frequent lying/cheating - sibling (m/f/n/g) . . . 819
ext0108 – People claim that I lie (>= 10 yr) . . . 820
ext0108t – steals at home/at school/elsewhere - twin 1 (m/f/n/g) . . . 820
ext0108u – steals at home/at school/elsewhere - twin 2 (m/f/n/g) . . . 821
ext0108s – steals at home/at school/elsewhere - sibling (m/f/n/g) . . . 822
ext0109 – I take things that don't belong to me (>= 10 yr) . . . 822
ext0109t – twitchy - twin 1 (m/f/n/g) . . . 823
ext0109u – twitchy - twin 2 (m/f/n/g) . . . 823
ext0109s – twitchy - sibling (m/f/n/g) . . . 824

31 Deviant and delinquent Behavior 824
del0100 – delinquency ever: fare dodging (t,u,s, >= 10 & <= 18 yr) . . . 825
del0101 – delinquency last 12 months: fare dodging frequency (t,u,s, >= 10 & <= 18 yr) . . . 825
del0200 – delinquency ever: away over night (t,u,s, >= 10 & <= 18 yr) . . . 826
del0201 – delinquency last 12 months: away over night frequency (t,u,s, >= 10 & <= 18 yr) . . . 826
del0202 – away over night: alone/in group (t,u,s, >= 10 & <= 18 yr) . . . 827
del0300 – delinquency ever: skipping school (t,u,s, >= 10 & <= 18 yr) . . . 828
del0301 – delinquency last 12 months: skipping school frequency (t,u,s, >= 10 & <= 18 yr) . . . 828
del0302 – skipping school: alone/in group (t,u,s, >= 10 & <= 18 yr) . . . 829
del0303 – skipping school: several days (t,u,s, >= 10 & <= 18 yr) . . . 829
del0400 – delinquency ever: shoplifting (>= 10 yr) . . . 830
del0401 – delinquency last 12 months: shoplifting frequency (>= 10 yr) . . . 831
del0402 – shoplifting: alone/in group (>= 10 yr) . . . 832
del0500 – delinquency ever: stealing from classmates or others (>= 10 yr) . . . 832
del0501 – delinquency last 12 months: stealing from classmates or oth. freq. (>= 10 yr) . . . 833
del0502 – stealing from classmates or others: alone or in a group (>= 10 yr) . . . 833

del0600 – delinquency ever: graffiti/scratching (>= 10 yr) . . . 834
del0601 – delinquency last 12 months: graffiti/scratching frequency (>= 10 yr) . . 835
del0602 – graffiti/scratching: alone/in group (>= 10 yr) . . . 835
del0700 – delinquency ever: vandalism (>= 10 yr) . . . 836
del0701 – delinquency last 12 months: vandalism frequency (>= 10 yr) . . . 837
del0702 – vandalism: alone/in group (>= 10 yr) . . . 837
del0800 – delinquency ever: cyber bullying (>= 10 yr) . . . 838
del0801 – delinquency last 12 months: cyber bullying frequency (>= 10 yr) . . . 839
del0900 – delinquency ever: illegal downloading (>= 10 yr) . . . 840
del0901 – delinquency last 12 months: illegal downloading frequency (>= 10 yr) . 840
del1000 – delinquency ever: bullying classmates (t,u,s,p,q,>=10&<=18 yr) . . . 841
del1001 – delinquency last 12 months: bullying classmates freq (t,u,s,p,q,>=10&<=18 yr) . . . 841
del1002 – bullying classmates: alone/in group (t,u,s, >= 10 & <= 18 yr) . . . 842
del1100 – delinquency ever: threatening/robbing (>= 10 yr) . . . 842
del1101 – delinquency last 12 months: threatening/robbing frequency (>= 10 yr) . 843
del1102 – threatening/robbing: alone/in group (>= 10 yr) . . . 844
del1200 – smoking ever (t,u,s, >= 10 & <= 16 yr) . . . 845
del1201 – age first time smoking (t,u,s, >= 10 & <= 16 yr) . . . 845
del1202 – smoked several times (t,u,s, >= 10 & <= 16 yr) . . . 846
del1203 – smoking frequency (t,u,s, >= 10 & <= 16 yr) . . . 846
del1204 – delinquency ever: smoking alone/in group (t,u,s, >= 10 & <= 15 yr) . . . 847
del1300 – drinking alcohol ever (t,u,s, >= 10 & <= 15 yr) . . . 847
del1301 – age first time alcohol (t,u,s, >= 10 & <= 15 yr) . . . 848
del1302 – alcohol several times (t,u,s, >= 10 & <= 15 yr) . . . 849
del1303 – alcohol alone/in group (t,u,s, >= 10 & <= 15 yr) . . . 849
del1304 – ever drunk (t,u,s, >= 10 & <= 15 yr) . . . 850
del1305 – age first time drunk (t,u,s, >= 10 & <= 15 yr) . . . 850
del1306 – drunk: amount beer (0.3 l) (t,u,s, >= 10 & <= 15 yr) . . . 851
del1307 – drunk: amount wine (0.2 l) (t,u,s, >= 10 & <= 15 yr) . . . 851
del1308 – drunk: amount high-proof alcohol (2 cl) (t,u,s, >= 10 & <= 15 yr) . . . 852
del1309 – being drunk: frequency (t,u,s, >= 10 & <= 15 yr) . . . 852
del1400 – delinquency ever: beating someone up (>= 10 yr) . . . 853
del1401 – delinquency last 12 months: beating someone up frequency (>= 10 yr) . 854
del1402 – beating someone up: alone/in group (>= 10 yr) . . . 855
del1500 – delinquency ever: consuming drugs (>= 10 yr) . . . 855

sre0103s – frequency: telling secrets to sibling (t,u, >9 & < 15 yr) 1002
sre0104 – frequency: getting into arguments other twin (t,u, >9 & <15 yr) 1003
sre0104t – frequency: getting into arguments with twin 1 (s, >9 & < 15 yr) 1003
sre0104u – frequency: getting into arguments with twin 2 (s, >9 & < 15 yr) 1004
sre0104s – frequency: getting into arguments with sibling (t,u, >9 & < 15 yr) 1004
sre0105 – frequency: being mad or angry at other twin (t,u, >9 & <15 yr) 1005
sre0105t – frequency: being mad or angry at twin 1 (s, >9 & < 15 yr) 1006
sre0105u – frequency: being mad or angry at twin 2 (s, >9 & < 15 yr) 1006
sre0105s – frequency: being mad or angry at sibling (t,u, >9 & < 15 yr) 1007
sre0106 – frequency: hurting other twin (t,u, >9 & <15 yr) 1007
sre0106t – frequency: hurting twin 1 (s, >9 & < 15 yr) 1008
sre0106u – frequency: hurting twin 2 (s, >9 & < 15 yr) 1008
sre0106s – frequency: hurting sibling (t,u, >9 & < 15 yr) 1009
sre0107 – frequency: annoying other twin (t,u, >9 & <15 yr) 1009
sre0107t – frequency: annoying twin 1 (s, >9 & < 15 yr) 1010
sre0107u – frequency: annoying twin 2 (s, >9 & < 15 yr) 1010
sre0107s – frequency: annoying sibling (t,u, >9 & < 15 yr) 1011
sre0108 – frequency: feeling that mother prefers other twin (t,u, >9 & <15 yr) 1012
sre0108t – frequency: feeling that mother prefers twin 1 (s, >9 & < 15 yr) 1012
sre0108u – frequency: feeling that mother prefers twin 2 (s, >9 & < 15 yr) 1013
sre0108s – frequency: feeling that mother prefers sibling (t,u, >9 & < 15 yr) 1013
sre0109 – frequency: feeling that father prefers other twin (t,u, >9 & <15 yr) 1014
sre0109t – frequency: feeling that father prefers twin 1 (s, >9 & < 15 yr) 1014
sre0109u – frequency: feeling that father prefers twin 2 (s, >9 & < 15 yr) 1015
sre0109s – frequency: feeling that father prefers sibling (t,u, >9 & < 15 yr) 1015
sre0110 – freq.:jealousy when mother pays more attention to other twin(t,u, >= 10&<=12 yr) 1016
sre0110t – freq.: jealousy when mother pays more attention to twin 1 (s, >9 & < 15 yr) 1017
sre0110u – freq.: jealousy when mother pays more attention to twin 2 (s, >9 & < 15 yr) 1017
sre0110s – frequency: jealousy when mother pays more attention to sib. (t,u, >9 & < 15 yr) 1018
sre0111 – freq.:jealousy when father pays more attention to other twin(t,u, >= 10&<=12 yr) 1018
sre0111t – freq.: jealousy when father pays more attention to twin 1 (s, >9 & < 15 yr) 1019
sre0111u – freq.: jealousy when father pays more attention to twin 2 (s, >9 & < 15 yr) 1019
sre0111s – frequency: jealousy when father pays more attention to sib. (t,u, >9 & < 15 yr) 1020
sre0200 – frequency: talks with other twin about important things (t,u, >= 15 yr) . 1020
sre0200t – frequency: talks with twin 1 about important things (s, >= 16 yr) 1021
sre0200u – frequency: talks with twin 2 about important things (s, >= 15 yr) . . . 1022
sre0200s – frequency: talks with sibling about important things (t,u, >= 15 yr) . . 1022
sre0201 – frequency: arguing with other twin (t,u, >= 15 yr) 1023
sre0201t – frequency: arguing with twin 1 (s, >= 16 yr) 1024
sre0201u – frequency: arguing with twin 2 (s, >= 15 yr) 1024

sre0201s – frequency: arguing with sibling (t,u, >= 15 yr) 1025
sre0202 – frequency: doing things that annoy other twin (t,u, >= 15 yr) 1025
sre0202t – frequency: doing things to make twin 1 mad (s, >= 16 yr) 1026
sre0202u – frequency: doing things to make twin 2 mad (s, >= 15 yr) 1027
sre0202s – frequency: doing things to make sibling mad (t,u, >= 15 yr) 1027
sre0300 – attempt to cheer other twin up (t,u, >= 15 yr) 1028
sre0300t – attempt to cheer twin 1 up (s, >= 16 yr) 1028
sre0300u – attempt to cheer twin 2 up (s, >= 15 yr) 1029
sre0300s – attempt to cheer sibling up (t,u, >= 15 yr) 1029
sre0301 – anger over other twin (t,u, >= 15 yr) 1030
sre0301t – anger over twin 1 (s, >= 16 yr) 1030
sre0301u – anger over twin 2 (s, >= 15 yr) 1031
sre0301s – anger over sibling (t,u, >= 15 yr) 1032
sre0302 – feeling of closeness to other twin (t,u, >= 15 yr) 1032
sre0302t – feeling of closeness to twin 1 (s, >= 16 yr) 1033
sre0302u – feeling of closeness to twin 2 (s, >= 15 yr) 1033
sre0302s – feeling of closeness to sibling (t,u, >= 15 yr) 1034
sre0400 – support from mother - comparison to other twin (t,u, >= 15 yr) 1034
sre0400t – support from mother - comparison to twin 1 (s, >= 16 yr) 1035
sre0400u – support from mother - comparison to twin 2 (s, >= 15 yr) 1036
sre0400s – support from mother - comparison to sibling (t,u, >= 15 yr) 1036
sre0401 – support from father - comparison to other twin (t,u, >= 15 yr) 1037
sre0401t – support from father - comparison to twin 1 (s, >= 16 yr) 1037
sre0401u – support from father - comparison to twin 2 (s, >= 15 yr) 1038
sre0401s – support from father - comparison to sibling (t,u, >= 15 yr) 1039
sre0402 – closeness to mother - comparison to other twin (t,u, >= 15 yr) 1039
sre0402t – closeness to mother - comparison to twin 1 (s, >= 16 yr) 1040
sre0402u – closeness to mother - comparison to twin 2 (s, >= 15 yr) 1040
sre0402s – closeness to mother - comparison to sibling (t,u, >= 15 yr) 1041
sre0403 – closeness to father - comparison to other twin (t,u, >= 15 yr) 1041
sre0403t – closeness to father - comparison to twin 1 (s, >= 16 yr) 1042
sre0403u – closeness to father - comparison to twin 2 (s, >= 15 yr) 1043
sre0403s – closeness to father - comparison to sibling (t,u, >= 15 yr) 1043
sre0500 – frequency: doing nice things for other twin (t,u, < 10 yr) 1044
sre0500t – frequency: doing nice things for twin 1 (s, < 10 yr) 1044
sre0500u – frequency: doing nice things for twin 2 (s, < 10 yr) 1045
sre0500s – frequency: doing nice things for sibling (t,u, < 10 yr) 1045
sre0501 – frequency: treating other twin affectionately (t,u, < 10 yr) 1046
sre0501t – frequency: treating twin 1 affectionately (s, < 10 yr) 1046
sre0501u – frequency: treating twin 2 affectionately (s, < 10 yr) 1047
sre0501s – frequency: treating sibling affectionately (t,u, < 10 yr) 1047
sre0502 – frequency: cheering up other twin (t,u, < 10 yr) 1048
sre0502t – frequency: cheering up twin 1 (s, < 10 yr) 1048
sre0502u – frequency: cheering up twin 2 (s, < 10 yr) 1049
sre0502s – frequency: cheering up sibling (t,u, < 10 yr) 1049
sre0503 – frequency: telling secrets to other twin (t,u, < 10 yr) 1050
sre0503t – frequency: telling secrets to twin 1 (s, < 10 yr) 1050
sre0503u – frequency: telling secrets to twin 2 (s, < 10 yr) 1051
sre0503s – frequency: telling secrets to sibling (t,u, < 10 yr) 1051
sre0504 – frequency: starting fights with other twin (t,u, < 10 yr) 1051

sre0504t – frequency: starting fights with with twin 1 (s, < 10 yr) 1052
sre0504u – frequency: starting fights with with twin 2 (s, < 10 yr) 1052
sre0504s – frequency: starting fights with with sibling (t,u, < 10 yr) 1053
sre0505 – frequency: being mad or angry at other twin (t,u, < 10 yr) 1053
sre0505t – frequency: being mad or angry at twin 1 (s, < 10 yr) 1054
sre0505u – frequency: being mad or angry at twin 2 (s, < 10 yr) 1054
sre0505s – frequency: being mad or angry at sibling (t,u, < 10 yr) 1055
sre0506 – frequency: hurting other twin (t,u, < 10 yr) 1055
sre0506t – frequency: hurting twin 1 (s, < 10 yr) 1056
sre0506u – frequency: hurting twin 2 (s, < 10 yr) 1056
sre0506s – frequency: hurting sibling (t,u, < 10 yr) 1057
sre0507 – frequency: annoying other twin (t,u, < 10 yr) 1057
sre0507t – frequency: annoying twin 1 (s, < 10 yr) 1058
sre0507u – frequency: annoying twin 2 (s, < 10 yr) 1058
sre0507s – frequency: annoying sibling (t,u, < 10 yr) 1059
sre0508 – frequency: feeling that mother prefers other twin (t,u, < 10 yr) 1059
sre0508t – frequency: feeling that mother prefers twin 1 (s, < 10 yr) 1060
sre0508u – frequency: feeling that mother prefers twin 2 (s, < 10 yr) 1060
sre0508s – frequency: feeling that mother prefers sibling (t,u, < 10 yr) 1061
sre0509 – frequency: feeling that father prefers other twin (t,u, < 10 yr) 1061
sre0509t – frequency: feeling that father prefers twin 1 (s, < 10 yr) 1062
sre0509u – frequency: feeling that father prefers twin 2 (s, < 10 yr) 1062
sre0509s – frequency: feeling that father prefers sibling (t,u, < 10 yr) 1063
sre0510 – frequency: jealous when mother pays more attention to other twin (t,u, < 10 yr) 1063
sre0510t – frequency: jealous when mother pays more attention to twin 1 (s, < 10 yr) 1064
sre0510u – frequency: jealous when mother pays more attention to twin 2 (s, < 10 yr) 1064
sre0510s – frequency:jealous when mother pays more attention to sibling(t,u, < 10 yr) 1065
sre0511 – frequency: jealous when father pays more attention to other twin (t,u, < 10 yr) 1065
sre0511t – frequency: jealous when father pays more attention to twin 1 (s, < 10 yr) 1066
sre0511u – frequency: jealous when father pays more attention to twin 2 (s, < 10 yr) 1066
sre0511s – frequency:jealous when father pays more attention to sibling(t,u, < 10 yr) 1066

37 Quality of home environment **1067**
hoe0100 – regular bedtime routine (t,u,s, >= 10 & <= 13 yr) 1067
hoe0101 – used to have regular bedtime routine (t,u,s,p,q, >= 10 yr) 1068
hoe0102 – regular bedtime routine for children (m,f,n,g) 1068
hoe0200 – cannot think clearly at home (>= 10 yr) 1069
hoe0201 – could not have clear thoughts at home in the past (t,u,s,p,q, >= 10 yr) . 1070
hoe0300 – at home everything is chaotic. (>= 10 yr) 1071
hoe0301 – at home everything used to be chaotic. (t,u,s,p,q, >= 10 yr) 1071
hoe0400 – at home everything is under control. (>= 10 yr) 1072
hoe0401 – at home everything used to be under control. (t,u,s,p,q, >= 10 yr) 1073
hoe0500 – at home TV almost always on. (>= 10 yr) 1074
hoe0501 – at home TV used to almost always be on. (t,u,s,p,q, >= 10 yr) 1075
hoe0600 – the atmosphere at home is quiet. (>= 10 yr) 1075
hoe0601 – the atmosphere at home used to be quiet. (t,u,s,p,q, >= 10 yr) 1076

38 Family activities **1077**
acc0100 – activities with family member:singing / playing music (t,u,s, <= 16 yr) . 1077
acc0101 – activities with family member: reading/talking about books (t,u,s, <= 16 yr) 1077
acc0102 – activities with family member: sports (t,u,s, <= 16 yr) 1078
acc0103 – activities with family member: walks, day trips (t,u,s, <= 16 yr) 1078
acc0104 – activities with family member: theater, museum, etc. (t,u,s, < 16 yr) . . 1079
acp0100t – activities with twin 1: singing / making music (m,f,n,g, <= 10 yr) . . . 1079
acp0100u – activities with twin 2: singing / making music (m,f,n,g, <= 10 yr) . . . 1080
acp0100s – activities with sibling: singing / making music (m,f,n,g, <= 10 yr) . . . 1081
acp0101t – activities with twin 1: reading books or stories (m,f,n,g, <= 10 yr) 1081
acp0101u – activities with twin 2: reading books or stories (m,f,n,g, <= 10 yr) . . . 1082
acp0101s – activities with sibling: reading books or stories (m,f,n,g, <= 10 yr) . . . 1082
acp0102t – activities with twin 1: sports (m,f,n,g, <= 10 yr) 1083
acp0102u – activities with twin 2: sports (m,f,n,g, <= 10 yr) 1084
acp0102s – activities with sibling: sports (m,f,n,g, <= 10 yr) 1084
acp0103t – activities with twin 1: playground, walks, day trips (m,f,n,g, <= 10 yr) . 1085
acp0103u – activities with twin 2: playground, walks, day trips (m,f,n,g, <= 10 yr) . 1085
acp0103s – activities with sibling: playground, walks, day trips (m,f,n,g, <= 10 yr) . 1086

39 Grandparents **1087**
gre0100 – grandparents alive: mother's mother (t,u,s, >= 10 yr) 1087
gre0100t – grandparents twin 1 alive: mother of the respondent (m/f/n/g) 1087
gre0100u – grandparents twin 2 alive: mother of the respondent (m/f/n/g) 1088
gre0100s – grandparents sibling alive: mother of the respondent (m/f/n/g) 1088
gre0101 – grandparents alive: mother's father (t,u,s, >= 10 yr) 1089
gre0101t – grandparents twin 1 alive: father of the respondent (m/f/n/g) 1089
gre0101u – grandparents twin 2 alive: father of the respondent (m/f/n/g) 1089
gre0101s – grandparents sibling alive: father of the respondent (m/f/n/g) 1090
gre0102 – grandparents alive: father's mother (t,u,s, >= 10 yr) 1090
gre0102t – grandparents twin 1 alive: mother of the partner (m/f/n/g) 1091
gre0102u – grandparents twin 2 alive: mother of the partner (m/f/n/g) 1091
gre0102s – grandparents sibling alive: mother of the partner (m/f/n/g) 1092
gre0103 – grandparents alive: father's father (t,u,s, >= 10 yr) 1092
gre0103t – grandparents twin 1 alive: father of the partner (m/f/n/g) 1093
gre0103u – grandparents twin 2 alive: father of the partner (m/f/n/g) 1093
gre0103s – grandparents sibling alive: father of the partner (m/f/n/g) 1093
gre0104t – grandparents twin 1 alive: other grandp. e.g. mother of bio. father (m/f/n/g) 1094
gre0104u – grandparents twin 2 alive: other grandp. e.g. mother of bio. father (m/f/n/g) 1094
gre0104s – grandparents sibling alive: other grandp. e.g.mother of bio. father (m/f/n/g) 1095
gre0105t – grandparents twin 1 alive: other grandp. e.g. father of bio. father (m/f/n/g) 1095
gre0105u – grandparents twin 2 alive: other grandp. e.g. father of bio. father (m/f/n/g) 1096
gre0105s – grandparents sibling alive: other grandp. e.g.father of bio. father (m/f/n/g) 1096
gre0300 – frequency meeting grandparents: mother's mother (t,u,s, >= 10 yr) . . . 1097
gre0300t – frequency meetings twin 1 with mother of the respondent (m/f/n/g) . 1097
gre0300u – frequency meetings twin 2 with mother of the respondent (m/f/n/g) . 1097

gre0300s – frequency meetings sibling with mother of the respondent (m/f/n/g) . 1098
gre0301 – frequency meeting grandparents: mother's father (t,u,s, >= 10 yr) . . . 1098
gre0301t – frequency meetings twin 1 with father of the respondent (m/f/n/g) . . 1099
gre0301u – frequency meetings twin 2 with father of the respondent (m/f/n/g) . . 1099
gre0301s – frequency meetings sibling with father of the respondent (m/f/n/g) . . 1100
gre0302 – frequency meeting grandparents: father's mother (t,u,s, >= 10 yr) . . . 1100
gre0302t – frequency meetings twin 1 with mother of the partner (m/f/n/g) . . . 1101
gre0302u – frequency meetings twin 2 with mother of the partner (m/f/n/g) . . . 1101
gre0302s – frequency meetings sibling with mother of the partner (m/f/n/g) . . . 1101
gre0303 – frequency meeting grandparents: father's father (t,u,s, >= 10 yr) 1102
gre0303t – frequency meetings twin 1 with father of the partner (m/f/n/g) 1102
gre0303u – frequency meetings twin 2 with father of the partner (m/f/n/g) 1103
gre0303s – frequency meetings sibling with father of the partner (m/f/n/g) 1103
gre0304t – frequency meetings twin 1 with other e.g. mother of bio. father (m/f/n/g)1104
gre0304u – frequency meetings twin 2 with other e.g. mother of bio. father (m/f/n/g)1104
gre0304s – frequency meetings sibling with other e.g. mother of bio. father (m/f/n/g)1105
gre0305t – frequency meetings twin 1 with other e.g. father of bio. father (m/f/n/g) 1105
gre0305u – frequency meetings twin 2 with other e.g. father of bio. father (m/f/n/g)1106
gre0305s – frequency meetings sibling with other e.g. father of bio. father (m/f/n/g)1106
gre0400 – frequency activities grandparents: mother's mother (t,u,s, >= 10 yr) . . 1107
gre0401 – frequency activities grandparents: mother's father (t,u,s, >= 10 yr) . . . 1107
gre0402 – frequency activities grandparents: father's mother (t,u,s, >= 10 yr) . . . 1107
gre0403 – frequency activities grandparents: father's father (t,u,s, >= 10 yr) 1108
gre0500 – freq. conversation about problems grandparents:mother's mother (t,u,s, >= 10 yr) 1108
gre0501 – freq. conversation about problems grandparents:mother's father (t,u,s, >= 10 yr) 1109
gre0502 – freq. conversation about problems grandparents:father's mother (t,u,s, >= 10 yr) 1109
gre0503 – freq. conversation about problems grandparents:father's father (t,u,s, >= 10 yr) 1110

40 Childcare and care characteristics 1110
cai0100t – care facility of twin 1 - up to age 3: group size (m/f/n/g) 1110
cai0100u – care facility of T2-up to age 3: group size (m/f/n/g) 1111
cai0100s – care facility of sibling-up to age 3: group size (m/f/n/g) 1111
cai0200t – care facility of T1-up to age 3: no. of childcare providers (m/f/n/g) . . . 1112
cai0200u – care facility of T2-up to age 3: number of childcare providers (m/f/n/g) 1112
cai0200s – care facility of sibling-up to age 3: no. of childc. prov. (m/f/n/g) 1112
cai0300t – care facility of T1-up to age 3: no. of childcare prov. w/o train. (m/f/n/g) 1113
cai0300u – care facility of T2-up to age 3:no.of childcare providers w/o training(m/f/n/g)1113
cai0300s – care facility of sibling-up to age 3: no. of childc. prov. w/o tr. (m/f/n/g) 1114
cai1100t – care facility of T1-from age 3: group size (m/f/n/g) 1114
cai1100u – care facility of T2-from age 3: group size (m/f/n/g) 1115
cai1100s – care facility of sibling-from age 3: group size (m/f/n/g) 1115
cai1200t – care facility of T1-from age 3: no. of childcare providers (m/f/n/g) . . . 1115
cai1200u – care facility of T2-from age 3: number of childcare providers (m/f/n/g) 1116
cai1200s – care facility of sibling-from age 3: no. of childc. prov. (m/f/n/g) 1116
cai1300t – care facility of T1-from age 3: no. of childc. prov. w/o training (m/f/n/g) 1117
cai1300u – care facility of T2-from age 3: no. of childcare prov. w/o training (m/f/n/g)1117
cai1300s – care facility of sibling-from age 3: no. of childc. prov. w/o train.(m/f/n/g)1118

car0100t – care of twin 1 0-6 months: self (m/f/n/g) 1118
car0100u – care of twin 2 0-6 months: self (m/f/n/g) 1118
car0100s – care of sibling 0-6 months: self (m/f/n/g) 1119
car0101t – care of twin 1 0-6 months: other parent - same household (m/f/n/g) . . 1119
car0101u – care of twin 2 0-6 months: other parent - same household (m/f/n/g) . 1120
car0101s – care of sibling 0-6 months: other parent - same household (m/f/n/g) . 1120
car0102t – care of twin 1 0-6 months: other parent - other household (m/f/n/g) . . 1121
car0102u – care of twin 2 0-6 months: other parent - other household (m/f/n/g) . 1121
car0102s – care of sibling 0-6 months: other parent-other household(m/f/n/g) . . 1122
car0103t – care of twin 1 0-6 months: partner - not parent (m/f/n/g) 1122
car0103u – care of twin 2 0-6 months: partner - not parent (m/f/n/g) 1123
car0103s – care of sibling 0-6 months: partner - not parent (m/f/n/g) 1123
car0104t – care of twin 1 0-6 months: grandparents (m/f/n/g) 1123
car0104u – care of twin 2 0-6 months: grandparents (m/f/n/g) 1124

med0700s – game console sibling: hrs/day during school or work week (m/f/n/g) 1319
med0800 – game console: hrs/day on weekend (>= 10 yr) 1319
med0800t – game console T1: hrs/day during weekend (m/f/n/g) 1320
med0800u – game console T2: hrs/day during weekend (m/f/n/g) 1321
med0800s – game console sibling: hrs/day during weekend (m/f/n/g) 1321
med0900 – TV/DVD: hrs/day during school or work week (>= 10 yr) 1322

med0900t – TV/DVD T1: hrs/day during school or work week (m/f/n/g) 1322
med0900u – TV/DVD T2: hrs/day during school or work week (m/f/n/g) 1323
med0900s – TV/DVD sibling: hrs/day during school or work week (m/f/n/g) . . . 1323
med1000 – TV/DVD: hrs/day on weekend (>= 10 yr) 1324
med1000t – TV/DVD T1: hrs/day during weekend (m/f/n/g) 1324
med1000u – TV/DVD T2: hrs/day during weekend (m/f/n/g) 1325
med1000s – TV/DVD sibling: hrs/day during weekend (m/f/n/g) 1325
med2000t – fixed rules on device usage twin 1 (m/f/n/g) 1326
med2000u – fixed rules on device usage twin 2 (m/f/n/g) 1326
med2000s – fixed rules on device usage sibling (m/f/n/g) 1327

42 Experiences of discrimination 1327
dis0100 – experience with discrimination (>= 13 yr) 1327
dis0200 – discrimination on grounds of ethnic or cultural background (>= 13 yr) . 1328
dis0201 – burden of discrimination on grounds of ethnic or cultural background (>= 13 yr) 1329
dis0300 – discrimination on grounds of sex (>= 13 yr) 1329
dis0301 – burden of discrimination on grounds of sex (>= 13 yr) 1330
dis0400 – discrimination on grounds of religion (>= 13 yr) 1330
dis0401 – burden of discrimination on grounds of religion (>= 13 yr) 1331
dis0500 – discrimination on grounds of age (>= 13 yr) 1331
dis0501 – burden of discrimination on grounds of age (>= 13 yr) 1332
dis0600 – discrimination on grounds of sexual identity (>= 13 yr) 1332
dis0601 – burden of discrimination on grounds of sexual identity (>= 13 yr) 1333
dis0700 – discrimination on grounds of disability (>= 13 yr) 1334
dis0701 – burden of discrimination on grounds of disability (>= 13 yr) 1334
dis0799 – discrimination because of: not specified (refused to answer) (>= 13 yr) . 1335

43 Contact to other family members 1335
ple0101t – not living in household with twin 1 since: month (m,f) 1335
ple0101u – not living in household with twin 2 since: month (m,f) 1336
ple0102t – not living in household with twin 1 since: year (m,f) 1336
ple0102u – not living in household with twin 2 since: year (m,f) 1337
ple0103t – closeness to twin 1 (m,f,n,g) 1337
ple0103u – closeness to twin 2 (m,f,n,g) 1338
ple0200t – contact with twin 1 in last 6 month - frequency (m,f) 1338
ple0200u – contact with twin 2 in last 6 month - frequency (m,f) 1339
ple0201t – meetings with twin 1 in last 6 month - frequency (m,f) 1339
ple0201u – meetings with twin 1 in last 6 month - frequency (m,f) 1340
sle0200t – not living in household with twin 1 since: month (s, >= 16 J.) 1340
sle0200u – not living in household with twin 2 since: month (s, >= 16 J.) 1341
sle0201t – not living in household with twin 1 since: year (s, >= 16 J.) 1342
sle0201u – not living in household with twin 2 since: year (s, >= 16 J.) 1342
sle0300t – contact with T1 in last 6 month - frequency (s, >= 16 J.) 1343
sle0300u – contact with T2 in last 6 month - frequency (s, >= 16 J.) 1343
sle0301t – meetings with T1 in last 6 month - frequency (s, >= 16 J.) 1344
sle0301u – meetings with T2 in last 6 month - frequency (s, >= 16 J.) 1344

44 Survey and module participation 1345
f2f – participation (starter) (gen) 1345
f2f_fl – number of participating persons per family (gen) 1345

f2f_hl – number of participating persons per household (gen) . . . 1346
f2f_m12a – participation PAPI for Alteri (gen) . . . 1346
f2f_m12b – participation CAWI for Alteri (gen) . . . 1347
f2f_m2a – participation CFT-20 (gen) . . . 1347
f2f_m2b – participation CFT-1 (gen) . . . 1348
f2f_m3 – participation CAPI basic module (gen) . . . 1348
f2f_m4 – participation CASI sensitive personal information (gen) . . . 1349
f2f_m5a – participation CASI less sensitive personal information (gen) . . . 1349
f2f_m5b – participation PAPI less sensitive information (gen) . . . 1350
f2f_m6 – participation PAPI on child care (gen) . . . 1350
f2f_m7 – participation CAPI parents on children (gen) . . . 1351
f2f_m8 – participation child's medical records (gen) . . . 1351
f2f_m9a – participation certificate questionnaire (gen) . . . 1352
f2f_m9b – participation photo of certificates (gen) . . . 1352

45 Interviewer variables **1353**
iid – interviewer ID . . . 1353
ini0100 – interviewer: year of birth . . . 1353
ini0101 – interviewer: sex . . . 1353
ini0102 – interviewer: educational qualification . . . 1354
ini0103 – interviewer: year of joining survey institute . . . 1354

46 Interviewer assessments **1355**
iva0100 – dwelling is neat/messy (intr) . . . 1355
iva0101 – home furnishings are simple/expensive (intr) . . . 1355
iva0102 – dwelling is well-kept/neglected (intr) . . . 1356
iva0103 – dwelling is cramped/spacious (intr) . . . 1357
iva0104 – number of books in the household (intr) . . . 1357
iva0201 – person understands German (intr) . . . 1358
iva0301 – person speaks German (intr) . . . 1358
iva0400 – interference of parents in interview of twins/sibling (intr) . . . 1359
iva0401 – interference of parents in tests of twins/sibling (intr) . . . 1359
iva0402 – interference of children with each other in int./tests (intr) . . . 1360
iva0403 – interference of parents with each other in int./tests (intr) . . . 1361
iva0901 – type of building (intr) . . . 1361
iva0902 – condition of the house (intr) . . . 1362
iva0903 – safety assessment of the residential area (intr) . . . 1363
iva0904 – description of the residential area (intr) . . . 1363
iva0905 – environmental pollution in residential area (intr) . . . 1364

47 Questionnaire navigation **1365**
fil0100t – module 4: school attendance twin 1 - filter . . . 1365
fil0100u – module 4: school attendance twin 2 - filter . . . 1365
fil0100s – module 4: school attendance sibling - filter . . . 1365
sib0100 – F2F1 CASI module: sibling participating . . . 1366

48 Para data **1366**
mon_fq – month family questionnaire was conducted (gen) . . . 1366
mon_hq – month household questionnaire was conducted (gen) . . . 1367
mon_m12 – month F2F wave 1 Alteri questionnaire was conducted (gen) . . . 1367
mon_m2a – month F2F wave 1 modul 2a was conducted (gen) . . . 1367

mon_m2b – month F2F wave 1 modul 2b was conducted (gen) 1368
mon_m3 – month F2F wave 1 modul 3 was conducted (gen) 1368
mon_m4 – month F2F wave 1 modul 4 was conducted (gen) 1368
mon_m5 – month F2F wave 1 modul 5 was conducted (gen) 1369
mon_m6 – month F2F wave 1 modul 6 was conducted (gen) 1369
mon_m7 – month F2F wave 1 modul 7 was conducted (gen) 1369
mon_m8 – month F2F wave 1 modul 8 was conducted (gen) 1370
mon_m9 – month F2F wave 1 modul 9 was conducted (gen) 1370
mon_pq – month individual questionnaire was conducted (gen) 1370
sdc0200 – subsequent surveyed household questionnaire (gen) 1371
yea_fq – year family questionnaire was conducted (gen) 1371
yea_hq – year household questionnaire was conducted (gen) 1371
yea_m12 – year F2F wave 1 Alteri questionnaire was conducted (gen) 1372
yea_m2a – year F2F wave 1 modul 2a was conducted (gen) 1372
yea_m2b – year F2F wave 1 modul 2b was conducted (gen) 1372
yea_m3 – year F2F wave 1 modul 3 was conducted (gen) 1373
yea_m4 – year F2F wave 1 modul 4 was conducted (gen) 1373
yea_m5 – year F2F wave 1 modul 5 was conducted (gen) 1373
yea_m6 – year F2F wave 1 modul 6 was conducted (gen) 1374
yea_m7 – year F2F wave 1 modul 7 was conducted (gen) 1374
yea_m8 – year F2F wave 1 modul 8 was conducted (gen) 1374
yea_m9 – year F2F wave 1 modul 9 was conducted (gen) 1375
yea_pq – year individual questionnaire was conducted (gen) 1375

1 How to use the codebook

The codebook includes information and frequencies of all variables that are included in the Scientific Use File of TwinLife. The variables are sorted alphabetically within content-related chapters. The codebook documents the following information for these variables: variable name, variable label, question text (from the major survey instrument - although the question text is usually identical in all survey modes, it may differ in some cases), categories (including the value labels), frequencies, data collections the variable was surveyed in, filter conditions based on the instruments used for the variable, and sources for additional information. The variable label includes information on age groups and person types surveyed. This information serves as rough orientation; for detailed filter conditions of the variable within the instrument/questionnaire, please see the filter conditions documented below the frequency table. Please note: For metric variables or variables with many categories, no frequencies are documented (except for missing categories) in order to avoid long lists of categories. The codebook is based on cross-sectional data.

2 Study description

TwinLife is an interdisciplinary longitudinal study that combines perspectives of psychological and sociological theories with behavioral genetic research. The aim of TwinLife is to examine the interplay of the genetic and environmental mechanisms that influence social inequalities over the life course. The study focuses on education and academic performance, career and labor market attainment, integration and participation in social, cultural and political life, quality of life and perceived capabilities, physical and psychological health as well as behavioral issues and deviant behavior. Therefore, more than 4,000 mono- and dizygotic twin couples from four birth cohorts and their families are interviewed alternately in person and by telephone every year. The population of the TwinLife study are families with same-sex twins in Germany who were 5, 11, 17, and 22-24 years old at the first interview in 2014 or 2015. Thus, birth cohorts are defined as follows:
subsample A: - cohort 1: 2009 - cohort 2: 2003 - cohort 3: 1997 - cohort 4: 1990/1991
subsample B: - cohort 1: 2010 - cohort 2: 2004 - cohort 3: 1998 - cohort 4: 1992/1993
More detailed information you can find on our documentation website `https://www.twin-life.de/documentation/`.

3 Data collection 1 (F2F 1)

The field period for F2F 1 was from Sep 28, 2014 to May 28, 2015 (subsample A) and from Sep 16, 2015 to April 18, 2016 (subsample B). Sub-sample A includes 2009 families. Sub-sample B includes 2088 families. Thus, a total of 4097 families participated in the F2F1 survey.
The target persons in F2F 1 include: - both twins - parents of the twins - step-parents of the twins living in the same household - one sibling (5 years or older) - partners of the twins in cohort 4 (if present)
For more information on the F2F 1 survey, see the Methodological Report `https://pub.uni-bielefeld.de/record/2914569`.

4 Identifiers: IDs on wave, family, household and invidual level

This chapter contains information on: identifier on family level; identifier on household level; identifier on individual level; wave identifier.

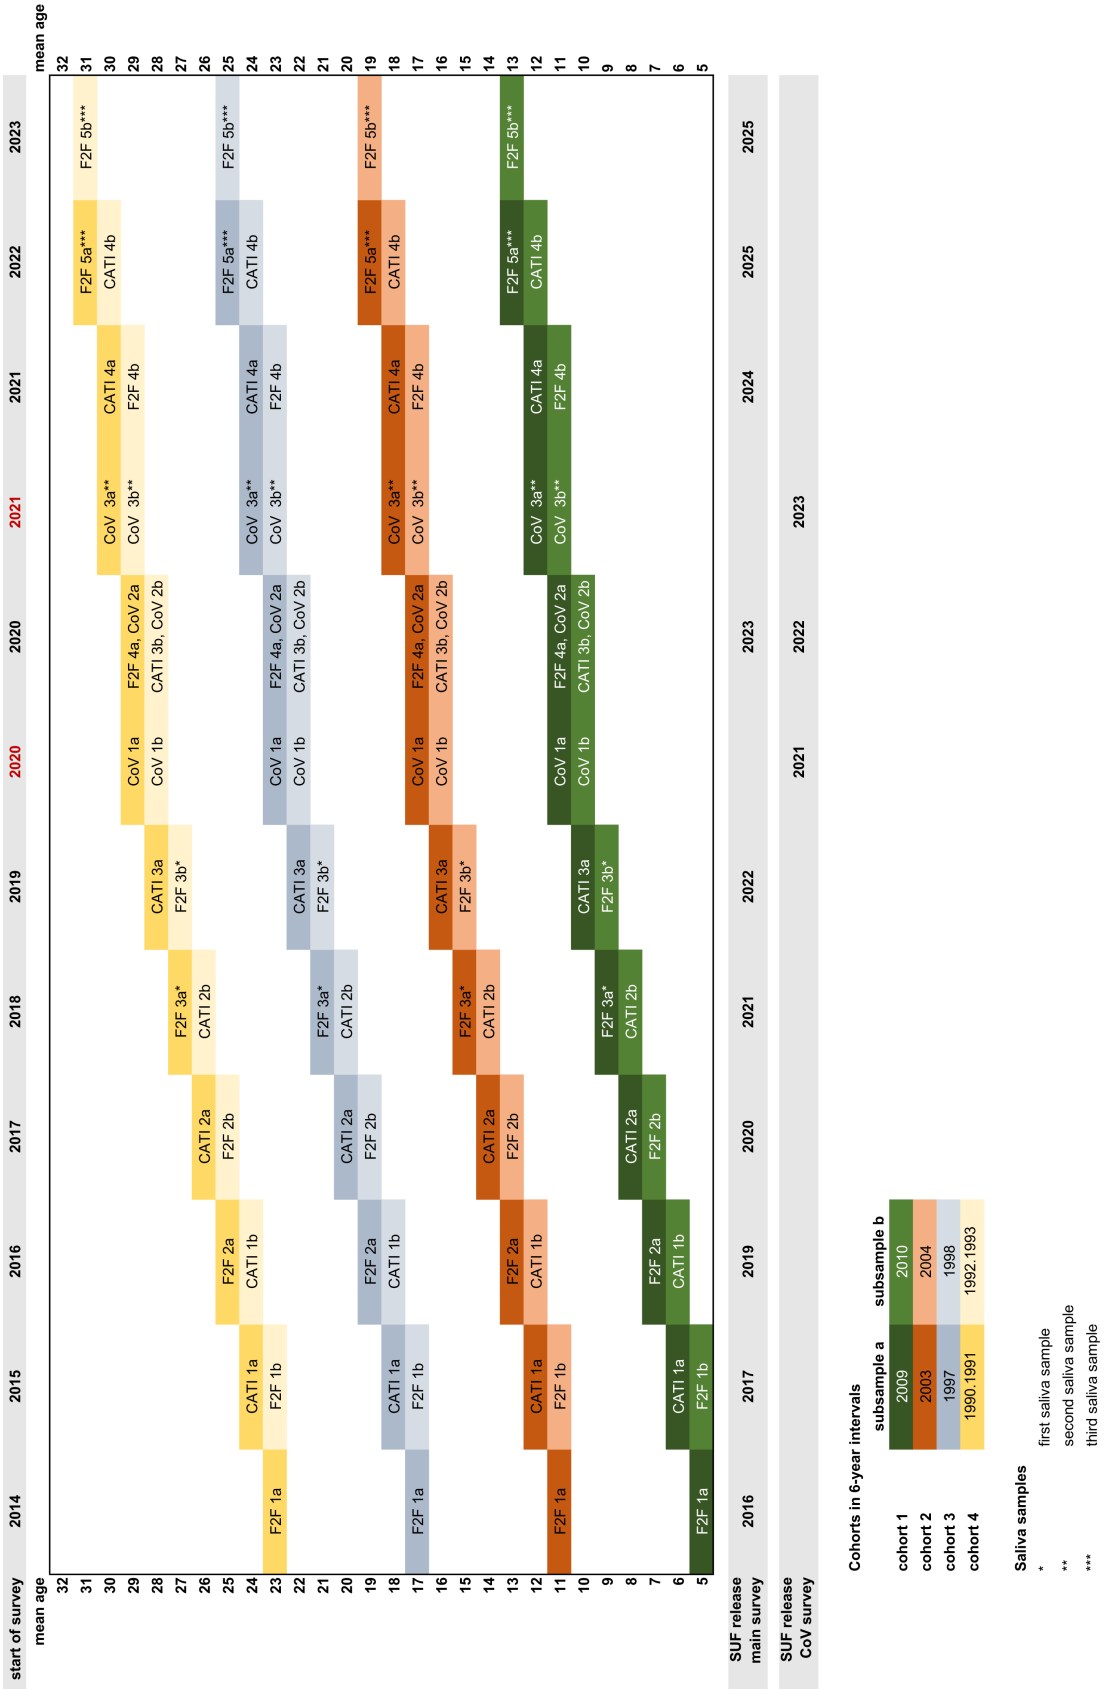

Figure 1: Overview of data collections in TwinLife

fid – family ID (scientific use file)

-85	-85: unknown	0
-86	-86: not available/empty/not codable	0
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	0
-92	-92: no participation in survey module	0
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	0
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 1; CATI 1; F2F 2; CATI 2; F2F 3; CATI 3; F2F 4; CATI 4; F2F 5; CoV 1; CoV 2; CoV 3; CoV 4
Question text: `generated/assigned variable`
Filter based on instrument: always asked/always generated

hid_1 – household ID wave-specific (scientific use file) (F2F 1)

-85	-85: unknown	0
-86	-86: not available/empty/not codable	0
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	0
-92	-92: no participation in survey module	0
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0

700	700: other person (not surveyed)	0
800	800: unknown person type	0
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	0
-92	-92: no participation in survey module	89
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	39

-95	-95: doesn't apply (screened out)	2384
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 1; CATI 1; F2F 2; CATI 2; F2F 3; F2F 4; F2F 5
Filter based on instrument: always asked/always generated

wav0100 – subsample (gen)

1	1: Sample A (start 2014/15)	10505
2	2: Sample B (start 2015/16)	10754
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	0
-92	-92: no participation in survey module	0
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	0
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 1; CATI 1; F2F 2; CATI 2; F2F 3; CATI 3; F2F 4; CATI 4; F2F 5; CoV 1; CoV 2; CoV 3; CoV 4
Question text:
Filter based on instrument: always asked/always generated
Generated variable
wav0100 specifies to which subsample of the whole TwinLife sample a family belongs: a (whose survey started in 2014/2015) or b (whose survey started in 2015/2016). For details about the survey and sampling design of TwinLife, see the methodology report of the first TwinLife survey wave (URL Link).

wav0200 – survey wave (gen)

1		21259
-85	-85: unknown	0
-86	-86: not available/empty/not codable	0
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	0

-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	0
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 1; CATI 1; F2F 2; CATI 2; F2F 3; CATI 3; F2F 4; CATI 4; F2F 5
Question text:
Filter based on instrument: always asked/always generated
Generated variable

Each wave of the TwinLife survey consists of two data collections: A face-to-face (F2F) interview and a telephone (CATI) interview. **wav0200** specifies to which survey wave an observation belongs. For details about the survey and sampling design of TwinLife, see the methodology report of the first TwinLife survey wave (URL Link).

wav0300 – part of the survey wave (gen)

1	1: F2F survey part	21259

wav0400 is a combination of **wav0200**, **wav0300**, and **wav0100**. It specifies to which concrete data collection (survey wave and part of the survey wave, see **wav0200** and **wav0300**) in which subsample (see **wav0100**) an observation belongs. For details about the survey and sampling design of TwinLife, see the methodology report of the first TwinLife survey wave (URL Link).

6 Socio-demographics

This chapter contains information on: ; socio-demographic information.

age0100 – age in years on the date of the family questionnaire (gen)

-85	-85: unknown	0
-86	-86: not available/empty/not codable	0
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	0
-92	-92: no participation in survey module	0

Waves: F2F 1; CATI 1; F2F 2; CATI 2; F2F 3; CATI 3; F2F 4; CATI 4; F2F 5; CoV 1; CoV 2; CoV 3; CoV 4
Question text:
Filter based on instrument: always asked/always generated
Generated variable
age0100 gives the age in years to the nearest month at the time of the family questionnaire. This means that the actual date of birth was set to the first day of the month and then the age was calculated. For reasons of data protection, the age in years to the day on the date of the family questionnaire (without change of the day of birth, as in **age0110**) cannot be released in the scientific use file. However, **age0110** is used to filter the questions. In most cases, **age0100** and **age0110** are identical. All age variables are based on the respondent's date of birth. This specification can be corrected by the respondent in each wave and is plausibilized longitudinally for further data processing. In the case of inconsistencies in an individual's date of birth, the most frequently given date of birth is used. If two dates of birth are equally frequent, the most recent is taken. Note that **age0100** in Cov3 is the age at the time of the individual questionnaire, as no family questionnaire is available in the Corona supplement.

age0100t – age twins in years on the date of the family questionnaire (gen)

Waves: F2F 1; CATI 1; F2F 2; CATI 2; F2F 3; CATI 3; F2F 4; CATI 4; F2F 5; CoV 1; CoV 2; CoV 3; CoV 4
Question text:
Filter based on instrument: always asked/always generated
Generated variable
age0200 specifies the age in years at January 1st of the (main) survey year of the subsample. The survey year is defined uniformly for the entire subsample in each wave, although in reality it may differ across families (see variable **yea_fq**). The defined survey years are: F2F 1 subsample a: 2015; F2F 1 subsample b: 2016; CATI 1a: 2016; CATI 1b: 2017; F2F 2a: 2017; F2F 2b: 2018; CATI 2a: 2018; CATI 2b: 2019. All age variables are based on the date of birth provided by the respondent. The specification can be corrected by the respondent in each wave and is plausibilized longitudinally for further data processing. In cases of inconsistent birth date information of an individual, the the most frequently cited date of birth is adopted. If two dates of birth were mentioned equally often, the latest specification is adopted.

age0201 – age in months on 01 January of survey year of subsample (gen)

-85	-85: unknown	0
-86	-86: not available/empty/not codable	0
-87	-87: multiple answers	0

Question text:
Filter based on instrument: always asked/always generated
Generated variable
In order to meet data protection requirements, regional information about a person, household, or family can only be provided in aggregated form. Therefore, an east-west indicator (**ewi**) was generated by dividing the German states (Bundeslaender) into two groups depending on their former affiliation to Western Germany (Federal Republic of Germany) or Eastern Germany (German Democratic Republic). Baden-Wuerttemberg, Bavaria, Bremen, Hamburg, Hesse, Lower Saxony, North Rhine-Westphalia, Rhineland-Palatinate, Saarland and Schleswig-Holstein belong to former Western Germany; Berlin, Brandenburg, Mecklenburg-West Pomerania, Saxony, Saxony-Anhalt and Thuringia belong to former Eastern Germany. According to the Federal Statistical Office of Germany, Berlin as a whole is count as part of former Eastern Germany. **ewi** is available on the household level. Please note that regional variables are generated from contextual information based on a household's contact address. In case of inconsistencies within a household ID, the regional information of the twins was prioritized over the information of the other household members. However, these inconsistencies occurred only in very rare cases.

gkpol_r – community size classification (political), 4 groups (gen)

1	1: 1 to 19,999 inhabitants	3741
2	2: 20,000 to 99,999 inhabitants	5303
3	3: 100,000 to 499,999 inhabitants	4199
4	4: 500,000 or more inhabitants	5624
-87	-87: multiple answers	0

Waves: F2F 1; CATI 1; F2F 2; CATI 2; F2F 3; CATI 3; F2F 4; CATI 4; F2F 5
Question text:
Filter based on instrument: always asked/always generated
Generated variable
In order to meet data protection requirements, regional information about a person, household, or family can only be provided in aggregated form. Therefore, the (political) size of the community (politische Gemeindegroessenklasse, **gkpol_7**, structured as follows: 1: 1 to

1,999 inhabitants, 2: 2,000 to 4,999 inhabitants, 3: 5,000 to 19,999 inhabitants, 4: 20,000 to 49,999 inhabitants, 5: 50,000 to 99,999 inhabitants, 6: 100,000 to 499,999 inhabitants, 7: 500,000 or more inhabitants) is classified into four groups and delivered in the SUF data (**gkpol_r**). **gkpol_r** is available on the household level. Please note that regional variables are generated from contextual information based on a household's contact address. In case of inconsistencies within a household ID, the regional information of the twins was prioritized over the information of the other household members. However, these inconsistencies occurred only in very rare cases.

sex – sex

Generated variable
In each face-to-face survey, there is an option to correct the gender of family members. In general, the last reported gender is included in the dataset. In the F2F4 questionnaire, the gender category 'divers' (third gender) has been introduced. However, as gender is a quasi-identifying attribute, the third category is not provided in the SUF for data protection reasons, as this category has rarely been selected so far. Changes in the gender identity of twins are also not reported in the SUF for data protection reasons.

7 Family structure and household characteristics

This chapter contains information on: characteristics of family members (name, age, gender of twins; name, age, gender and relation to twins of siblings and parents who don't live in household; partners of twins); family members living in the household; housing characteristics; number of households in the family; number of persons belonging to the household.

Question text:
Filter based on instrument: always asked/always generated
Generated variable
The housing conditions were surveyed on the household level and the corresponding questions (**liv0200** and **liv0300**/**liv0310** resp.: 'Are you the main tenant, subletter, or owner?') were answered by the person that has filled the household questionnaire. The variable **liv0210** was generated by processing the available information into the twin perspective and on a personal level. Please note that from CATI 1 (**wid** == 2) onwards, the question 'Have you been living here since about a year ago?' (**liv0600**) was asked in advance. Only persons who answered 'No' to this question were asked about their living conditions in **liv0200** and **liv0310**. In the other cases, the previous year's information was inserted. The household type (**liv0400**: 'In what type of household do you live?') was also surveyed in a personal perspective (dependent on the person type that filled the household questionnaire). The question was asked regardless of whether or not a person had indicated that they had already lived in the apartment in the past year (**liv0600**). The information was processed into the generated variable **liv0410** that provides the information in a general and (between person types) comparable perspective.

Generated variable
mig0520, which is part of the master file of the Scientific Use File, includes all available information on the personal level and displays whether the individual has the German citizenship or not (*1: yes* or *2: no*). In the first face-to-face data collection (F2F 1) the citizenship was surveyed in a multicoding format as a self-report and a proxy-report of parents about their children, offering the respondent to mention one or several citizenships and give open answers (**mig0500(t/u/s)** - **mig0519(t/u/s)**). In the second face-to-face data collection (F2F 2), it was explicitly asked for the first citizenship as well as for the second citizenship, if applicable (including the offering of an open answer). The corresponding variables are **mig0550(t/u/s)** - **mig0553(t/u/s)**). The citizenship was surveyed of all respondents in both F2F 1 and F2F 2. It is stored, like the other migration variables, as constant variable in the master. In

cases were the information given in F2F 2 differed from the one given in F2F 1, the latest information was used for the generation of **mig0520**.

Question text:
Filter based on instrument: always asked/always generated
Generated variable
mig0620 indicates the year in which German citizenship was granted. *mig0620* was generated on the basis of *mig0600* (self-reports) and *mig0600[t,u,s]* (parents' proxy statements) from F2F1 and, in the case of newly interviewed siblings, on the basis of *mig0600s* from F2F2. In *mig0620*, missing or even valid values for year of citizenship from F2F1 were replaced by valid information on year of citizenship from F2F2. This is only the case for a small number of siblings. Missing information on *mig0620* when German citizenship is available can be explained by the fact that certain persons did not receive the question, i.e. Alteri in F2F1, persons who were asked about their citizenship for the first time in F2F2 or later, or person who were asked about their citizenships in F2F2 again.

Question text:
Filter based on instrument: always asked/always generated
Generated variable
The country of birth was surveyed in the first face-to-face data collection (F2F 1) as a self-report (respondents aged 16 or above, **mig0100**, **mig0101**), proxy-report of parents about their children aged below 16 (twins and sibling, **mig0100t/u/s**, **mig0101t/u/s**) as well as a proxy-report about the own parents (**mig0300**, **mig0301**, **mig0400**, **mig0401**; persons aged 16 or above). In F2F 2 only first-time respondents were asked for their country of birth. In F2F 3, the country of birth was not surveyed. The information was collected by providing a list as well as the opportunity to give an open answer. For data privacy reasons the answers were recoded into country groups and stored in generated variables, where the self-reports and the proxy-reports of parents about their children were integrated into **mig2000**. Please note that proxy information by the twins or the sibling about the country of birth of their parents is *not* used for the generation of **mig2000** (e.g. **mig0300** for the generation of **mig2000** of the twin's mother, etc.). The treatment of missing values is addressed in **mig3000**. It can be derived from the table *mig2000_countrygroups.pdf* (URL Link) in the downloads section (URL Link) of the TwinLife documentation website which countries were included in which group. Please also note that different statements of twins about their country of birth are not harmonized. In about 20 cases/twin pairs the given information differs between the twins. The treatment of contradicting information is addressed in **mig3000**. **mig2000** is stored in the master data set.

Generated variable
The information whether a person was born in the German Democratic Republic (GDR) is stored in the variables **mig2001** (self-report), **mig2101** (respondent's report about mother) and **mig2201** (respondent's report about father). It is generated on the basis of the country of birth and considers whether the person was born during the existence of the GDR between 7/10/1949 and 2/10/1990. **mig0100** contains the answer on the question 'What country you were born in?'; *2* is the answer 'Germany, former GDR'. **mig0101** contains the open answers to the question. **gebdatg** is the individual birth date as the number of days since 01/01/1960; *-3738* corresponds to the date 07/10/1949 and *11232* to the date 02/10/1990.

```
replace mig2001 = 1 if (mig0100 == 2 | mig0101 == 'Ostdeutschland' | mig0101 == 'DDR')
replace mig2001 = 0 if (mig0100 == 2 | mig0101 == 'Ostdeutschland' | mig0101 == 'DDR')
```

The variable is stored in the master data set.

Generated variable
The country of birth was surveyed in the first face-to-face data collection (F2F 1) as a self-report (respondents aged 16 or above, **mig0100**, **mig0101**), proxy-report of parents about their children aged below 16 (twins and sibling, **mig0100t/u/s**, **mig0101t/u/s**) as well as a proxy-report about the own parents (**mig0300**, **mig0301**, **mig0400**, **mig0401**; persons aged 16 or above). In F2F 2 only first-time respondents were asked for their country of birth. In F2F 3, the country of birth was not surveyed. The information was collected by providing a list as well as the opportunity to give an open answer. For data privacy reasons the answers were recoded into country groups and stored in generated variables, where the proxy-reports of the twins and the sibling about their parents were integrated into **mig2100** and **mig2200**. Please note that self-reports of the parents about the country of their birth are *not* used for the generation of **mig2100** and **mig2200** (e.g. **mig0100** of the twins' mother for the generation of **mig2100**, etc.). For an extension of the generation, see **mig3100** and **mig3200**. It can be derived from the table *mig2000_countrygroups.pdf* (URL Link) in the downloads section (URL Link) of the TwinLife documentation website which countries were included in which group. Please also note that different statements of twins and the sibling about the country of birth of their parents are not harmonized. In about 30 cases the given information differs between the siblings. The treatment of contradicting information is addressed in **mig3100** and **mig3200**. **mig2100** is stored in the master data set.

Question text:
Filter based on instrument: always asked/always generated
Generated variable
The variable **mig3000** is an extended and harmonized version of **mig2000** and combines all available information on respondents' country of birth. For those cases where the parents' self-report is not available, the information provided by the twins or the sibling about their biological parents' countries of birth is used (e.g. **mig2100** for the generation of **mig3000** of the twin's mother, etc.). If the twins' and the sibling's statements about their parents' countries of birth differ, the statement that is shared by two out of the three is designated as the parent's country of birth. Missing information of one of the twins is filled in with the information of the other twin. If the information about the twins' country of birth is contradicting, Germany is designated as the country of birth if at least one twin indicated to be born in Germany. The value -81 (contradictory information) is assigned for cases with no

unambiguous information about the twins' country of birth.
mig3000 is stored in the master data set.

Generated variable
The variable **mig4000** is based on **mig3000**, **mig3100**, and **mig3200** and contains information on the twins and the sibling's migration background up to the third generation. The variable indicates whether the twins' or the sibling were born in Germany (0); born abroad (1); have no personal migration but migration of at least one parent (2); no personal nor migration of either parent but migration of at least one grandparent (3). The migration background was constructed for twins with at least one (grand-)parental information available. In cases where the information on the country of birth is contradicting but it is known that the respondent is born abroad, the information about the foreign birth is used without considering the particular country. Twins and siblings with missing information on both parents or all grandparents were assigned the value -86 (not available/empty/not codable). Please note, **mig4000** only considers information about biological parents. The variable is stored in the master data set.

Generated variable
The variable **mig4100** is based on **mig3000**, **mig3100**, and **mig3200** and contains information on respondents' migration background up to the second generation. The variable indicates whether respondents were born in Germany (0); born in a country other than Germany (1); or have no personal migration but migration of at least one parent (2). The migration background was constructed for respondents with at least one parental information available. In cases where the information on the country of birth is contradicting but it is known that the respondent was born abroad, the information about the foreign birth is used without considering the particular country. Respondents with missing information on both parents were assigned the value -86 (not available/empty/not codable). Please note, **mig4100** only considers information about biological parents. The variable is stored in the master data set.

10 Zygosity questionnaire

This chapter contains information on: zygosity.

zyg0102 – zygosity: result questionnaire and DNA in F2F1 (gen)

1	1: monozygotic	9853
2	2: dizygotic	11384
-87	-87: multiple answers	0
-89	-89: no saliva swab test	0
-90	-90: no participation in survey wave	0
-92	-92: no participation in survey module	22
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	0
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 1; CATI 1; F2F 2; CATI 2; F2F 3; CATI 3; F2F 4; CATI 4; F2F 5; CoV 1; CoV 2; CoV 3; CoV 4
Generated variable
The variable *zyg0102* combines the information from the results of the zygosity questionnaire in F2F1 (zyg0100) and the DNA samples from F2F1 (zyg0101). It is recommended to use the new variable *zyg0112* as this is updated by the results of the DNA analysis of F2F3. For details regarding the generated zygosity variables, see the Technical Report No. 1 (URL Link).

zyg0112 – zygosity: result questionnaire and DNA in F2F1 & F2F3 (gen)

1	1: monozygotic	10027
2	2: dizygotic	11217
-87	-87: multiple answers	0
-89	-89: no saliva swab test	0
-90	-90: no participation in survey wave	0
-92	-92: no participation in survey module	15
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	0
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 1; CATI 1; F2F 2; CATI 2; F2F 3; CATI 3; F2F 4; CATI 4; F2F 5; CoV 1; CoV 2; CoV 3; CoV 4
Question text:
Filter based on instrument: always asked/always generated
Generated variable
The variable *zyg0112* combines the information from the results of the zygosity questionnaire in F2F1 (zyg0100) and the DNA samples from F2F1 (zyg0101) and F2F3 (zyg0111). It is recommended to use this updated variable instead of *zyg0102* which does not yet contain the results of the DNA analysis from F2F3. For details regarding the generated zygosity variables, see the Technical Report No. 1 (URL Link).

11 Twin-specific questions

This chapter contains information on: twin-specific questions for parents (e.g., dress twins alike); twin-specific questions for partner (e.g. relationship of the twins); twin-specific questions for siblings (e.g. relationship of the twins); twin-specific questions for twins themselves (e.g. relationship to other twin).

tsf0100 – doing things with the twins (p,q, >= 18 yr)

1	1: yes, often	35
2	2: yes, sometimes	103
3	3: rarely/never	36
4	4: I don't know the twin of my partner.	3
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	2441
-92	-92: no participation in survey module	16455
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	2186
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 1
Question text: `Do you often do things with both twins together?`
Filter based on instrument: module 'questionnaire for Alteri' (PAPI): (ptyp == 110 | ptyp ==

120) & age0110 >= 16; module 'questionnaire for Alteri' (CAWI): (ptyp == 110 | ptyp == 120) & age0110 >= 16
Item developed for TwinLife.

tsf0200 – twins have same hobbies and interests (p,q, >= 18 yr)

1	1: rather yes	106
2	2: rather no	38
3	3: in the past yes, now no longer	27
-87	-87: multiple answers	1
-90	-90: no participation in survey wave	2441
-92	-92: no participation in survey module	16455
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	2186
-98	-98: don't know	5
-99	-99: not specified (refused to answer)	0

Waves: F2F 1
Question text: `Do the twins (currently) share more or less the same hobbies and interests?`
Filter based on instrument: module 'questionnaire for Alteri' (PAPI): (ptyp == 110 | ptyp == 120) & age0110 >= 16; module 'questionnaire for Alteri' (CAWI): (ptyp == 110 | ptyp == 120) & age0110 >= 16
Item developed for TwinLife.

tsf0300 – relationship between the twins (p,q, >= 18 yr)

1	1: very close	79
2	2: close	72
3	3: not very close	19
4	4: not close at all	6
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	2441
-92	-92: no participation in survey module	16455
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	2186
-98	-98: don't know	1
-99	-99: not specified (refused to answer)	0

Waves: F2F 1
Question text: `What would you say: How close are the twins?`
Filter based on instrument: module 'questionnaire for Alteri' (PAPI): (ptyp == 110 | ptyp == 120) & age0110 >= 16; module 'questionnaire for Alteri' (CAWI): (ptyp == 110 | ptyp == 120) & age0110 >= 16
Item developed for TwinLife.

tsp0100 – twins dress identically (m,f,n,g)

1	1: no, never	2755
2	2: no, but I match their outfits	597
3	3: I used to, but not anymore	1843
4	4: yes, sometimes	763
5	5: yes, mostly	573
-87	-87: multiple answers	11
-90	-90: no participation in survey wave	2441
-92	-92: no participation in survey module	66
-93	-93: unclear classification of system missing	2
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	12114
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	94

Waves: F2F 1; F2F 2
Question text: `Do you (as parents) try to dress the twins as similarly as possible? [IF age0110t > 9] If the twins are older, think back to when they were children. Do you (as parents) try to dress the twins as identically as possible? (If the twin are older, think back to when they were children.)`
Filter based on instrument: module 'basic module' (CAPI): ptyp >= 300; module 'questionnaire for Alteri' (PAPI): (ptyp == 300 | ptyp == 400) & age0110 >= 16; module 'questionnaire for Alteri' (CAWI): (ptyp == 300 | ptyp == 400) & age0110 >= 16
Item developed for TwinLife.

tsp0101 – twins dressed identically up to age of . . . (m,f,n,g)

96	96: until today	702
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	2441
-92	-92: no participation in survey module	66
-93	-93: unclear classification of system missing	3
-94	-94: technical error / faulty insertion	27
-95	-95: doesn't apply (screened out)	15544
-98	-98: don't know	110
-99	-99: not specified (refused to answer)	14

Waves: F2F 1; F2F 2
Question text: `Up to what age (of the twins) did they do that?`
Filter based on instrument: module 'basic module' (CAPI): tsp0100 == 3 | tsp0100 == 4 | tsp0100 == 5 | tsp0100_2 == 3 | tsp0100_2 == 4 | tsp0100_2 == 5; module 'questionnaire for Alteri' (PAPI): (ptyp == 300 | ptyp == 400) & age0110 >= 16; module 'questionnaire for Alteri' (CAWI): tsp0100 == 3 | tsp0100 == 4 | tsp0100 == 5
Item developed for TwinLife.

tsp0200 – twins currently: same hobbies and interests (m,f,n,g)

1	1: rather yes	4319

2	2: rather no	1658
3	3: in the past yes, now no longer	598
-87	-87: multiple answers	1
-90	-90: no participation in survey wave	2441
-92	-92: no participation in survey module	66
-93	-93: unclear classification of system missing	1
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	12114
-98	-98: don't know	46
-99	-99: not specified (refused to answer)	15

Waves: F2F 1; F2F 2
Question text: `Do the twins (currently) share more or less the same hobbies and interests?`
Filter based on instrument: module 'basic module' (CAPI): ptyp >= 300; module 'questionnaire for Alteri' (PAPI): (ptyp == 300 | ptyp == 400) & age0110 >= 16; module 'questionnaire for Alteri' (CAWI): (ptyp == 300 | ptyp == 400) & age0110 >= 16
Item developed for TwinLife.

tsp0300 – relationship between the twins (m,f,n,g)

1	1: very close	3383
2	2: close	2590
3	3: not very close	598
4	4: not close at all	55
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	2441
-92	-92: no participation in survey module	66
-93	-93: unclear classification of system missing	5
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	12114
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	7

Waves: F2F 1
Question text: `How close would you say the twins are?`
Filter based on instrument: module 'basic module' (CAPI): ptyp >= 300; module 'questionnaire for Alteri' (PAPI): (ptyp == 300 | ptyp == 400) & age0110 >= 16; module 'questionnaire for Alteri' (CAWI): (ptyp == 300 | ptyp == 400) & age0110 >= 16
Item developed for TwinLife.

tsp0400 – people sometimes can't tell the twins apart (m,f,n,g)

1	1: yes, often	204
2	2: yes, sometimes	1004
3	3: rarely/never	3362
4	4: did not/does not happen	2010
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	2441

-92	-92: no participation in survey module	66
-93	-93: unclear classification of system missing	5
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	12114
-98	-98: don't know	26
-99	-99: not specified (refused to answer)	27

Waves: F2F 1
Question text: `[IF age0110t < 10] Are you sometimes unable to tell the twins apart? [IF age0110t >= 10] Were you sometimes unable to tell the twins apart in early childhood? If a new partner/stepparent states that they did not know the twins in early childhood, then please enter 'do not know'. Are you sometimes unable to tell the twins apart?`
Filter based on instrument: module 'basic module' (CAPI): ptyp >= 300; module 'questionnaire for Alteri' (PAPI): (ptyp == 300 | ptyp == 400) & age0110 >= 16; module 'questionnaire for Alteri' (CAWI): (ptyp == 300 | ptyp == 400) & age0110 >= 16
Item developed for TwinLife.

tss0100 – doing things with twins (s, >= 10 yr)

1	1: yes, often	342
2	2: yes, sometimes	694
3	3: rarely/never	319
4	4: I don't know the twin of my partner.	0
-87	-87: multiple answers	1
-90	-90: no participation in survey wave	2441
-92	-92: no participation in survey module	2529
-93	-93: unclear classification of system missing	2
-94	-94: technical error / faulty insertion	22
-95	-95: doesn't apply (screened out)	14900

12 Educational attainment and success

This chapter contains information on: after-school job; desired school-leaving qualification; expected probability to attain a degree; history of education and graduation: educational degrees, vocational training, year abroad; history of education and graduation: skipping/repeating a grade; photos of school reports, self-report on school grades (current school marks, marks of highest graduation); recommendation for secondary education; type of education / training; current status of education / qualification.

cer0001 – participation in the report card module (gen)

1	1: report card photo is available	4170
2	2: alternative questionnaire is available	3063
3	3: report card photo and alternative questionnaire are available	16
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	4307
-92	-92: no participation in survey module	8334
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	370
-95	-95: doesn't apply (screened out)	999
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 1; F2F 2; F2F 3; F2F 4; F2F 5
Question text:
Filter based on instrument: always asked/always generated
Generated variable
cer0001 was generated from the information provided in the report card module. Those respondents who did not consent to have a photo taken of their report card received the alternative questionnaire on the most recent or final report card. Those for whom there was consent for the report card photograph (cer1002==1), but for whom both the report card photograph and the alternative questionnaire were missing, received the code -94 (technical error).

cer1000 – school attendance

1	1: enrolled in school	1719
2	2: not enrolled in school anymore	1360
3	3: not enrolled in school yet - no report card	997
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	2441
-92	-92: no participation in survey module	8334
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	6408
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 1

Question text: `Interviewer: please enter whether person goes to school or not!`
Filter based on instrument: module 'certificate questionnaire' (CAPI): cer1001 == 2
Item developed for TwinLife.

cer1001 – photo: consent photo report card

1	1: yes	4541
2	2: no	4076
-84	-84: unassignable	0
-85	-85: information not evaluable	0
-86	-86: inconclusive specification	0
-87	-87: multiple answers	0
-89	-89: illegible	0
-90	-90: no participation in survey wave	2441
-92	-92: no participation in survey module	8334
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	1867
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 1; F2F 2; F2F 3; F2F 4; F2F 5
Question text: `We would like to ask you to provide us with your last annual report card from general school so that we can photograph it. Do you agree with this?`
Filter based on instrument: module 'certificate questionnaire' (CAPI): ptyp == 1 | ptyp == 2 | ptyp == 200
Item developed for TwinLife.

cer1002 – photo: consent photo report card (gen)

1	1: yes	4540
2	2: no	3079
-84	-84: unassignable	0
-85	-85: information not evaluable	0
-86	-86: inconclusive specification	0
-87	-87: multiple answers	0
-89	-89: illegible	0
-90	-90: no participation in survey wave	4307
-92	-92: no participation in survey module	8334
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	999
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 1; F2F 2; F2F 3; F2F 4; F2F 5
Question text:
Filter based on instrument: always asked/always generated
Generated variable
cer1002 was generated from the variables cer1001 and cer1001[t,u,s] at the person level (ptyp=1,2,200)

and indicates whether there was consent to photograph the report card. The missing code -94 in the variables of the report card photo module means that there is no photo due to a technical error, although the consent to take the photo was given (cer1002==1). It could be technical problems with taking the photo or it was forgotten to take the photo.
Item developed for TwinLife.

cer1100 – interview: average grade highest school degree

-85	-85: unknown	0
-86	-86: not available/empty/not codable	34
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	2441
-92	-92: no participation in survey module	8334
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	9124
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	127

Waves: F2F 1; F2F 2; F2F 3
Question text: `Please indicate the grade of the highest school-leaving qualification.` [item text: `pre-decimal place | decimal place | not specified`]
Filter based on instrument: module 'certificate questionnaire' (CAPI): cer1000 == 2
Item developed for TwinLife.

cer1300 – interview: year of highest school degree

-83	-83: no grades	0
-85	-85: unknown	0
-87	-87: multiple answers	0

The response option 'orientation school' (German: 'Orientierungsschule') was incorrectly given in the questionnaire until data collection F2F2, although this type of school no longer exists in Germany. Therefore, this category was deleted from CATI2 onwards. In CATI3, edu0400 also contains the proxy information of the parents of the variables edu0400t and edu0400u.

Waves: F2F 1; CATI 1
Generated variable
The generation of the ISCED variables eca0106 and eca0107 is no longer continued from data collection F2F 2. They are based on the educational information collected in F2F 1 and CATI 1. However, for reasons of replicability of previous studies or reanalyses, they continue to be part of the SUF. Instead, a revised generated ISCED variable **eca0108** is provided for all data collections.

The International Standard Classification of Education (ISCED) is a classification of educational attainment and level of education. The ISCED classification takes into account the country-specific complexity of educational programs in terms of the type and duration of school or training. It ranges from 0 (pre-primary level of education) to 6 (second stage of tertiary education, leading to an advanced research qualification).
The qualifications of the German education system can be assigned to the following ISCED-97 levels (cf. Schneider 2008):

- Level 0: Pre-primary education, such as Kindergarten
- Level 1: Primary school
- Level 2B: Elementary and lower secondary school and apprenticeship training
- Level 2A: Realschule, Mittlere Reife and Polytechnische Oberschule (GDR)
- Level 3B: Vocational training in the dual system, intermediate administrative training, vocational/college school-leaving certificate and one-year schools of health services
- Level 3A: Advanced technical college entrance qualification and Abitur (A-levels)
- Level 4B: Combination of two vocational degrees in ISCED 3B
- Level 4A: Qualification in both levels 3A and 3B
- Level 5B: Master craftsman/technician, 2 to 3 year school of health services, technical/vocational academy, technical school diploma (GDR) and technical school of administration
- Level 5A: Fachhochschule degree, university degree
- Level 6: Doctorate, PhD

The variable **eca0108** is constructed from the two generated variables for the highest school leaving certificate (**eca0130**) and the highest vocational qualification (**eca0230**). The ISCED variable generated for TwinLife does not include level 2B, as information on pre-vocational

programs is not available. In F2F2 (in contrast to F2F 1), additionally to the highest vocational qualification, information on a further professional qualification (**eca0221**) was collected. This also allows ISCED level 4B (combination of two vocational qualifications in level 3B) to be coded in F2F 2. However, a retroactive adjustment for F2F 1 could not be made, as the year of completion of the further education was not available. There is also no information on the length of training at health schools. In these cases, a minimum of two years was assumed when classifying according to ISCED levels.
Please note that **eca0108** cannot be used as an ordinal scale because ISCED levels are divided into subcategories (e.g. levels 5A and 5B, where level 5A is a more advanced qualification than level 5B).
For more information on the ISCED classification, see OECD (1999), and Schneider (2008).

CASMIN (Comparative Analysis of Social Mobility in Industrial Nations) is a hierarchically structured educational scale that is classified on the basis of general school education and vocational qualifications. The CASMIN variable **eca0109** implemented for TwinLife is based on the highest school leaving certificate (**eca0130**) and the highest vocational qualification (**eca0230**).
For more information on the CASMIN classification, see Brauns et al. (2003), and Brauns & Steinmann (1999).

Brauns, Hildegard, Scherer, S., & Steinmann, S. (2003). The CASMIN Educational Classification in International Comparative Research. In J. H. P. Hoffmeyer-Zlotnik & C. Question text:
Filter based on instrument: always asked/always generated
Generated variable
Information on the highest school-leaving certificate was collected at the time of the first data collection (F2F1 or the first data collection a person participated in). In subsequent data collections, newly acquired school-leaving qualifications were collected and the previously recorded school-leaving qualification were replaced if the newly acquired qualification was a higher school degree. If graduation information from the school module (**eca**) is not available for respondents, missing graduation information from the report card module (**cer**) is integrated. Please note: For those participants who stated in the second face-to-face data collection (F2F 2) that they had obtained a new school leaving certificate, the information on the highest school leaving certificate was collected again. For some respondents who were wrongly identified as first-surveyed respondents, there are also duplicate entries in F2F1 and F2F2. If a higher school leaving certificate was reported in F2F 2 and the certificate was obtained before the interview of the first data collection, the highest school qualification was corrected retroactively. Open statements were recoded into categories 1 to 5. Special school qualifications (Foerderschule) were equated with the 'Hauptschulabschluss'. Open entries that could not be assigned to these categories were recoded into -89 (not codable). If respondents do not have graduation information from the school module, missing graduation information from the report card module is integrated.

eca0200 – type of vocational training or university degree/diploma/qualification(>= 15 yr)

The International Standard Classification of Occupations from 2008 (ISCO-08) classifies occupations (internationally comparably) considering the required skill level (degree of complexity, based on the educational qualification) of an occupation as well as the skill specialization (the type of skills that are needed especially for this occupation). TwinLife delivers the ISCO classification on the sub-major group level (two digits) for the occupational activity (**emp0503** and **emp0513**), the field of study of the highest vocational qualification (**eca0205**) and as well as the occupational activities of the twins' grandparents (**bpa0208**, **bpa0308**, **bpa0508**, **bpa0608**). For more information about the ISCO classification visit the ILO website (URL Link). The open-ended responses on occupation were coded into ISCO-08 by the survey institute (TNS Infratest/Kantar for F2F 1, infas for F2F 2). Infratest performs the coding on the basis of an electronically available directory developed by Statistik Austria (see TNS Infratest/Kantar ISCO-08 documentation (URL Link) on the TwinLife documentation website (URL Link)). Infas bases the ISCO coding on specifications developed by GESIS. The exact procedure of occupation coding was described in detail by Geis and Hoffmeyer-Zlotnik (2000) using ISCO-88 as an example. In addition, extensive guidance on the practical implementation of occupational coding can be found in Geis (2011). Building on this knowledge of ISCO-88, there is the ISCO-08 code scheme, explanations and notes on the differences between ISCO-08 and ISCO-88. These have been coordinated by infas with GESIS. Specifications that could not translated into the schemes (such as 'team leader', 'specialist', or 'intern') were coded into -81 (no occupation or occupational activity mentioned) or -89 (not codable).

ISEI (International Socio-Economic Index of Occupational Status) is a measure of a person's socio-economic status and takes into account the individual's occupation, income and education. ISEI-08 categories range from 12 to 90. The ISEI is generated for

- the occupation of the current employment (**emp0505**),
- the apprenticeship or field of study of the highest professional qualification (**eca0207**),
- the apprenticeship or field of study acquired since the last interview (**eca1207**),
- the apprenticeship or field of study of the vocational qualifications mentioned in F2F3 and F2F4, which were surveyed in a follow-up in F2F5 (**eca1217**, **eca1227**).

The ISEI variables have been coded on the basis of the four-digit version of the ISCO-08 classification. It was created using the Stata program *iscogen.ado* (Jann, B. (2019)), which is based on the SPSS script *isqoisei08.sps* by Harry Ganzeboom. For more information see Ganzeboom & Treiman (1996) and Ganzeboom (2010).

Question text:
Filter based on instrument: always asked/always generated
Generated variable
Information on the highest professional qualification was collected at the time of the first data collection (F2F1 or the first data collection a person participated in). In subsequent data collections, newly acquired professional degrees were collected and the previously recorded professional qualification was replaced if the newly acquired qualification was a higher professional degree. The second face-to-face data collection (F2F 2) again asked for the highest professional qualification as well as any further professional degree. If a higher professional

certificate was reported in the second face-to-face data collection and the certificate was obtained before the interview of the first data collection, the highest professional qualification was corrected retroactively. The same applies to the family members who indicated in the first wave that they had obtained a degree from a 'Berufsakademie or Fachhochschule' (university of applied sciences, university of cooperative education). While these degrees were recorded jointly into one category in the first data collection (category 8), separate categories were introduced in the subsequent data collection (categories 6 and 7). A retroactive correction is thus made for those family members for whom both F2F1 and F2F2 contain information on the highest degree. The respondents' information on a second professional qualification (only available from F2F2) was also taken into account if this could be recognized as a higher qualification. Open statements were recoded into categories 1 to 10. Open entries that could not be assigned to these categories were recoded into -89 (not codable). Plausibility checks by age and corresponding adjustments were not made.

The intelligence test was administered in F2F1, F2F2, and F2F4. The intelligence test was implemented in F2F1 for all participating children aged 9 years or younger (CFT-1, paper-and-pencil) and for respondents aged 10 years or older (CFT-20, CASI). New respondents in F2F2 were also given the opportunity to take the intelligence test. The intelligence test was again administered in the F2F4 data collection using the Hogrefe online test system, but only for twins and siblings. A detailed description of the test batteries, test routines and further recommendations for the use of cognitive data can be found in Klatzka & Lenau (2024) (URL Link). Please note that in rare cases, participants in F2F 2 were mistakenly treated as new to the sample and therefore took the test a second time. In these cases there are two test results (in F2F 1 and F2F 2).

Question text: `CFT 20-R result` [item text: `CFT 20-R T1.7 short: result`]
Filter based on instrument: module 'CFT-20-R' (CAPI): age0110 >= 10
The intelligence test was administered in F2F1, F2F2, and F2F4. The intelligence test was implemented in F2F1 for all participating children aged 9 years or younger (CFT-1, paper-and-pencil) and for respondents aged 10 years or older (CFT-20, CASI). New respondents in F2F2 were also given the opportunity to take the intelligence test. The intelligence test was again administered in the F2F4 data collection using the Hogrefe online test system, but only for twins and siblings. A detailed description of the test batteries, test routines and further recommendations for the use of cognitive data can be found in Klatzka & Lenau (2024) (URL Link). Please note that in rare cases, participants in F2F 2 were mistakenly treated as new to the sample and therefore took the test a second time. In these cases there are two test results (in F2F 1 and F2F 2).

Question text: `CFT 20-R result` [item text: `CFT 20-R T1.6 long: result`]
Filter based on instrument: module 'CFT-20-R' (CAPI): age0110 >= 10
The intelligence test was administered in F2F1, F2F2, and F2F4. The intelligence test was implemented in F2F1 for all participating children aged 9 years or younger (CFT-1, paper-and-pencil) and for respondents aged 10 years or older (CFT-20, CASI). New respondents in F2F2 were also given the opportunity to take the intelligence test. The intelligence test was again administered in the F2F4 data collection using the Hogrefe online test system, but only for twins and siblings. A detailed description of the test batteries, test routines and further recommendations for the use of cognitive data can be found in Klatzka & Lenau (2024) (URL Link). Please note that in rare cases, participants in F2F 2 were mistakenly treated as new to the sample and therefore took the test a second time. In these cases there are two test results (in F2F 1 and F2F 2).

Question text: `CFT 20-R result` [item text: `CFT 20-R T2.2 short: result`]
Filter based on instrument: module 'CFT-20-R' (CAPI): age0110 >= 10
The intelligence test was administered in F2F1, F2F2, and F2F4. The intelligence test was

implemented in F2F1 for all participating children aged 9 years or younger (CFT-1, paper-and-pencil) and for respondents aged 10 years or older (CFT-20, CASI). New respondents in F2F2 were also given the opportunity to take the intelligence test. The intelligence test was again administered in the F2F4 data collection using the Hogrefe online test system, but only for twins and siblings. A detailed description of the test batteries, test routines and further recommendations for the use of cognitive data can be found in Klatzka & Lenau (2024) (URL Link). Please note that in rare cases, participants in F2F 2 were mistakenly treated as new to the sample and therefore took the test a second time. In these cases there are two test results (in F2F 1 and F2F 2).

The intelligence test was again administered in the F2F4 data collection using the Hogrefe online test system, but only for twins and siblings. A detailed description of the test batteries, test routines and further recommendations for the use of cognitive data can be found in Klatzka & Lenau (2024) (URL Link). Please note that in rare cases, participants in F2F 2 were mistakenly treated as new to the sample and therefore took the test a second time. In these cases there are two test results (in F2F 1 and F2F 2).

The intelligence test was administered in F2F1, F2F2, and F2F4. The intelligence test was implemented in F2F1 for all participating children aged 9 years or younger (CFT-1, paper-and-pencil) and for respondents aged 10 years or older (CFT-20, CASI). New respondents in F2F2 were also given the opportunity to take the intelligence test. The intelligence test was again administered in the F2F4 data collection using the Hogrefe online test system, but only for twins and siblings. A detailed description of the test batteries, test routines and further recommendations for the use of cognitive data can be found in Klatzka & Lenau (2024) (URL Link). The intelligence test was implemented in F2F1 for all participating children aged 9 years or younger (CFT-1, paper-and-pencil) and for respondents aged 10 years or older (CFT-20, CASI). New respondents in F2F2 were also given the opportunity to take the intelligence test. The intelligence test was again administered in the F2F4 data collection using the Hogrefe online test system, but only for twins and siblings. A detailed description of the test batteries, test routines and further recommendations for the use of cognitive data can be found in Klatzka & Lenau (2024) (URL Link). Please note that in rare cases, participants in F2F 2 were mistakenly treated as new to the sample and therefore took the test a second time. In these cases there are two test results (in F2F 1 and F2F 2).

Question text: `CFT 20-R result` [item text: `CFT 20-R T3.10 short: result`]
Filter based on instrument: module 'CFT-20-R' (CAPI): age0110 >= 10
The intelligence test was administered in F2F1, F2F2, and F2F4. The intelligence test was implemented in F2F1 for all participating children aged 9 years or younger (CFT-1, paper-and-pencil) and for respondents aged 10 years or older (CFT-20, CASI). New respondents in F2F2 were also given the opportunity to take the intelligence test. The intelligence test was again administered in the F2F4 data collection using the Hogrefe online test system, but only for twins and siblings. A detailed description of the test batteries, test routines and further recommendations for the use of cognitive data can be found in Klatzka & Lenau (2024) (URL Link). Please note that in rare cases, participants in F2F 2 were mistakenly treated as new to the sample and therefore took the test a second time. In these cases there are two test results (in F2F 1 and F2F 2).

Question text: `CFT 20-R result` [item text: `CFT 20-R T3.9 long: result`]
Filter based on instrument: module 'CFT-20-R' (CAPI): age0110 >= 10
The intelligence test was administered in F2F1, F2F2, and F2F4. The intelligence test was

implemented in F2F1 for all participating children aged 9 years or younger (CFT-1, paper-and-pencil) and for respondents aged 10 years or older (CFT-20, CASI). New respondents in F2F2 were also given the opportunity to take the intelligence test. The intelligence test was again administered in the F2F4 data collection using the Hogrefe online test system, but only for twins and siblings. A detailed description of the test batteries, test routines and further recommendations for the use of cognitive data can be found in Klatzka & Lenau (2024) (URL Link). Please note that in rare cases, participants in F2F 2 were mistakenly treated as new to the sample and therefore took the test a second time. In these cases there are two test results (in F2F 1 and F2F 2).

Question text: `CFT 20-R result` [item text: `CFT 20-R T4.5 short: result`]
Filter based on instrument: module 'CFT-20-R' (CAPI): age0110 >= 10
The intelligence test was administered in F2F1, F2F2, and F2F4. The intelligence test was implemented in F2F1 for all participating children aged 9 years or younger (CFT-1, paper-and-pencil) and for respondents aged 10 years or older (CFT-20, CASI). New respondents in F2F2 were also given the opportunity to take the intelligence test. The intelligence test was again administered in the F2F4 data collection using the Hogrefe online test system, but only for twins and siblings. A detailed description of the test batteries, test routines and further recommendations for the use of cognitive data can be found in Klatzka & Lenau (2024) (URL Link). Please note that in rare cases, participants in F2F 2 were mistakenly treated as new to the sample and therefore took the test a second time. In these cases there are two test results (in F2F 1 and F2F 2).

Question text: `CFT 20-R result` [item text: `CFT 20-R T4.8 long: result`]
Filter based on instrument: module 'CFT-20-R' (CAPI): age0110 >= 10
The intelligence test was administered in F2F1, F2F2, and F2F4. The intelligence test was implemented in F2F1 for all participating children aged 9 years or younger (CFT-1, paper-and-pencil) and for respondents aged 10 years or older (CFT-20, CASI). New respondents in F2F2 were also given the opportunity to take the intelligence test. The intelligence test was again administered in the F2F4 data collection using the Hogrefe online test system, but only for twins and siblings. A detailed description of the test batteries, test routines and further recommendations for the use of cognitive data can be found in Klatzka & Lenau (2024) (URL Link). Please note that in rare cases, participants in F2F 2 were mistakenly treated as new to the sample and therefore took the test a second time. In these cases there are two test results (in F2F 1 and F2F 2).

The intelligence test was administered in F2F1, F2F2, and F2F4. The intelligence test was implemented in F2F1 for all participating children aged 9 years or younger (CFT-1, paper-and-pencil) and for respondents aged 10 years or older (CFT-20, CASI). New respondents in F2F2 were also given the opportunity to take the intelligence test. The intelligence test was again administered in the F2F4 data collection using the Hogrefe online test system, but only for twins and siblings. A detailed description of the test batteries, test routines and further recommendations for the use of cognitive data can be found in Klatzka & Lenau (2024) (URL Link). Please note that in rare cases, participants in F2F 2 were mistakenly treated as new to the sample and therefore took the test a second time. In these cases there are two test results (in F2F 1 and F2F 2).

Please note that in rare cases, participants in F2F 2 were mistakenly treated as new to the sample and therefore took the test a second time. In these cases there are two test results (in F2F 1 and F2F 2).

The intelligence test was administered in F2F1, F2F2, and F2F4. The intelligence test was implemented in F2F1 for all participating children aged 9 years or younger (CFT-1, paper-and-pencil) and for respondents aged 10 years or older (CFT-20, CASI). New respondents in F2F2 were also given the opportunity to take the intelligence test. The intelligence test was again administered in the F2F4 data collection using the Hogrefe online test system, but only for twins and siblings. A detailed description of the test batteries, test routines and further recommendations for the use of cognitive data can be found in Klatzka & Lenau (2024) (URL Link). Please note that in rare cases, participants in F2F 2 were mistakenly treated as new to the sample and therefore took the test a second time. In these cases there are two test results (in F2F 1 and F2F 2).

The intelligence test was implemented in F2F1 for all participating children aged 9 years or younger (CFT-1, paper-and-pencil) and for respondents aged 10 years or older (CFT-20, CASI). New respondents in F2F2 were also given the opportunity to take the intelligence test. The intelligence test was again administered in the F2F4 data collection using the Hogrefe online test system, but only for twins and siblings. A detailed description of the test batteries, test routines and further recommendations for the use of cognitive data can be found in Klatzka & Lenau (2024) (URL Link). Please note that in rare cases, participants in F2F 2 were mistakenly treated as new to the sample and therefore took the test a second time. In these cases there are two test results (in F2F 1 and F2F 2).

Question text: `CFT 1-R result` [item text: `CFT 1-R T2.1 long: result`]
Filter based on instrument: module 'CFT-1-R' (CAPI): age0110 < 10
The intelligence test was administered in F2F1, F2F2, and F2F4. The intelligence test was

implemented in F2F1 for all participating children aged 9 years or younger (CFT-1, paper-and-pencil) and for respondents aged 10 years or older (CFT-20, CASI). New respondents in F2F2 were also given the opportunity to take the intelligence test. The intelligence test was again administered in the F2F4 data collection using the Hogrefe online test system, but only for twins and siblings. A detailed description of the test batteries, test routines and further recommendations for the use of cognitive data can be found in Klatzka & Lenau (2024) (URL Link). Please note that in rare cases, participants in F2F 2 were mistakenly treated as new to the sample and therefore took the test a second time. In these cases there are two test results (in F2F 1 and F2F 2).

The intelligence test was administered in F2F1, F2F2, and F2F4. The intelligence test was implemented in F2F1 for all participating children aged 9 years or younger (CFT-1, paper-and-pencil) and for respondents aged 10 years or older (CFT-20, CASI). New respondents in F2F2 were also given the opportunity to take the intelligence test. The intelligence test was again administered in the F2F4 data collection using the Hogrefe online test system, but only for twins and siblings. A detailed description of the test batteries, test routines and further recommendations for the use of cognitive data can be found in Klatzka & Lenau (2024) (URL Link). Please note that in rare cases, participants in F2F 2 were mistakenly treated as new to the sample and therefore took the test a second time. In these cases there are two test results (in F2F 1 and F2F 2).

The intelligence test was administered in F2F1, F2F2, and F2F4. The intelligence test was implemented in F2F1 for all participating children aged 9 years or younger (CFT-1, paper-and-pencil) and for respondents aged 10 years or older (CFT-20, CASI). New respondents in F2F2 were also given the opportunity to take the intelligence test. The intelligence test was again administered in the F2F4 data collection using the Hogrefe online test system, but only for twins and siblings. A detailed description of the test batteries, test routines and further recommendations for the use of cognitive data can be found in Klatzka & Lenau (2024) (URL Link). Please note that in rare cases, participants in F2F 2 were mistakenly treated as new to the sample and therefore took the test a second time. In these cases there are two test results (in F2F 1 and F2F 2).

The intelligence test was administered in F2F1, F2F2, and F2F4. The intelligence test was implemented in F2F1 for all participating children aged 9 years or younger (CFT-1, paper-and-pencil) and for respondents aged 10 years or older (CFT-20, CASI). New respondents in F2F2 were also given the opportunity to take the intelligence test. The intelligence test was again administered in the F2F4 data collection using the Hogrefe online test system, but only for twins and siblings. A detailed description of the test batteries, test routines and further recommendations for the use of cognitive data can be found in Klatzka & Lenau (2024) (URL Link). Please note that in rare cases, participants in F2F 2 were mistakenly treated as new to the sample and therefore took the test a second time. In these cases there are two test results (in F2F 1 and F2F 2).

Question text: `People assess their abilities differently. We would like to know how you assess your abilities with regard to your general intelligence. The following figures show the distribution of intelligence in the total population. Additionally, you see a rough description of different parts of the distribution - 100 correspond to the average value of the population, which means that the average population shows an intelligence value between 85 and 115. Please estimate your own intelligence with a value between 50 and 150.`

Question text:
Filter based on instrument: always asked/always generated
Generated variable
The 15-digit variable reflects respondents' actual responses on the 15-items subtest (raw data), allowing data users to check respondents' response patterns. It is only provided for the harmonized version (total test time). The numbers 1 to 5 reflect the test response, the number 9 indicates a missing value (the item was not answered). A detailed description of the test batteries, test routines and further recommendations for the use of cognitive data can be found in Klatzka & Lenau (2024) (URL Link).

Question text:
Filter based on instrument: always asked/always generated
Generated variable
The 15-digit variable reflects respondents' actual responses on the 15-items subtest (raw data), allowing data users to check respondents' response patterns. It is only provided for the harmonized version (total test time). The numbers 1 to 5 reflect the test response, the number 9 indicates a missing value (the item was not answered). A detailed description of

the test batteries, test routines and further recommendations for the use of cognitive data can be found in Klatzka & Lenau (2024) (URL Link).

Question text:
Filter based on instrument: always asked/always generated
Generated variable
The 15-digit variable reflects respondents' actual responses on the 15-items subtest (raw data), allowing data users to check respondents' response patterns. It is only provided for the harmonized version (total test time). The numbers 1 to 5 reflect the test response, the number 9 indicates a missing value (the item was not answered). A detailed description of the test batteries, test routines and further recommendations for the use of cognitive data can be found in Klatzka & Lenau (2024) (URL Link).

Question text:
Filter based on instrument: always asked/always generated
Generated variable
The 15-digit variable reflects respondents' actual responses on the 15-items subtest (raw data), allowing data users to check respondents' response patterns. It is only provided for the harmonized version (total test time). The numbers 1 to 5 reflect the test response, the number 9 indicates a missing value (the item was not answered). A detailed description of the test batteries, test routines and further recommendations for the use of cognitive data can be found in Klatzka & Lenau (2024) (URL Link).

14 Private tutoring / Utilization of special support

This chapter contains information on: extracurricular activities (e.g., early music education, drawing, etc.); parental report: extracurricular activities (e.g., help with homework, remedial groups, leisure activites, etc.).

Waves: F2F 1; F2F 2; F2F 3; F2F 5
Question text: `Please rate the extent to which each statement applies to you.` [item text: `I think I am pretty good at my job.`]
Filter based on instrument: module 'basic module' (CAPI): emp0400 == 1 | emp0400 == 2 | emp0400 == 3 | emp0400 == 4 | emp0200 == 1 | emp0200 == 2 | emp0200 == 3; module 'questionnaire for Alteri' (PAPI): emp0411 == 1 | emp0412 == 1 | emp0413 == 1 | emp0414 == 1 | emp0415 == 1; module 'questionnaire for Alteri' (CAWI): emp0400 >= 1 & emp0400 <= 5
Two different Likert scales were used for this variable in the data collection, which may affect the interpretation of the data. The following scale was used in data collections 1 (F2F1) and consists of five response options, with each option having a specific label: 1 'does not apply at all', 2 'does not apply', 3 'nor', 4 'does apply', 5 'does apply exactly'. In subsequent data collections, only a partially labeled Likert scale was used: 1 'does not apply at all' and 5 'does apply exactly'. The intermediate values (2 to 4) are not explicitly labeled, giving respondents more room for interpretation.

Question text: `Please rate the extent to which each statement applies.` [item text: `I believe that [name of child] will like school.`]
Filter based on instrument: module 'sensitive personal information' (CASI): (ptyp == 300 | ptyp == 400 | ptyp == 500 | ptyp == 600) & fil0100t == 1
Two different Likert scales were used for this variable in the data collection, which may affect the interpretation of the data. The following scale was used in data collections 1 (F2F1) and consists of five response options, with each option having a specific label: 1 'does not apply at all', 2 'does not apply', 3 'nor', 4 'does apply', 5 'does apply exactly'. In subsequent data collections, only a partially labeled Likert scale was used: 1 'does not apply at all' and 5 'does apply exactly'. The intermediate values (2 to 4) are not explicitly labeled, giving respondents more room for interpretation.

Filter based on instrument: module 'basic module' (CAPI): edu0100 == 2 | edu0301 == 1
Two different Likert scales were used for this variable in the data collection, which may affect the interpretation of the data. The following scale was used in data collections 1 (F2F1) and consists of five response options, with each option having a specific label: 1 'does not apply at all', 2 'does not apply', 3 'nor', 4 'does apply', 5 'does apply exactly'. In subsequent data collections, only a partially labeled Likert scale was used: 1 'does not apply at all' and 5 'does apply exactly'. The intermediate values (2 to 4) are not explicitly labeled, giving respondents more room for interpretation.

Question text: `Please rate the extent to which each statement applies to you. It is important for me in the context of my professional work . . . Please rate the extent to which each statement applies to you.` [item text: `. . . to learn something interesting.`]
Filter based on instrument: module 'basic module' (CAPI): emp0400 == 1 | emp0400 == 2 | emp0400 == 3 | emp0400 == 4 | emp0200 == 1 | emp0200 == 2 | emp0200 == 3; module 'questionnaire for Alteri' (PAPI): emp0411 == 1 | emp0412 == 1 | emp0413 == 1 | emp0414 == 1 | emp0415 == 1; module 'questionnaire for Alteri' (CAWI): (emp0400 >= 1 & emp0400 <= 5) | edu0100 == 1 | (emp0200 >= 1 & emp0200 <= 3)
Two different Likert scales were used for this variable in the data collection, which may affect the interpretation of the data. The following scale was used in data collections 1 (F2F1) and consists of five response options, with each option having a specific label: 1 'does not apply at all', 2 'does not apply', 3 'nor', 4 'does apply', 5 'does apply exactly'. In subsequent data collections, only a partially labeled Likert scale was used: 1 'does not apply at all' and 5 'does apply exactly'. The intermediate values (2 to 4) are not explicitly labeled, giving respondents more room for interpretation.

Waves: F2F 1; CATI 1; F2F 2; F2F 3; F2F 4; F2F 5; CoV 2
Generated variable
When interpreting and analyzing the variable **emp0400**, it is important to note that changes in the specification of response categories were made starting from F2F 2. Specifically, in F2F 2, the categories Full-time employed and Part-time employment were specified with weekly hours to enable a more accurate recording of working hours. The category Marginally employed also includes a weekly hours limit since F2F 2. The category for voluntary services has been simplified to unify various types of voluntary services under one term. The category for non-employment was slightly rephrased to ensure broader coverage. In F2F 5, the category for training was expanded to include dual study programs.
Categories in F2F1:

```
1. Full employed
2. Part-time employment
3. In-company training/apprenticeship or in-company retraining
4. Marginally employed; Mini Job; One-euro job, e.g., when receiving unemployment benefit
5. Occasionally or irregularly employed
6. Voluntary military service
7. Voluntary social/ecological year, federal voluntary service
8. In phased retirement with zero working hours
9. Early retirees, pensioners, unable to work
10. Not employed
11. Other, namely:
```

Categories from F2F2:

```
1. Full-time employed (at least 35 weekly hours)
2. Part-time employment (also with parallel part-time jobs) (at least 16 and less than 35
3. In-company training/apprenticeship or in-company retraining
```

```
3. In-company training/apprenticeship (also dual study programs) or in-company retraining
4. Marginally employed, Mini Job, One-euro job (when receiving unemployment benefit 2) (
5. Occasionally or irregularly employed
6. Voluntary military service
7. Voluntary year, e.g., social or ecological year, federal voluntary service
8. In phased retirement with zero working hours
9. Early retirees, pensioners, unable to work
10. Other non-employment
11. Other, namely:
```

Generated variable
For F2F 1, the German KldB-2010 classification (Klassifikation der Berufe 2010) is available for the occupation (**emp0501**) and occupational activity (**eca0203**). It is structured along two dimensions: professionalism and level of requirement. It is highly compatible to ISCO-08 (see variables **eca0205** and **emp0503**). For more information about this classification, see Bundesagentur fuer Arbeit (2011).

Filter based on instrument: always asked/always generated
Generated variable

The International Standard Classification of Occupations of 2008 (ISCO-08) classifies occupations (internationally comparable) according to the required skill level (degree of complexity, based on educational qualifications) of an occupation as well as the skill specialization (the type of skills required specifically for this occupation). TwinLife provides the ISCO classification at the level of sub-subgroups (two digits) for

- the occupation of the current employment (**emp0503** and **emp0513**),
- the occupation of the previous employment (**emp0553**, CATI1 only),
- the apprenticeship or field of study of the highest professional qualification (**eca0205**),
- the apprenticeship or field of study acquired since the last interview(**eca1205**),
- the apprenticeship or field of study of the vocational qualifications mentioned in F2F3 and F2F4, which were surveyed in a follow-up in F2F5 (**eca1215**, **eca1225**), and
- the occupational activities of the grandparents of the twins (**bpa0208**, **bpa0308**, **bpa0508**, **bpa0608**).

For more information about the ISCO classification visit the ILO website (URL Link). The open-ended responses on occupation were coded into ISCO-08 by the survey institute (TNS Infratest/Kantar for F2F 1, infas for Fall other waves). Infratest performs the coding on the basis of an electronically available directory developed by Statistik Austria (see TNS Infratest/Kantar ISCO-08 documentation (URL Link) on the TwinLife documentation website (URL Link)). Infas bases the ISCO coding on specifications developed by GESIS. The exact procedure of occupation coding was described in detail by Geis and Hoffmeyer-Zlotnik (2000) using ISCO-88 as an example. In addition, extensive guidance on the practical implementation of occupational coding can be found in Geis (2011). Building on this knowledge of ISCO-88, there is the ISCO-08 code scheme, explanations and notes on the differences between ISCO-08 and ISCO-88. These have been coordinated by infas with GESIS. Specifications that could not translated into the schemes (such as 'team leader', 'specialist', or 'intern') were coded into -81 (no occupation or occupational activity mentioned) or -89 (not codable).

Generated variable
ISEI (International Socio-Economic Index of Occupational Status) is a measure of a person's socio-economic status and takes into account the individual's occupation, income and education. ISEI-08 categories range from 12 to 90. The ISEI is generated for

- the occupation of the current employment (**emp0505**),
- the apprenticeship or field of study of the highest professional qualification (**eca0207**),
- the apprenticeship or field of study acquired since the last interview (**eca1207**),
- the apprenticeship or field of study of the vocational qualifications mentioned in F2F3 and F2F4, which were surveyed in a follow-up in F2F5 (**eca1217**, **eca1227**).

The ISEI variables have been coded on the basis of the four-digit version of the ISCO-08 classification. It was created using the Stata program *iscogen.ado* (Jann, B. (2019)), which is based on the SPSS script *isqoisei08.sps* by Harry Ganzeboom. For more information see Ganzeboom & Treiman (1996) and Ganzeboom (2010).

Generated variable
SIOPS (Standard Index of Occupational Prestige Scale) is a classification for a prestige ranking of occupations (from 0 to 100). The SIOPS is generated for

- the occupation of current employment (**emp0508**),
- the apprenticeship or field of study of the highest professional qualification (**eca0208**),
- the apprenticeship or field of study acquired since the last interview (**eca1208**),

- the apprenticeship or field of study of the vocational qualifications mentioned in F2F3 and F2F4, which were surveyed in a follow-up in F2F5 (**eca1218**, **eca1228**).

The SIOPS variables have been coded on the basis of the four-digit version of the ISCO-08 classification. It was created using the Stata program *iscogen.ado* (Jann, B. (2019)). For more information see Ganzeboom & Treiman (1996).

Question text:
Filter based on instrument: always asked/always generated
Generated variable
The EGP-classes (Erikson-Goldthorpe-Portocarero classes) is a classification for the socioeconomic status of the parents, considering the type of occupational activity, the occupational status, managerial responsibility, and the kind of qualification needed for the occupational activity. For the generation of the EGP of the occupational activity (**emp0508**) the ISCO-08 variable **emp0503_iuf** (4 digits (unit group level), not part of the Scientific Use File) needed to be translated in the ISCO-88 classification first, using the Stata ado *iscogen.ado* that bases on a conversion tool by Harry Ganzeboom (URL Link).

```
iscogen emp0503_88 = isco88(emp0503_iuf), from(isco08)
```

Then, the EGP variable was generated, again using the Stata ado *iscogen.ado* (Jann, B. (2019)), also considering self-employment (**emp0602**) and supervisory status (**supviss**).

```
iscogen emp0508 = egp11(emp0503_88 emp0602 supviss), from(isco88)
```

The necessary information about the number of employees (**supviss**) only differentiates between whether the person supervises more than one and less than ten persons (**supviss** == 2), or more than ten persons (**supviss** == 11). It is based on information about the occupational status (from **emp0601** and **emp0605**) and the actual number of employees when being self-employed (**emp0603**):

```
gen supviss = .
replace supviss = 2 if emp0603 == 2   // self-employed with 1-9 employees
replace supviss = 11 if emp0603 == 3   // self-employed w. 10+ employees
replace supviss = 2 if emp0601 >= 4   // assumption: 1-9 subordinates
replace supviss = 2 if emp0605 == 6   // assumption: 1-9 subordinates
replace supviss = 11 if emp0605 == 7   // assumption: 10+ subordinates
replace supviss =. if wid == 2     // necessary inf. NA in CATI 1 (wid==2)
```

emp0508 was only generated for the F2F data collections. For more information, see Ganzeboom & Treiman (1996).
Ganzeboom, H. B. G., & Treiman, D. J. (1996). Internationally Comparable Measures of Occupational Status for the 1988 International Standard Classification of Occupations. Question text:
Filter based on instrument: always asked/always generated
Generated variable
The ESeC (The European Socio-economic Classification) is a scheme provided for the whole adult population, but is mainly occupationally based classification. It was developed from

the EGP (Erikson-Goldthorpe-Portocarero) scheme. The categories of the ESeC summarize occupations according to their position in the labor market and the type of labor regulation. The information required to create ESeC is: occupation coded to the minor groups (i.e. 3-digit groups) of the EU variant of the International Standard Classification of Occupations 1988 (ISCO88 (COM)); details of employment status, i.e. whether an employer, self-employed or employee; number of employees at the workplace; whether a worker is a supervisor. For the generation of the ESeC (**emp0515**) the ISCO-08 variable **emp0503_iuf** (4 digits (unit group level), not part of the Scientific Use File) needed to be translated in the ISCO-88 classification first, and then in the ISCO-88-COM classification, using the Stata ado *iscogen.ado* (Jann (2019)) that bases on a conversion tool by Harry Ganzeboom (URL Link). Further, self-employment (**emp0602**) and supervisory status (**supviss**, for the generation of this variable, see **emp0508**, EGP) is considered.

```
iscogen emp0503_88 = isco88(emp0503_iuf), from(isco08)
iscogen emp0503_88com = isco88com(emp0503_88), from(isco88)
iscogen emp0515 = esec(emp0503_88com emp0602 supviss)
```

emp0515 was only generated for F2F 1 (wid 1) and F2F 2 (wid 3). For more information on the ESeC classification, see Harrison & Rose (2006).

Generated variable
Until 30 June 2019, an upper earnings limit of 850 euros applied to midijobs, from 1 July 2019 a limit of 1300 euros, from 1 October 2022 1600 euros, from 1 January 2023 2,000 euros. As of 1 October 2022, the upper earnings limit for mini-jobs was raised from 450 euros to 520 euros.
Please note that the questionnaire instrument for F2F3b and F2F4 still shows the old upper limits of 850 euros. However, the question correctly asks for minijob and midijob.

The WZ 2008 is the German classification of economic sectors and bases on the Statistical Classification of Economic Activities in the European Community (NACE). In **emp0709** the open answers of the respondents on the question about the sector in which they work (**emp0707**: 'In which sector of the economy/which branch/which service area is the company or the institution predominantly active? Please quote the exact name, e.g. not industry, but electrical industry; not trade, but retail; not public service, but hospital.') are classified into 88 departments. For more information about this classification, see the documentation on the classification server of the Federal Statistical Office of Germany (URL Link).

Waves: F2F 1; CATI 1; F2F 2; F2F 3; F2F 4; F2F 5
Question text:
Filter based on instrument: always asked/always generated
Generated variable
Twin families are a special type of family that could be de-anonymized more easily than other families when combining several characteristics known from the data, especially when these characteristics exceedingly diverge from the average, such as a very high or very low income. In order to ensure the anonymity of the twin families, very high and very low values of the personal income variable **inc0100** is manipulated in a way that the incomes cannot lead back to one individual, but the income distribution, as well as analyses, are not affected by the alterations. The manipulation follows the recommendations of Wirth (1992). Personal income was collected in variable **inc0100** in all data collections except CATI 2 and 3. First, only for CATI 1 a categorical variable (corresponding to **inc0103**) is generated from the variables **inc0102**, **inc0105**, **inc0106**. In the next step, for the cases in which no monthly personal income was reported, the annual income from **inc0101** (if available) is divided by 12 and integrated into **inc0100**. A single case correction was made in F2F 1, where monthly and annual income were obviously confused (**pid_suf** == 124589400). Other conspicuities are recorded and flagged in the variables **inc0120** and **inc0121**. Finally, following Wirth (1992), the five highest and lowest income specifications are replaced by their average (manipulation of the strongest outliers) and the 10% highest and lowest income statements are assigned a random error of +/- 1% of the initial value using a random variable. As a result, 80% of the incomes are not affected by the manipulation. The resulting manipulated variable **inc0110** is supplied in the SUF.
Please note: No structured plausibility analyses were conducted based on the income data. Accordingly, no adjustment to the income was made, except for the described manipulations in the interest of data protection. In rare cases it seems that annual rather than monthly income were inadvertently reported in **inc0400**.

Question text:
Filter based on instrument: always asked/always generated
Generated variable
Twin families are a special type of family that could be de-anonymized more easily than other families when combining several characteristics known from the data, especially when these characteristics exceedingly diverge from the average, such as a very high or very low income. In order to ensure the anonymity of the twin families, very high and very low values of the household income variable **inc0400** are manipulated in a way that the incomes cannot lead back to one household or individual, but the income distribution, as well as analyses, are not affected by the alterations. The manipulation follows the recommendations of Wirth (1992). In order to process a maximum of income information, the first step is to integrate the specification of income categories from **inc0403** into the variable **inc0400**. Here, the middle of the specified category is used. In F2F 2, CATI 2 and F2F 3, the yearly household income (**inc0404**) was also recorded as an alternative - this information is also converted first (divided by 12) and then integrated into **inc0400**. In CATI 1, household income was recorded at the personal level. Therefore, it may happen that within one household several different household incomes are specified. Here, the median of all information provided in the household was used. Finally, following Wirth (1992), the five highest and lowest income specifications are replaced by their average (manipulation of the strongest outliers) and the 10% highest and lowest income statements are assigned a random error of +/- 1% of the initial value using a random variable. As a result, 80% of the incomes are not affected by the manipulation. The resulting manipulated variable **inc0401** is supplied in the SUF. Conspicuities are recorded and flagged in the variables **inc0420**, **inc0421**, **inc0423** and **inc0423**.
Please note: No structured plausibility analyses were conducted based on the income data. Accordingly, no adjustment to the income was made, except for the described manipulations in the interest of data protection.
Please note: Due to the reduced questionnaire in CATI 2 (wid=4), twins in cohorts 3 and 4 were not asked about their household income if they were still living with at least one parent.

As a result, mean and median incomes are much lower than in previous data collections in these cohorts.
Please note: In rare cases it seems that annual rather than monthly income were inadvertently reported in **inc0400**.

Question text:
Filter based on instrument: always asked/always generated
Generated variable
Besides the (manipulated) household income, we generate and provide the net equivalent household income using the modified OECD scale (`http://www.oecd.org/els/soc/OECD-Note-Equivalenc pdf`). For this generated variable, the household size and composition are taken into account. The concept is based on the assumption that people (e.g., two adults) save money and are fictitiously 'richer' by living together in one household and sharing a common budget and the fixed costs instead of living in separate households. For more information about the concept, see OECD (2011). For this purpose, the household composition recorded in the household questionnaire is used to calculate how many adult persons (aged 14 and older) and how many children (under 14) live in the household. In CATI 2 and 3, the household composition was not recorded systematically by the interviewer, but was surveyed in the household questionnaire. This self-report of the respondent was used as the basis for calculating the equivalence income. According to OECD (2011), the 'household head' gets a weight of 1, each further adult person gets a weight of 0.5, and each child a weight of 0.3. The household income is then divided by the sum of all weights in the household. The resulting variable **inc0411**, the net equivalent household income, is published in the SUF.
Please note: Due to the reduced questionnaire in CATI 2 (wid=4), twins in cohorts 3 and 4 were not asked about their household income if they were still living with at least one parent.

Question text:
Filter based on instrument: always asked/always generated
Generated variable
This flag variable indicates whether a multiple of child allowances are specified in the generated monthly household income variable (**inc0401**). Imprecise question wording in F2F 1 may have led respondents to relate the question about monthly household income to the total of their government benefit payments (public services). This is only verifiable for child allowances, as this is the only fixed (and thus known to us) variable for government benefits. The number of cases in F2F 1 for which the flag applies suggests that an even larger proportion of households could have reported the sum of government benefits received, which should be kept in mind when analyzing the variable. Please note that only cases where the

exact amount of a multiple of child benefit was stated have been flagged. In the SUF data, these cases are not uniquely identifiable, as the lower 10% of household income data have been manipulated (see the variable text for **inc0401**).

Waves: F2F 1; F2F 2; F2F 5
Question text: `Below are three statements that you can either agree or disagree with. What is your opinion on the following three statements ?` [item text: `Overall, one can trust people.`]
Filter based on instrument: module 'less sensitive information' (CASI): age0110 >= 15; module

'less sensitive information' (PAPI): age0110 >= 16; module 'questionnaire for Alteri' (PAPI): age0110 >= 16; module 'questionnaire for Alteri' (CAWI): age0110 >= 16
Two different Likert scales were used for this variable in the data collection, which may affect the interpretation of the data. In the first data collection (F2F 1), only a partially labeled Likert scale was used: 1 'completely disagree' and 4 'completely agree'. The intermediate values (2 and 3) are not explicitly labeled, giving respondents more room for interpretation. In subsequent data collections, the scale consists of four response options, with each option having a specific label: 1: 'completely disagree', 2: 'rather disagree', 3: 'rather agree', 4: 'completely agree'.

The response option 'orientation school' (German: 'Orientierungsschule') was incorrectly given in the questionnaire until data collection F2F2, although this type of school no longer exists in Germany. Therefore, this category was deleted from CATI2 onwards. In CATI3, edu0400 also contains the proxy information of the parents of the variables edu0400t and edu0400u.

24 Global life satisfaction

This chapter contains information on: global life satisfaction.

gls0100 – satisfaction: life almost ideal (>=16 yr)

1	1: strong rejection	234
2	2: rather rejection	926
3	3: neither rejection nor agreement	2528
4	4: rather agreement	4945
5	5: strong agreement	2960
-85	-85: information not evaluable	0
-87	-87: multiple answers	6
-90	-90: no participation in survey wave	2441
-92	-92: no participation in survey module	2486
-93	-93: unclear classification of system missing	228
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	4496
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	9

Waves: F2F 1; F2F 2; F2F 3; CATI 3; F2F 4; CATI 4; F2F 5
Question text: `Below we would like to know how satisfied you are with your life in general. You can agree or disagree with the following statements.` [item text: `In most ways my life is close to my ideal.`]
Filter based on instrument: module 'less sensitive information' (CASI): age0110 >= 16; module 'less sensitive information' (PAPI): age0110 >= 16; module 'questionnaire for Alteri' (PAPI): age0110 >= 16; module 'questionnaire for Alteri' (CAWI): age0110 >= 16
In wid = 2 (CATI 1), in contrast to the other data collections, the following response options were given: 1: strongly disagree; 2: disagree; 3: neither disagree nor agree; 4: agree; 5: strongly agree. The variable names gls*10 were therefore assigned to these variables instead of gls*00.
Diener, E., Emmons, R. A., Larsen, R. J., & Griffin, S. (1985). The Satisfaction With Life Scale. Journal of Personality Assessment, 49(1), 71-75. [URL link]

gls0200 – satisfaction: excellent life conditions (>=16 yr)

1	1: strong rejection	143
2	2: rather rejection	771
3	3: neither rejection nor agreement	1871
4	4: rather agreement	4625
5	5: strong agreement	4192
-85	-85: information not evaluable	0
-87	-87: multiple answers	8
-90	-90: no participation in survey wave	2441
-92	-92: no participation in survey module	2486
-93	-93: unclear classification of system missing	219
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	4496
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	7

Question text: `Please mark each item as Not applicable, Partially applicable, or Clearly applicable. Please answer all questions to the best of your ability, even if you are not entirely sure or find a question to be peculiar. When responding, consider [name of child]'s behavior in the last six months or during this school year. [name of child] . . .` [item text: `. . . is constantly fidgeting or squirming.`]
Filter based on instrument: module 'parents on children' (CAPI): age0110s >= 4 & age0110s <= 9
Please note: The variable names of the items of the ext-scale can differ between the self-report (without suffix) and the parental report (suffix t, u or s).
Goodman, R., Meltzer, H., & Bailey, V. (1998). The strengths and difficulties questionnaire: A pilot study on the validity of the self-report version. European Child & Adolescent Psychiatry, 7(3), 125-130. [URL link]

31 Deviant and delinquent Behavior

This chapter contains information on: deviant behavior young children (e.g. lying/cheating, fighting with other children); long/short version of deviant-delinquent behaviour measure.

del0100 – delinquency ever: fare dodging (t,u,s, >= 10 & <= 18 yr)

1	1: yes	2056
2	2: no	2655

Generated variable
When analyzing the delinquency questions longitudinally, it must be taken into account that the question on delinquency in the face-to-face data collections from F2F3 onwards has been adapted to the extent that the questions 'Have you ever [...]' (variables **del*00) are only asked to new survey participants. Panel participants are instead asked the question 'In the last 24 months, have you [...]' (variables del*04**). The subsequent question on the frequency of the respective behavior refers to the period of the last 12 months in F2F1 and F2F2 (**del*01), and to the last 24 months in F2F3 (del*05'**). In CATI1, the question was asked as follows: 'In the last 12 months, have you [...]' (**del2***) but no frequencies were asked. Parents provided proxy statements about delinquent behavior of their children aged 9 or younger (**del2*[t,u,s]**) in CATI1 only.

Generated variable
When analyzing the delinquency questions longitudinally, it must be taken into account that the question on delinquency in the face-to-face data collections from F2F3 onwards has been adapted to the extent that the questions 'Have you ever [...]' (variables **del*00) are only asked to new survey participants. Panel participants are instead asked the question 'In the last 24 months, have you [...]' (variables del*04**). The subsequent question on the frequency of the respective behavior refers to the period of the last 12 months in F2F1 and F2F2 (**del*01), and to the last 24 months in F2F3 (del*05**'). In CATI1, the question was asked as follows: 'In the last 12 months, have you [...]' (**del2***) but no frequencies were asked. Parents provided proxy statements about delinquent behavior of their children aged 9 or younger (**del2*[t,u,s]**) in CATI1 only.

Generated variable
When analyzing the delinquency questions longitudinally, it must be taken into account that the question on delinquency in the face-to-face data collections from F2F3 onwards has been adapted to the extent that the questions 'Have you ever [...]' (variables **del*00) are only asked to new survey participants. Panel participants are instead asked the question 'In the last 24 months, have you [...]' (variables del*04**). The subsequent question on the frequency of the respective behavior refers to the period of the last 12 months in F2F1 and F2F2 (**del*01), and to the last 24 months in F2F3 (del*05**'). In CATI1, the question was asked as follows: 'In the last 12 months, have you [...]' (**del2***) but no frequencies were asked. Parents provided proxy statements about delinquent behavior of their children aged 9 or younger (**del2*[t,u,s]**) in CATI1 only.

44 Survey and module participation

This chapter contains information on: module participation.

f2f – participation (starter) (gen)

1	1: yes	16951
2	2: no	2200
3	3: yes, but answers deleted	241
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	0
-92	-92: no participation in survey module	0
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	1867
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 1
Question text:
Filter based on instrument: always asked/always generated
Generated variable
The variables **f2f** and **f2f_m*** indicate whether a person participated in F2F 1 overall (**f2f**) or in the single modules of F2F 1 and F2F 2 (**f2f_m***). Here it is irrelevant whether the person completed the module or dropped out in between.

f2f_fl – number of participating persons per family (gen)

-85	-85: unknown	0
-86	-86: not available/empty/not codable	0
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	0
-92	-92: no participation in survey module	0
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	0
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 1
Filter based on instrument: always asked/always generated

f2f_hl – number of participating persons per household (gen)

-85	-85: unknown	0
-86	-86: not available/empty/not codable	0
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	0
-92	-92: no participation in survey module	0
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	2380
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 1
Filter based on instrument: always asked/always generated

f2f_m12a – participation PAPI for Alteri (gen)

1	1: yes	412
2	2: no	18739
-84	-84: unassignable	0
-85	-85: information not evaluable	0
-86	-86: inconclusive specification	0
-87	-87: multiple answers	0
-89	-89: illegible	0
-90	-90: no participation in survey wave	241
-92	-92: no participation in survey module	0
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	1867
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 1
Question text:
Filter based on instrument: always asked/always generated

Generated variable
The variables **f2f** and **f2f_m*** indicate whether a person participated in F2F 1 overall (**f2f**) or in the single modules of F2F 1 and F2F 2 (**f2f_m***). Here it is irrelevant whether the person completed the module or dropped out in between.

f2f_m12b – participation CAWI for Alteri (gen)

1	1: yes	84
2	2: no	19067
-84	-84: unassignable	0
-85	-85: information not evaluable	0
-86	-86: inconclusive specification	0
-87	-87: multiple answers	0
-89	-89: illegible	0
-90	-90: no participation in survey wave	241
-92	-92: no participation in survey module	0
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	1867
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 1
Question text:
Filter based on instrument: always asked/always generated
Generated variable
The variables **f2f** and **f2f_m*** indicate whether a person participated in F2F 1 overall (**f2f**) or in the single modules of F2F 1 and F2F 2 (**f2f_m***). Here it is irrelevant whether the person completed the module or dropped out in between.

f2f_m2a – participation CFT-20 (gen)

1	1: yes	13856
2	2: no	4436
-84	-84: unassignable	0
-85	-85: information not evaluable	0
-86	-86: inconclusive specification	0
-87	-87: multiple answers	0
-89	-89: illegible	0
-90	-90: no participation in survey wave	241
-92	-92: no participation in survey module	859
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	1867
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 1
Question text:
Filter based on instrument: always asked/always generated

Generated variable

Waves: F2F 1
Question text:
Filter based on instrument: always asked/always generated

Generated variable
The variables **f2f** and **f2f_m*** indicate whether a person participated in F2F 1 overall (**f2f**) or in the single modules of F2F 1 and F2F 2 (**f2f_m***). Here it is irrelevant whether the person completed the module or dropped out in between.

45 Interviewer variables

This chapter contains information on: interviewer information; interviewer variables.

iid – interviewer ID

-85	-85: unknown	0
-86	-86: not available/empty/not codable	0
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	0
-92	-92: no participation in survey module	0
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	2380
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 1; CATI 1; F2F 2; CATI 2; F2F 3; CATI 3; F2F 4; CATI 4; F2F 5
Question text: `generated/assigned variable`
Filter based on instrument: module 'zygosity questionnaire for cohorts 1 & 2' (CAPI): sdc0100 != 2; module 'zygosity questionnaire for cohorts 3 & 4' (CAPI): sdc0100 != 2

ini0100 – interviewer: year of birth

-85	-85: unknown	0
-86	-86: not available/empty/not codable	0
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	0
-92	-92: no participation in survey module	0
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	2380
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

46 Interviewer assessments

This chapter contains information on: interviewer ratings about process of interview (household); interviewer ratings on the home environment (household).

iva0100 – dwelling is neat/messy (intr)

1	1: neat	8478
2	2	5793
3	3	3197
4	4	950
5	5: messy	270
-85	-85: no information available	98
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	0
-92	-92: no participation in survey module	89
-93	-93: unclear classification of system missing	4
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	2380
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 1; F2F 2; F2F 3; F2F 4; F2F 5
Question text: `What is your general impression of the home?` [item text: `tidy - untidy`]
Filter based on instrument: always asked/always generated
iva01, ***iva0500***, ***iva09***, **iva1000**: The interviewer was asked questions about the home and neighborhood where the interview took place following the last person interview. There are a few families that conduct all interviews in one location, although not all of these family members live in the same household. Since the location of the interview is not known, it is assumed that the interviewer was given information about the home and neighborhood of the last person interviewed. Accordingly, the information is assigned to all family members sharing the same household ID of the last person interviewed.

Waves: F2F 1; F2F 4
Question text: `Did other persons interfere in the interview?` [item text: `By the parents in the interview of the twins or the sibling`]
Filter based on instrument: always asked/always generated
iva04, ***iva11***, **iva12**, ***iva13***: The interviewer was asked questions about the interview process or disturbances during the interview at the end of the last person interview in a household. The questions refer to the group of respondents interviewed by the interviewer that day. In some cases, however, interviewers had answered the same questions more than once. Since complete interviewer assessments may not be available until after the last individual interview, only this last information is retained. Exception to this rule: If there is more than one assessment for multiple households in a family on a given day, the information for each household is retained. As a result, the information is assigned to all persons in a family (or at the household level in exceptional cases) with the same interview date.
Engstler, H., Groh, A., Klaus, D., Mahne, K., Spuling, S., Wetzel, M., Wolff, J., & Tesch-Roemer, C. (2015). German Ageing Survey (DEAS): Instruments of the Fifth Wave 2014. [URL link]

iva01, ***iva0500***, ***iva09***, **iva1000**: The interviewer was asked questions about the home and neighborhood where the interview took place following the last person interview. There are

a few families that conduct all interviews in one location, although not all of these family members live in the same household. Since the location of the interview is not known, it is assumed that the interviewer was given information about the home and neighborhood of the last person interviewed. Accordingly, the information is assigned to all family members sharing the same household ID of the last person interviewed.
