Contents

1 How to use the codebook 5

2 Study description 5

3 Data collection 5 (F2F 3) 5

4 Identifiers: IDs on wave, family, household and invidual level 5
fid – family ID (scientific use file) . . . 7
hid_5 – household ID wave-specific (scientific use file) (F2F 3) . . . 7
pid – person ID (scientific use file) . . . 7
wid – data collection ID - consecutively numbered (gen) . . . 8

5 Identifiers: Indicator and sample variables 8
cgr – twin birth cohort . . . 8
ptyp – type of respondent . . . 9
ptyp_hq – type of respondent for household questionnaire (gen) . . . 9
wav0100 – subsample (gen) . . . 10
wav0200 – survey wave (gen) . . . 10
wav0300 – part of the survey wave (gen) . . . 11
wav0400 – wave (wav0200, wav0300, wav0100 combined) . . . 11

6 Socio-demographics 12
age0100 – age in years on the date of the family questionnaire (gen) . . . 12
age0100t – age twins in years on the date of the family questionnaire (gen) . . . 12
age0100s – age sibling in years on the date of the family questionnaire (gen) . . . 13
age0101 – age in months on the date of the family questionnaire (gen) . . . 14
age0200 – age in years on 01 January of survey year of subsample (gen) . . . 14
age0201 – age in months on 01 January of survey year of subsample (gen) . . . 15
ewi – Eastern or western federal state (federal state indicator) (gen) . . . 15
gkpol_r – community size classification (political), 4 groups (gen) . . . 16
sex – sex . . . 17

7 Family structure and household characteristics 17
fhc – number of households belonging to the family (gen) . . . 17
fpr0107 – relation to the twins . . . 18
hlt – twin1 lives in household (gen) . . . 18
hlu – twin2 lives in household (gen) . . . 19
hls – sibling lives in household (gen) . . . 19
hlf – father lives in household (gen) . . . 19
hlg – stepfather lives in household (gen) . . . 20
hlm – mother lives in household (gen) . . . 20
hln – stepmother lives in household (gen) . . . 20
hpc – number of persons belonging to the household (gen) . . . 21
liv0210 – housing conditions of the twins (gen) . . . 21
liv0410 – household type (gen) . . . 22
liv0700 – Internet access available in the household (hh) . . . 22

8 Marital status 23
fam0100 – marital status (>= 16 yr) . . . 23
fam0200 – permanent partnership (>= 16 yr) . . . 24

fam0300 – sex of partner (>= 16 yr) 24

9 Migration and citizenship **25**
mig0520 – german citizenship available (gen) 25
mig0620 – German citizenship since (year) (gen) 25
mig2000 – country of birth (gen) 26
mig2001 – born in the GDR (gen) 27
mig2100 – country of birth of respondent's mother (gen) 28
mig2101 – born in the GDR - respondent's mother (gen) 29
mig2200 – country of birth of respondent's father (gen) 30
mig2201 – born in the GDR - respondent's father (gen) 31
mig3000 – country of birth - extended (gen) 31
mig3100 – country of birth of respondent's mother - extended (gen) 32
mig3200 – country of birth of respondent's father - extended (gen) 33
mig4000 – migration background (t,u,s, up to the 3rd generation) (gen) 34
mig4100 – migration background (up to the 2nd generation) (gen) 35

10 Zygosity questionnaire **35**
zyg0102 – zygosity: result questionnaire and DNA in F2F1 (gen) 35
zyg0112 – zygosity: result questionnaire and DNA in F2F1 & F2F3 (gen) 36

11 Twin-specific questions **37**
tsp1800 – relationship diagram of twins (m,f,n,g) 37
tsp1900 – parents: difficulty planning birthday party primary school time (m,f,n,g) 37
tsp1901 – parents: difficulty planning birthday party today (m,f,n,g) 38
tss1800 – relationship diagram of twins (s) 38
tst1700 – twin-specific question: joint birthday party (t, u) 38
tst1701 – twin-specific question: joint birthday party - valence (t, u) 39
tst1800 – relationship diagram of twins (t, u) 39

12 Educational attainment and success **40**
cer0001 – participation in the report card module (gen) 40
cer1001 – photo: consent photo report card 40
cer1001t – photo: consent photo report card (m/f/n/g, t < 18 yr.) 41
cer1001u – photo: consent photo report card (m/f/n/g, u < 18 yr.) 41
cer1001s – photo: consent photo report card (m/f/n/g, s < 18 yr.) 42
cer1002 – photo: consent photo report card (gen) 42
cer1004t – interview: math grade of last report card twin 1 43
cer1004u – interview: math grade of last report card twin 2 43
cer1004s – interview: math grade of last report card sibling 44
cer1005t – interview: german grade of last report card twin 1 44
cer1005u – interview: german grade of last report card twin 2 45
cer1005s – interview: german grade of last report card sibling 45
cer1006t – interview: school class of last report card twin 1 45
cer1006u – interview: school class of last report card twin 2 46
cer1006s – interview: school class of last report card sibling 46
cer1007t – interview: type of school of last report card twin 1 47
cer1007u – interview: type of school of last report card twin 2 47
cer1007s – interview: type of school of last report card sibling 48
cer1013 – interview: annual or final report card (int.) 48
cer1013t – interview: annual or final report card twin 1 (int.) 49

cer1013u – interview: annual or final report card twin 2 (int.) 49
cer1013s – interview: annual or final report card sibling (int.) 50
cer1100 – interview: average grade highest school degree 50
cer1200 – interview: type of school of highest school degree 51
cer1300 – interview: year of highest school degree 51
cer1400 – interview: math grade of last report card 52
cer1500 – interview: german grade of last report card 52
cer1600 – interview: school class of last report card 52
cer1700 – interview: type of school of last report card 53
cer2000 – photo: year of last report card 54
cer2001 – photo: half-year of last report card 54
cer2002 – photo: school class of last report card 54
cer2003 – photo: type of school of last report card 55
cer2003g – photo: type of school of last report card - extended 56
cer2100 – photo: last report card is final report card 56
cer2101 – photo: type of school of final report card 57
cer2103 – photo: average grade of final report card 58
cer2200 – photo: math grade of last report card 58
cer2201 – photo: german grade of last report card 58
cer2202 – photo: grade of language usage of last report card 59
cer2203 – photo: grade of language usage (oral) of last report card 59
cer2204 – photo: grade of language usage (written) of last report card 60
cer2205 – photo: reading grade of last report card 60
cer2206 – photo: writing grade of last report card 61
cer2207 – photo: orthography grade of last report card 61
cer2208 – photo: english grade of last report card 62
cer2209 – photo: other foreign language in last report card 62
cer2210 – photo: other foreign language grade of last report card 63
cer2211 – photo: chemistry grade of last report card 63
cer2212 – photo: physics grade of last report card 63
cer2213 – photo: biology grade of last report card 64
cer2214 – photo: computer science grade of last report card 64
cer2215 – photo: science grade of last report card 65
cer2216 – photo: regional history and geography grade of last report card 65
cer2217 – photo: social science grade of last report card 66
cer2218 – photo: history grade of last report card 66
cer2219 – photo: geography grade of last report card 67
cer2220 – photo: political science grade of last report card 67
cer2221 – photo: political science/economics grade of last report card 67
cer2222 – photo: religion grade of last report card 68
cer2223 – photo: ethics grade of last report card 68
cer2224 – photo: philosophy grade of last report card 69
cer2225 – photo: art grade of last report card 69
cer2226 – photo: music grade of last report card 70
cer2227 – photo: textile design grade of last report card 70
cer2228 – photo: business and employment studies grade of last report card . . . 71
cer2229 – photo: technics grade of last report card 71
cer2230 – photo: carpentry and handicrafts grade of last report card 71
cer2231 – photo: home economics grade of last report card 72
cer2232 – photo: economics grade of last report card 72

cer2233 – photo: sports grade of last report card . . . 73
cer2235 – photo: further subject 1 grade in last report card . . . 73
cer2237 – photo: further subject 2 grade in last report card . . . 74
cer2239 – photo: further subject 3 grade in last report card . . . 74
cer2241 – photo: further subject 4 grade in last report card . . . 75
cer2300 – photo: behavioral grade (participation) in last report card (gen) . . . 75
cer2301 – photo: behav. grade (participation) written assess. in last report card (gen) 76
cer2302 – photo: behavioral grade (social behavior) in last report card (gen) . . . 76
cer2303 – photo: behav. grade (social behavior) written assess. in last report card (gen) . . . 77
cer3000 – photo: number of additional subjects - uncoded . . . 78
cer3002 – photo: type of assessment of last report card . . . 78
eca0100 – highest degree of school: type (>= 15 yr) . . . 79
eca0102 – no school degree: type of last school (>= 15 yr) . . . 79
eca0104 – school of general education: year of graduation (>= 15 yr) . . . 80
eca0105 – highest educational degree: final grade (>= 15 yr) . . . 80
eca0108 – ISCED 1997 (International Standard Classification of Education) (gen) . 81
eca0109 – CASMIN educational classification (gen) . . . 82
eca0130 – highest degree of school (gen) . . . 83
eca0200 – type of vocational training or university degree/diploma/qualification(>= 15 yr) . . . 84
eca0201 – year of vocational training or university degree/diploma/qualification(>= 15 yr) . . . 84
eca0205 – ISCO-08 2-digit based on eca0202 - occupational qualification (gen) . . 85
eca0207 – ISEI based on eca0205 (International Socio Economic Index) (gen) . . . 86
eca0208 – SIOPS based on eca0205 (Standard Int. Occupational Prestige Scale) (gen) 87
eca0220 – further vocational or university degree y/n (> = 15 y.) . . . 88
eca0221 – further vocational or university degree . . . 88
eca0230 – highest vocational or university degree (gen) . . . 89
eca0700 – desired school-leaving qualification (t,u,s,p,q, >= 10 yr) . . . 90
eca0700t – desired school-leaving qualification twin 1 ((m,f,n,g), twin<=15 yr) . . . 90
eca0700u – desired school-leaving qualification twin 2 ((m,f,n,g), twin<=15 yr) . . 91
eca0700s – desired school-leaving qualification sibling ((m,f,n,g), sib<=15 yr) . . . 91
eca0701 – probability of attaining desired school-leaving qualification (t,u,s,p,q,>=10yr) 92
eca0701t – probability of twin 1 attaining desired school-leaving qualification (m/f/n/g) 92
eca0701u – probability of twin 2 attaining desired school-leaving qualification (m/f/n/g) 93
eca0701s – probability of sibling attaining desired school-leaving qualification (m/f/n/g) 94
eca0900 – new school graduation since last interview (>= 15 yr) . . . 94
eca0901 – new school graduation: type (>= 15 yr) . . . 95
eca0903 – new school graduation: month (>= 15 yr) . . . 95
eca0904 – new school graduation: year (>= 15 yr) . . . 96
eca0906 – new school graduation: average grade (>= 15 yr) . . . 96
eca1000 – new vocational qualification or academic degree since last interview (>= 15 yr) . . . 97
eca1001 – new vocational qualification: vocational training (>= 15 yr) . . . 97
eca1002 – new vocational qualification: vocational school, business school (>= 15 yr) 98
eca1003 – new vocational qualification: schools for healthcare (>= 15 yr) . . . 98
eca1004 – new vocational qualification: professional school, technical college (>= 15 yr) . . . 99
eca1005 – new vocational qualification: training for civil servants (>= 15 yr) . . . 99

eca1006 – new vocational qualification: occupational retraining (>= 15 yr) 100
eca1007 – new academic degree: university of applied sciences (>= 15 yr) 100
eca1008 – new academic degree: university, technical or other universities (>= 15 yr) 100
eca1009 – new academic degree: doctoral degree/habilitation (>= 15 yr) 101
eca1019 – new other qualification (>= 15 yr) 101
eca1098 – new qualification: do not know (>= 15 yr) 102
eca1099 – new qualification: not specified (>= 15 yr) 102
edu0100 – school attendance (t,u,s,p,q, <22 yr) 103
edu0100t – school attendance twin 1 (m/f/n/g) 103
edu0100u – school attendance twin 2 (m/f/n/g) 104
edu0100s – school attendance sibling (m/f/n/g) 104
edu0200 – after-school job (t,u,s, >=13) 104
edu0202 – hours/week in after-school job (t,u,s, >=13) 105
edu0300 – In training (>= 15 yr) 106
edu0301 – type of training (>= 15 yr) 106
edu0303 – type of higher education (>= 15 yr) 107
edu0305 – education: further education (>= 15 yr) 107
edu0307 – type of vocational education (>= 15 yr) 108
edu0310 – twins same vocational education (t,u, >= 14 yr) 108
edu0311 – twins in the same university (t,u, >= 14 yr) 109
edu0312 – twins study of same subject (t,u, >= 14 yr) 109
edu0400 – type of school (> 10 yr) 110
edu0402 – school class (> 10 yr) 110
edu0511 – twins in the same school - self-report (t,u, > 13 yr) 111
edu0511t – twins in the same school - parent report (m/f/n/g) 111
edu0512 – twins in the same class - self-report (t,u, > 13 yr) 112
edu0512t – twins in the same class - parent report (m/f/n/g) 112
edu0521 – twins in same school since school class (t,u, >= 13 yr) 113
edu0523 – twins not in the same school since school class (t,u, >= 13 yr) 113
edu0531 – twins in the same class since school class (t,u, >= 13 yr) 114
edu0533 – twins not in the same class since school class (t,u, >= 13 yr) 114
edu0700 – school climate: good student-teacher relation (t,u,s, >= 13 yr) 115
edu0701 – school climate: students' well-being is important (t,u,s, >= 13 yr) 115
edu0800 – student-teacher interaction: fair treatment (t,u,s, >= 13 yr) 116
edu0801 – student-teacher interaction: extra help (t,u,s, >= 13 yr) 116
edu0802 – student-teacher interaction: teachers listening students (t,u,s, >= 13 yr) 117
edu0901 – school pressure/stress: tension (t,u,s, >= 13 yr) 117
edu0902 – school pressure/stress: difficulties falling asleep (t,u,s, >= 13 yr) 118
edu0903 – school pressure/stress: I react very irritably (t,u,s, >= 13 yr) 119
edu0904 – school pressure/stress:think about school problems in my free time(t,u,s,>=13yr) 119
edu0905 – school pressure/stress: I'm exhausted (t,u,s, >= 13 yr) 120
edu0906 – school pressure/stress: the pressure at school is too high (t,u,s, >= 13 yr) 120
edu0907 – school pressure/stress: no time for other things (t,u,s, >= 13 yr) 121

13 Cognitive development **121**
com2000t – skills T1: social skills, e.g. ability to deal with conflict (m/f/n/g) . . . 121
com2000u – skills T2:social skills, e.g. ability to deal with conflict (m/f/n/g) . . . 122
com2000s – skills sibling: social skills, e.g. ability to deal with conflict (m/f/n/g) . 122
com2100t – skills T1: persistence/concentration (m/f/n/g) 123
com2100u – skills T2: persistence/concentration (m/f/n/g) 124
com2100s – skills sibling: persistence/concentration (m/f/n/g) 124

com2200t – skills T1: language skills in German (m/f/n/g) 125
com2200u – skills T2: language skills in German (m/f/n/g) 125
com2200s – skills sibling: language skills in German (m/f/n/g) 126
com2300t – skills T1: knowledge about animals, plants, environment (m/f/n/g) . 126
com2300u – skills T2: knowledge about animals, plants, environment (m/f/n/g) . 127
com2300s – skills sibling: knowledge about animals, plants, environment (m/f/n/g) 127
com2400t – skills T1: math skills (m/f/n/g) 128
com2400u – skills T2: math skills (m/f/n/g) 128
com2400s – skills sibling: math skills (m/f/n/g) 129
com2500t – skills T1: communication skills, e.g. letting others finish speaking (m/f/n/g) 130
com2500u – skills T2: communication skills, e.g. letting others finish speaking (m/f/n/g) 130
com2500s – skills sibling: communication skills, e.g. letting others finish (m/f/n/g) 130

14 Acadamic self-concept **131**
spa0100 – academic self-concept: Do you think you will do well at school? (t,u,s) . 131
spa0100s – sibling will do well in school (m,f,n,g, sib<=7 yr) 132
spa0200 – academic self-concept: talent in school in general 132
spa0201 – academic self-concept: ability for school in general 133
spa0202 – academic self-concept: problem-solving in school in general 133
spa0202s – school will be easy for sibling (m,f,n,g, sib<=7 yr) 134
spa0500 – academic self-concept: to be good at my job 134
spa0501 – academic self-concept: to be good at my job compared to co-workers . . 135
spa0502 – academic self-concept: high job skills after training period 135
spa0503 – academic self-concept: to be satisfied with my job performance 136
spa0504 – academic self-concept: to have high skills at work 137

15 Motivation **137**
imo0100 – intrinsic motivation: Will like school (t,u,s <= 10 yr) 138
imo0100s – sibling will like school (m,f,n,g, sib<=7 yr) 138
imo0101 – intrinsic motivation: Will like learning at school (t,u,s <= 10 yr) 139
imo0101s – sibling will like school subject matter (m,f,n,g, sib<=7 yr) 139
imo0102 – intrinsic motivation: Looking forward to school (t,u,s <= 10 yr) 140
imo0102s – sibling is looking forward to school (m,f,n,g, sib<=7 yr) 140
imo0103 – intrinsic motivation: looking f. to learning interesting things (t,u,s <=10 yr) 141
imo0104 – intrinsic motivation: looking f. to understanding diff. things (t,u,s <=10 yr) 142
imo0105 – intrinsic motivation: looking f. to learning as much as possible (t,u,s <=10 yr) 142
imo0200 – intrinsic motivation: I like doing the things I learn at school 143
imo0201 – intrinsic motivation: School is fun 143
imo0202 – intrinsic motivation: Things that I learn (at school) are interesting. . . 144
imo0500 – learning motivation: to learn interesting things (>= 10 yr) 145
imo0501 – learning motivation: understanding difficult things (>= 10 yr) 145
imo0502 – learning motivation: learning as much as possible. (>= 10 yr) 146
imo0550 – learning motivation: to learn interesting things (< 10 yr) 147
imo0551 – learning motivation: understanding difficult things (< 10 yr) 147
imo0552 – learning motivation: learning as much as possible. (< 10 yr) 148
imo0600 – performance motivation job: learning interesting things (>= 16 yr) . . 149

imo0601 – performance motivation job: getting food for thought (>= 16 yr) 149
imo0602 – performance motivation job: gaining a deeper understanding (>= 16 yr) 150
imo0701t – it is important for me that twin 1 gets good grades (m,f,n,g, twin<=15 yr) 151
imo0701u – it is important for me that twin 2 gets good grades (m,f,n,g, twin<=15 yr) 151
imo0701s – it is important for me that sibling gets good grades (m,f,n,g, sib<=15 yr) 152

16 Employment status of household members 152
hpr0101 – employment status - kindergarten/child care institution 153
hpr0102 – employment status - in school - first education path 153
hpr0103 – employment status - training/uni./further education/other edu. 153
hpr0104 – employment status - employed full-time 154
hpr0105 – employment status - employed part-time - also in more than one job . . 154
hpr0106 – employment status - vocational training/apprenticeship/retraining . . 155
hpr0107 – employment status - marginally employed/mini-job/1-euro-job 155
hpr0109 – employment status - voluntary military service 155
hpr0110 – employment status - voluntary social/ecological year 156
hpr0111 – employment status - unemployed/seeking employment 156
hpr0112 – employment status - maternity/parental leave/special leave 157
hpr0113 – employment status - housewife/househusband 157
hpr0114 – employment status - in (early) retirement/occupational disability 157
hpr0115 – employment status - partial retirement with zero working hours 158
hpr0116 – employment status - not employed 158
hpr0117 – employment status - in private care 159
hpr0120 – employment status - other 159
hpr0198 – employment status - don't know 159
hpr0199 – employment status - not specified - refused to answer 160

17 Employment status, current position and job-related burden 160
emp0200 – maternity/parental leave (>= 15 yr) 160
emp0300 – registered as unemployed (>= 15 yr) 161
emp0400 – employment (>= 16 yr) 161
emp0503 – ISCO-08 of occ. activity, 2 digits based on emp0500 (gen) 163
emp0505 – ISEI based on ISCO-08 (International Socio Economic Index) (gen) . 164
emp0506 – SIOPS based on ISCO-08 (Standard Int. Occupational Prestige Scale) (gen) 165
emp0508 – EGP based on ISCO-08 (Erikson-Goldthorpe-Portocarero-class scheme) (gen) 166
emp0515 – ESeC based on ISCO-08 (European Socio-economic Classification) (gen) 167
emp0600 – occupational status (>= 16 yr) 168
emp0601 – occupational status as blue-collar laborer (>= 16 yr) 168
emp0602 – occupational status as self-employed (>= 16 yr) 169
emp0603 – number of employees 169
emp0604 – occupational status as trainee / intern (>= 16 yr) 170
emp0605 – occupational status as white-collar employee (>= 16 yr) 170
emp0606 – type of managerial position (>= 16 yr) 171
emp0607 – occupational status as civil servant (>= 16 yr) 171
emp0700 – working for current employer since - month (>= 16 yr) 172
emp0701 – working for current employer since - year (>= 16 yr) 172
emp0702 – public service (>= 16 yr) 173
emp0703 – temporary employment (>= 16 yr) 173
emp0704 – type of employment contract (>= 16 yr) 174

emp0705 – agreed working time per week in hours (>= 16 yr) . . . 174
emp0706 – actual number of weekly working hours (>= 16 yr) . . . 175
emp0708 – mini- or midi-job (>= 16 yr) . . . 175
emp0709 – WZ 2008, 2 digits based on emp0707 (German class. of economic sectors) 176
emp1000 – job at place of residence (>= 16 yr) . . . 177
emp1001 – commute to work (>= 16 yr) . . . 177
emp1002 – distance to work - km (>= 16 yr) . . . 178
emp1100 – job security: probability of losing job within next 2 yr (>= 16 yr) . . . 178
emp1200 – job satisfaction: balance between performance and output in job (>= 16 yr) . . . 179
emp2300 – shift work (>= 15 yr) . . . 180
emp2301 – shift work: frequency (>= 15 yr) . . . 180
emp2302 – work on Sundays and public holidays: frequency (>= 15 yr) . . . 181
emp2304 – weekend and holiday work (>= 15 y.) . . . 181
emp2305 – rotation direction (>= 15 y.) . . . 182
emp2401 – rotating shift: early shift (>= 15 y.) . . . 182
emp2402 – rotating shift: late shift/ midday shift (>= 15 y.) . . . 183
emp2403 – rotating shift: night shift (>= 15 y.) . . . 183
emp2498 – rotating shift: don't know (>= 15 y.) . . . 183
emp2499 – rotating shift: not specified (>= 15 y.) . . . 184
emp3001 – job stress: too many tasks (>= 15 y.) . . . 184
emp3002 – job stress: constant pressure (>= 15 y.) . . . 185
emp3003 – job stress: rushed (>= 15 y.) . . . 185
emp3004 – job stress: tense (>= 15 y.) . . . 185
emp3005 – job stress: demands too high (>= 15 y.) . . . 186
emp3006 – job stress: more breaks (>= 15 y.) . . . 186

18 Wages, income, welfare dependency 187
inc0103 – monthly personal gross income in categories . . . 187
inc0110 – monthly personal gross income (>= 15 yr) (inc0100 manip.) (gen) . . . 188
inc0120 – flag: yearly income integrated in inc0110 (gen) . . . 189
inc0200 – perceived income justice (>= 16 yr) . . . 189
inc0300 – public services in hh: child benefit (HH) . . . 189
inc0301 – public services in hh: children's allowance (HH) . . . 190
inc0302 – public services in hh: parental benefit (HH) . . . 190
inc0303 – public services in hh: continued payment of wages during maternity leave (HH) . . . 191
inc0304 – public services in hh: short-time working allowance (HH) . . . 191
inc0305 – public services in hh: unemployment benefit type I (HH) . . . 192
inc0306 – public services in hh: unemployment benefit type II (HH) . . . 192
inc0307 – public services in hh: subsistence allowance (HH) . . . 193

inc0310 – public services in hh: other social allowances (HH) . . . 194
inc0311 – public services in hh: nursing care insurance services (HH) . . . 195
inc0312 – public services in hh: child care subsidy (HH) . . . 195
inc0313 – public services in hh: alimony payment for children (HH) . . . 195
inc0314 – publ. serv. in hh: alimony payment by former partner - not for children (HH) . . . 196

inc0315 – public services in hh: retirement pension (HH) . . . 196
inc0316 – public services in hh: sick pay (HH) . . . 197
inc0317 – public services in hh: alimony advance (HH) . . . 197
inc0318 – public services in hh: other benefits/allowances (HH) . . . 198
inc0397 – public services in hh: none (HH) . . . 198
inc0398 – public services in hh: don't know (HH) . . . 199
inc0399 – public services in hh: not specified - refused to answer (HH) . . . 199
inc0401 – monthly household net income of all hh members (inc0400 inc0404 manip.) (gen) . . . 199
inc0411 – net equivalent hh-income (modif.OECD scheme) using inc0401 inc0403 age0200 (gen) . . . 201
inc0420 – flag: yearly income integrated in inc0401 (gen) . . . 201
inc0422 – flag: multiple of child allowance specified in inc0401 (gen) . . . 202
inc0423 – flag: categorical income integrated in inc0401 (gen) . . . 202

19 Job autonomy 203
aut0101 – job autonomy: autonomous time management . . . 203
aut0102 – job autonomy: autonomous work planning . . . 204
aut0103 – job autonomy: mainly routine activities . . . 204

20 Political orientation and participation 205
pop0100 – interest in politics (>= 10 yr) . . . 205
pop0200 – political activity: attending political meetings/discussions/protest (>= 10 yr) . . . 205
pop0201 – political activity: participating in (online) petitions (>= 10 yr) . . . 206
pop0202 – political activity: boycott of companies/products (>= 10 yr) . . . 206
pop0300 – participation in last parliamentary election (>= 18 yr) . . . 207
pop0301 – hypothetical participation in election (>= 10 yr) . . . 208
pop0302 – political leanings: party (>= 10 yr) . . . 208
pop0310 – political leanings: party (gen) . . . 209
rwa0100 – right-wing authoritarianism: law and order (> = 13 yr) . . . 210
rwa0101 – right-wing authoritarianism: death penalty (> = 13 yr) . . . 210
rwa0102 – right-wing authoritarianism: freedoms (> = 13 yr) . . . 211
rwa0103 – right-wing authoritarianism: obedience, discipline and virtue (> = 13 yr) 211
sdo0100 – dominant social orientation: getting ahead in life (> = 13 yr) . . . 212
sdo0101 – dominant social orientation: better position of groups (> = 13 years) . . . 212
sdo0102 – dominant social orientation: equal treatment (> = 13 years) . . . 213
sdo0103 – dominant social orientation: groups among themselves (> = 13 years) . 214

21 Social networks 214
net0203 – number of close friends (>= 8 yr) . . . 214
net0209 – number of close friends in the household (>= 8 yr) . . . 215
net0600 – loneliness (>= 10 yr) . . . 215

22 Cultural capital 216
cul0100 – reading time daily: hours plain text recoded (>= 10 yr) . . . 216
cul0100t – daily reading time twin 1: hours (m/f/n/g) . . . 216
cul0100u – daily reading time twin 2: hours (m/f/n/g) . . . 217
cul0100s – daily reading time sibling: hours (m/f/n/g) . . . 217
cul0101 – reading time daily: minutes plain text recoded (>= 10 yr) . . . 218
cul0101t – daily reading time twin 1: minutes (m/f/n/g) . . . 219

cul0101u – daily reading time twin 2: minutes (m/f/n/g) . . . 219
cul0101s – daily reading time sibling: minutes (m/f/n/g) . . . 220
cul0110 – reading time daily: hours (gen) . . . 220
cul0110t – reading time daily twin 1: hours (m/f/n/g) (gen) . . . 221
cul0110u – reading time daily twin 2: hours (m/f/n/g) (gen) . . . 221
cul0110s – reading time daily siblings: hours (m/f/n/g) (gen) . . . 222
cul0111 – reading time daily: minutes (gen) . . . 223
cul0111t – reading time daily twin 1: minutes (m/f/n/g) (gen) . . . 223
cul0111u – reading time daily twin 2: minutes (m/f/n/g) (gen) . . . 224
cul0111s – reading time daily siblings: minutes (m/f/n/g) (gen) . . . 224
cul0501 – frequency: cult. participation: museum/art exhibition (>= 10 yr) . . . 225
cul0502 – frequency: cult. participation: movies/film (>= 10 yr) . . . 225
cul0503 – frequency: cult. participation: opera/ballet/classical concert (>= 10 yr) . 226
cul0504 – frequency: cult. participation: theater (>= 10 yr) . . . 227
cul0505 – frequency: cult. participation: rock/pop concert (>= 10 yr) . . . 227

23 Global life satisfaction 228
gls0100 – satisfaction: life almost ideal (>=16 yr) . . . 228
gls0200 – satisfaction: excellent life conditions (>=16 yr) . . . 229
gls0300 – satisfaction: satisfied with life (>=16 yr) . . . 229
gls0400 – satisfaction: most important wishes in life fulfilled (>=16 yr) . . . 230
gls0500 – satisfaction: would change almost nothing in new life (>=16 yr) . . . 230
gls0600 – satisfaction: life as favored (t,u,s, <= 15 yr) . . . 231
gls0700 – satisfaction: excellent things in life (t,u,s, <= 15 yr) . . . 232
gls0800 – satisfaction: happy with life (t,u,s, <= 15 yr) . . . 232
gls0900 – satisfaction: most important wishes in life fulfilled (t,u,s, <= 15 yr) . . . 233
gls1000 – satisfaction: same life in new life (t,u,s, <= 15 yr) . . . 233

24 Domains of life satisfaction 234
sat0200 – satisfaction with relationship to other twin (t,u, >= 10 yr) . . . 234

25 Burden and stress 235
bus0100 – quarrels: frequency of quarrels with partner . . . 235
bus0101 – quarrels: burden of quarrels with the partner . . . 235
bus0200t – quarrels: twin 1's burden of quarrel with the partner (m,f,n,g) . . . 236
bus0200u – quarrels: twin 2's burden of quarrel with the partner (m,f,n,g) . . . 237
bus0200s – quarrels: stress to sibling caused by quarrels with partner (m,f,n,g) . . 237
bus0300 – quarrels: frequency of quarrels between parents currently (t,u,s) . . . 238
bus0311 – quarrels: burden of quarrels between parents (t,u,s, >=10 yr) . . . 239
bus0330 – quarrels: frequency of quarrels between parents in the past (t,u,s) . . . 239
bus0331 – quarrels: burden of quarrels between parents in the past (t,u,s) . . . 240
bus0400 – quarrels: frequency: quarrel between parent and step parent (t,u,s) . . 241
bus0420 – quarrels: stress caused by quarrels between parent and stepparent (t,u,s) 241
ebi0100 – parental stress: personally restricted (>= 16 yr) . . . 242
ebi0101 – parental stress: relationship problems (>= 16 yr) . . . 242
ebi0102 – parental stress: problems understanding (children) (>= 16 yr) . . . 243
ebi0103 – parental stress: irritability (>= 16 yr) . . . 244
ebi0104 – parental stress: parenting skills (>= 16 yr) . . . 244
ebi0105 – parental stress: social isolation (>= 16 yr) . . . 245

26 Subjective perceptions of inequality **245**
ugs0100 – injustice sensitivity: victim sensitivity - undeservedly better (> = 13yr) . 245
ugs0101 – injustice sensitivity: victim sensitivity - fall into their lap (> = 13yr) . . . 246
ugs0200 – injustice sensitivity: social structure (> = 14 yr) 246

27 Subjective physical health **247**
she0200 – last 24 months: state of health (>= 10 yr) 247
she0200t – last 24 months: state of health twin 1 (m/f/n/g) 248
she0200u – last 24 months: state of health twin 2 (m/f/n/g) 248
she0200s – last 24 months: state of health sibling (m/f/n/g) 249

28 Objective physical health / Diagnoses **249**
bdy0100t – height in cm twin 1 (m/f/n/g) 249
bdy0100u – height in cm twin 2 (m/f/n/g) 250
bdy0100s – height in cm sibling (m/f/n/g) 250
bdy0100_dht – difference between several height values (gen) 250
bdy0100_hgt – height in cm: corrected (gen) 251
bdy0100_nht – number of height values given (gen) 251
bdy0200t – weight in kg twin 1 (m/f/n/g) 252
bdy0200u – weight in kg twin 2 (m/f/n/g) 252
bdy0200s – weight in kg sibling (m/f/n/g) 252
bdy0200_dwt – difference between several weight values (gen) 253
bdy0200_nwt – number of weight values given (gen) 253
bdy0200_wgt – weight in kg: corrected (gen) 254
bdy0300 – BMI: corrected (gen) 254
bdy1001 – flag: peculiarities height (gen) 255
bdy1002 – flag: peculiarities weight (gen) 255
bdy1003 – flag: peculiarities BMI (gen) 256
dia3110 – diagnosis last 24 months: sleeping disorder (>= 14 y.) 256
dia3210 – diagnosis last 24 months: diabetes (>= 14 y.) 256
dia3310 – diagnosis last 24 months: respiratory illness (>= 14 y.) 257
dia3410 – diagnosis last 24 months: heart disease (>= 14 y.) 257
dia3510 – diagnosis last 24 months: cancer (>= 14 y.) 258
dia3610 – diagnosis last 24 months: stroke (>= 14 y.) 258
dia3710 – diagnosis last 24 months: migraine (>= 14 y.) 259
dia3810 – diagnosis last 24 months: hypertension (>= 14 y.) 259
dia3910 – diagnosis last 24 months: anxiety disorder (>= 14 y.) 260
dia4010 – diagnosis last 24 months: alcohol alcohol addiction (>= 14 y.) 260
dia4097 – diagnosis last 24 months: no disease detected (>= 14 y.) 261
dia4098 – diagnosis last 24 months: don't know (>= 14 y.) 261
dia4099 – diagnosis last 24 months: no information (>= 14 y.) 262
dia4110 – diagnosis last 24 months: depressive disorder (>= 14 y.) 262
dia4210 – diagnosis last 24 months: joint disease (>= 14 y.) 263
dia4310 – diagnosis last 24 months: chronic back problems (>= 14 y.) 263
dia4410 – diagnosis last 24 months: physical disability (>= 14 y.) 263
dia4510 – diagnosis last 24 months: other physical or mental illness (>= 14 y.) . . . 264
dia4710 – diagnosis last 24 months: ADHD/ADD (>= 14 yr) 264
dia5210 – diagnosis last 24 months: allergies (>= 14 y.) 265
dia5310 – diagnosis last 24 months: skin diseases (>= 14 y.) 265
dia5510 – diagnosis last 24 months: cholesterol (>= 14 y.) 266
dia5610 – diagnosis last 24 months: defective vision (>= 14 y.) 266

dia5710 – diagnosis last 24 months: reading/spelling disorder (>= 14 y.) 267
dia5810 – diagnosis last 24 months: dyscalculia (>= 14 y.) 267
dia5910 – diagnosis last 24 months: thyroid disease (>= 14 y.) 268
dia7010t – diagnosis last 24 months: respiratory illness (twin 1) (m,f,g,n) 268
dia7010u – diagnosis last 24 months: respiratory illness (twin 2) (m,f,g,n) 269
dia7010s – diagnosis last 24 months: respiratory illness (sibling) (m,f,g,n) 269
dia7011t – respiratory illness: start month (twin 1) (m,f,n,g) 270
dia7011u – respiratory illness: start month (twin 2) (m,f,n,g) 270
dia7011s – respiratory illness: start month (sibling) (m,f,n,g) 271
dia7012t – respiratory illness: start year (twin 1) (m,f,n,g) 271
dia7012u – respiratory illness: start year (twin 2) (m,f,n,g) 271
dia7012s – respiratory illness: start year (sib) (m,f,n,g) 272
dia7013t – respiratory illness: end month (twin 1) (m,f,n,g) 272
dia7013u – respiratory illness: end month (twin 2) (m,f,n,g) 273
dia7013s – respiratory illness: end month (sibling) (m,f,n,g) 273
dia7014t – respiratory illness: end year (twin 1) (m,f,n,g) 274
dia7014u – respiratory illness: end year (twin 2) (m,f,n,g) 274
dia7014s – respiratory illness: end year (sib) (m,f,n,g) 274
dia7110t – diagnosis last 24 months: allergies (twin 1) (m,f,g,n) 275
dia7110u – diagnosis last 24 months: allergies (twin 2) (m,f,g,n) 275
dia7110s – diagnosis last 24 months: allergies (sibling) (m,f,g,n) 276
dia7111t – allergies: start month (twin 1) (m,f,n,g) 276
dia7111u – allergies: start month (twin 2) (m,f,n,g) 277
dia7111s – allergies: start month (sibling) (m,f,n,g) 277
dia7112t – allergies: start year (twin 1) (m,f,n,g) 278
dia7112u – allergies: start year (twin 2) (m,f,n,g) 278
dia7112s – allergies: start year (sibling) (m,f,n,g) 278
dia7113t – allergies: end month (twin 1) (m,f,n,g) 279
dia7113u – allergies: end month (twin 2) (m,f,n,g) 279
dia7113s – allergies: end month (sibling) (m,f,n,g) 280
dia7114t – allergies: end year (twin 1) (m,f,n,g) 280
dia7114u – allergies: end year (twin 2) (m,f,n,g) 281
dia7114s – allergies: end year (sibling) (m,f,n,g) 281
dia7210t – diagnosis last 24 months: neurodermatitis (twin 1) (m,f,g,n) 281
dia7210u – diagnosis last 24 months: neurodermatitis (twin 2) (m,f,g,n) 282
dia7210s – diagnosis last 24 months: neurodermatitis (sibling) (m,f,g,n) 282
dia7211t – neurodermatitis: start month (twin 1) (m,f,n,g) 283
dia7211u – neurodermatitis: start month (twin 2) (m,f,n,g) 283
dia7211s – neurodermatitis: start month (sibling) (m,f,n,g) 284
dia7212t – neurodermatitis: start year (twin 1) (m,f,n,g) 284

dia9514s – other chronic disease: end year (sib) (m,f,n,g) 403
dia9910t – diagnosis last 24 months: chronic disease - none of the above (twin 1) (m,f,g,n) 403
dia9910u – diagnosis last 24 months: chronic disease - none of the above (twin 2) (m,f,g,n) 404
dia9910s – diagnosis last 24 months: chronic disease - none of the above (sib) (m,f,g,n) 404
imp0100 – limited due to illnesses/diseases 405
imp0100t – twin 1 limited due to illnesses (m/f/n/g) 405
imp0100u – twin 2 limited due to illnesses (m/f/n/g) 406
imp0100s – sibling limited due to illnesses (m/f/n/g) 406
nbi1300 – health record book available 407
nbi1400 – child health record: Apgar 1 407
nbi1401 – child health record: Apgar 5 408
nbi1402 – child health record: Apgar 10 408
nbi1403 – child's health record: Apgar - further number 409
nbi1404 – child's health record: Apgar - further number time interval 410

29 Depression **410**
bdi0100 – depression: I'm sad (>= 10 yr) 410
bdi0101 – depression: I am pessimistic about my future (>= 10 yr) 411
bdi0102 – depression: I feel like a failure (>= 10 yr) 411
bdi0103 – depression: difficult to enjoy anything (>= 10 yr) 412
bdi0104 – depression: disappointed in myself (>= 10 yr) 412
bdi0105 – depression: blame myself for mistakes and weaknesses (>= 10 yr) . . . 413
bdi0106 – depression: think about hurting myself (>= 10 yr) 414

30 Health-related behavior **414**
doc0200 – visits to the doctor in the last 24 months 414
doc0200t – twin 1 visit to the doctor in the last 24 months (m/f/n/g) 415
doc0200u – twin 2 visit to the doctor in the last 24 months (m/f/n/g) 415
doc0200s – sibling visit to the doctor in the last 24 months (m/f/n/g) 416
doc0201 – visits to the doctor in the last 24 months: frequency 416
pac0100 – physical activity at work - number of days per week 417
pac0101 – physical activity at work - time/working day: hours 417
pac0102 – physical activity at work - time/working day: minutes 418
pac0200 – longer distances on foot or by bike - number of days per week 419
pac0201 – longer distances on foot or by bike - time / day: hours 420
pac0202 – longer distances on foot or by bike - time / day: minutes 420
pac0300 – physical activity in leisure time - number of days per week 420
pac0301 – physical activity in leisure time - time / day: hours 421
pac0302 – physical activity in leisure time - time / day: minutes 421

pac0400 – time spent with physical activities per week in minutes (>= 17 yr) (gen) 422
pac0401 – WHO classification of sufficient physical activity per week (>= 17 yr) (gen) 422
pac0410 – time spent with physical activities per week in minutes (<=16y) (gen) . 423
pac0411 – WHO classification of sufficient physical activity per week (<=16y) (gen) 423

31 Puberty **424**
pub0100 – puberty started: physical change (t,u,s, > 10 & <= 16 yr) 424
pub0200 – physical change - subj. feeling (t,u,s, > 10 & <= 16 yr) 425
pub0300 – puberty started: thoughts and feelings (t,u,s, > 10 & <= 16 yr) 425
pub0301 – thoughts and feelings - subj. feeling (t,u,s, > 10 & <= 16 yr) 426
pub0400 – menstruation - already started (t, u, s, >= 11 & <= 16 yr) 426
pub0401 – menstruation - age (t, u, s, >= 11) 427

32 Sexual behavior **427**
seo0100 – consent to answering questions about sexuality (>= 16 yr) 427
seo0200 – sexual attraction (>= 14 yr) 428
seo0300 – sexual orientation (>= 16 yr) 428

33 Emotional impairment **429**
emi0102 – psych. impairment (last 2 weeks): nervousness, anxiety (>=11 yr) . . . 429
emi0103 – psych. impairment (last 2 weeks): no control over worries (>=11 yr) . . 429

34 Internalizing problem behavior **430**
int0100 – I have frequent headaches/stomach aches (>= 10 yr) 430
int0100t – frequent headaches/stomachaches twin 1 (m/f/n/g) 430
int0100u – frequent headaches/stomachaches - twin 2 (m/f/n/g) 431
int0100s – frequent headaches/stomachaches sibling (m/f/n/g) 431
int0101 – I'm often worried (>= 10 yr) 432
int0101t – many worries, often depressed - twin 1 (m/f/n/g) 432
int0101u – many worries, often depressed - twin 2 (m/f/n/g) 433
int0101s – many worries, often depressed - sibling (m/f/n/g) 433
int0102 – I'm often unhappy or depressed (>= 10 yr) 434
int0102t – often unhappy, often cries - twin 1 (m/f/n/g) 434
int0102u – often unhappy, often cries - twin 2 (m/f/n/g) 435
int0102s – often unhappy, often cries - sibling (m/f/n/g) 435
int0103 – I'm nervous in new situations (>= 10 yr) 436
int0103t – nervous in new situations, loses self-confidence - twin 1 (m/f/n/g) . . . 437
int0103u – nervous in new situations, loses self-confidence - twin 2 (m/f/n/g) . . 437
int0103s – nervous in new situations, loses self-confidence - sibling (m/f/n/g) . . 438
int0104 – I have a lot of fears (>= 10 yr) 438
int0104t – many fears, gets scared easily - twin 1 (m/f/n/g) 439
int0104u – many fears, gets scared easily - twin 2 (m/f/n/g) 439
int0104s – many fears, gets scared easily - sibling (m/f/n/g) 440
int0105 – I'm usually on my own (>= 10 yr) 440
int0105t – loner, mostly plays alone - twin 1 (m/f/n/g) 441
int0105u – loner, mostly plays alone - twin 2 (m/f/n/g) 441
int0105s – loner, mostly plays alone - sibling (m/f/n/g) 442
int0106 – I have one or more good friends (>= 10 yr) 442
int0106t – has one or more good friends - twin 1 (m/f/n/g) 443
int0106u – has one or more good friends - twin 2 (m/f/n/g) 443
int0106s – has one or more good friends - sibling (m/f/n/g) 444

int0107 – Other people my age generally like me (>= 10 yr) 444
int0107t – is generally popular - twin 1 (m/f/n/g) 445
int0107u – is generally popular - twin 2 (m/f/n/g) 445
int0107s – is generally popular - sibling (m/f/n/g) 446
int0108 – I get teased or bullied by others (>= 10 & <18 yr) 446
int0108t – frequently teased or bullied - twin 1 (m/f/n/g) 447
int0108u – frequently teased or bullied - twin 2 (m/f/n/g) 447
int0108s – frequently teased or bullied - sibling (m/f/n/g) 448
int0109 – I get on better with adults than with people my own age (>= 10 & <18 yr) 448
int0109t – gets along better with adults than with other children-twin 1 (m/f/n/g) 449
int0109u – gets along better with adults than with other children-twin 2 (m/f/n/g) 449
int0109s – gets along better with adults than with other children-sib (m/f/n/g) . . 450
int0110 – I'm withdrawn (>= 18 yr) 450
int0111 – Other people pick on me or bully me (>= 18 yr) 451

35 Externalizing problem behavior **451**
ext0100 – I'm often restless (>= 10 yr) 451
ext0100t – hyperactive - twin 1 (m/f/n/g) 452
ext0100u – hyperactive - twin 2 (m/f/n/g) 452
ext0100s – hyperactive - sibling (m/f/n/g) 453
ext0101 – I'm always moving, fidgeting (>= 10 & <18 yr) 453
ext0101t – easily distracted, unfocused - twin 1 (m/f/n/g) 454
ext0101u – easily distracted, unfocused - twin 2 (m/f/n/g) 454
ext0101s – easily distracted, unfocused - sibling (m/f/n/g) 455
ext0102 – I'm easily distracted and unfocused (>= 10 yr) 456
ext0102t – thinks before acting - twin 1 (m/f/n/g) 456
ext0102u – thinks before acting - twin 2 (m/f/n/g) 457
ext0102s – thinks before acting - sibling (m/f/n/g) 457
ext0103 – I think before acting (>= 10 yr) 458
ext0103t – finishes tasks - twin 1 (m/f/n/g) 458
ext0103u – finishes tasks - twin 2 (m/f/n/g) 459
ext0103s – finishes tasks - sibling (m/f/n/g) 459
ext0104 – I finish what I start and am able to concentrate (>= 10 yr) 460
ext0104t – frequent fits of anger, short temper - twin 1 (m/f/n/g) 460
ext0104u – frequent fits of anger, short temper - twin 2 (m/f/n/g) 461
ext0104s – frequent fits of anger, short temper - sibling (m/f/n/g) 461
ext0105 – I get mad easily (>= 10 yr) 462
ext0105t – mostly compliant - twin 1 (m/f/n/g) 463
ext0105u – mostly compliant - twin 2 (m/f/n/g) 463
ext0105s – mostly compliant - sibling (m/f/n/g) 464
ext0106 – I normally do what people tell me to do (>= 10 yr) 464
ext0106t – argues with and bullies other children - twin 1 (m/f/n/g) 465
ext0106u – argues with and bullies other children - twin 2 (m/f/n/g) 465
ext0106s – argues with and bullies other children - sibling (m/f/n/g) 466
ext0107 – I attack others physically (>= 10 yr) 466
ext0107t – frequent lying/cheating - twin 1 (m/f/n/g) 467
ext0107u – frequent lying/cheating - twin 2 (m/f/n/g) 467
ext0107s – frequent lying/cheating - sibling (m/f/n/g) 468
ext0108 – People claim that I lie (>= 10 yr) 469
ext0108t – steals at home/at school/elsewhere - twin 1 (m/f/n/g) 469
ext0108u – steals at home/at school/elsewhere - twin 2 (m/f/n/g) 470

ext0108s – steals at home/at school/elsewhere - sibling (m/f/n/g) 470
ext0109 – I take things that don't belong to me (>= 10 yr) 471
ext0109t – twitchy - twin 1 (m/f/n/g) 471
ext0109u – twitchy - twin 2 (m/f/n/g) 472
ext0109s – twitchy - sibling (m/f/n/g) 472

36 Deviant and delinquent Behavior 473
del0100 – delinquency ever: fare dodging (t,u,s, >= 10 & <= 18 yr) 473
del0104 – delinquency last 24 months: fare dodging (t,u,s, >= 11 & <= 18 yr) 474
del0105 – delinquency last 24 months: fare dodging frequency (t,u,s, >= 11 & <= 18 yr) 474
del0200 – delinquency ever: away over night (t,u,s, >= 10 & <= 18 yr) 475
del0204 – delinquency last 24 months: away over night (t,u,s, >= 11 & <= 18 yr) . . 476
del0205 – delinquency last 24 months: away over night frequency (t,u,s, >= 11 & <= 18 yr) 476
del0300 – delinquency ever: skipping school (t,u,s, >= 10 & <= 18 yr) 477
del0304 – delinquency last 24 months: skipping school (t,u,s, >= 11 & <= 18 yr) . . 478
del0305 – delinquency last 24 months: skipping school frequency (t,u,s, >= 11 & <= 18 yr) 479
del0400 – delinquency ever: shoplifting (>= 10 yr) 479
del0404 – delinquency last 24 months: shoplifting (>= 11 yr) 480
del0405 – delinquency last 24 months: shoplifting frequency (>= 11 yr) 480
del0500 – delinquency ever: stealing from classmates or others (>= 10 yr) 481
del0504 – delinquency last 24 months: stealing from classmates or others (>= 11 yr) 482
del0505 – delinquency last 24 months: stealing from others frequency (>= 11 yr) . 483
del0600 – delinquency ever: graffiti/scratching (>= 10 yr) 483
del0604 – delinquency last 24 months: graffiti/scratching (>= 11 yr) 484
del0605 – delinquency last 24 months: graffiti/scratching frequency (>= 11 yr) . . 485
del0700 – delinquency ever: vandalism (>= 10 yr) 485
del0704 – delinquency last 24 months: vandalism (>= 11 yr) 486
del0705 – delinquency last 24 months: vandalism frequency (>= 11 yr) 487
del0800 – delinquency ever: cyber bullying (>= 10 yr) 488
del0804 – delinquency last 24 months: cyber bullying (>= 11 yr) 488
del0805 – delinquency last 24 months: cyber bullying frequency (>= 11 yr) 489
del0900 – delinquency ever: illegal downloading (>= 10 yr) 490
del0904 – delinquency last 24 months: illegal downloading (>= 11 yr) 491
del0905 – delinquency last 24 months: illegal downloading frequency (>= 11 yr) . 491
del1000 – delinquency ever: bullying classmates (t,u,s,p,q,>=10&<=18 yr) 492
del1004 – delinquency last 24 months: bullying classmates (t,u,s >=11 & <=18 yr) . 493
del1005 – delinquency last 24 months: bullying classmates frequency (t,u,s>=11 & <=18 yr) 493
del1100 – delinquency ever: threatening/robbing (>= 10 yr) 494
del1104 – delinquency last 24 months: threatening/robbing (>= 11 yr) 494
del1105 – delinquency last 24 months: threatening/robbing frequency (>= 11 yr) . 495
del1200 – smoking ever (t,u,s, >= 10 & <= 16 yr) 496
del1201 – age first time smoking (t,u,s, >= 10 & <= 16 yr) 496
del1202 – smoked several times (t,u,s, >= 10 & <= 16 yr) 497
del1203 – smoking frequency (t,u,s, >= 10 & <= 16 yr) 498
del1300 – drinking alcohol ever (t,u,s, >= 10 & <= 15 yr) 498
del1301 – age first time alcohol (t,u,s, >= 10 & <= 15 yr) 499
del1302 – alcohol several times (t,u,s, >= 10 & <= 15 yr) 499

del1303 – alcohol alone/in group (t,u,s, >= 10 & <= 15 yr) . . . 500
del1304 – ever drunk (t,u,s, >= 10 & <= 15 yr) . . . 500
del1305 – age first time drunk (t,u,s, >= 10 & <= 15 yr) . . . 501
del1306 – drunk: amount beer (0.3 l) (t,u,s, >= 10 & <= 15 yr) . . . 502
del1307 – drunk: amount wine (0.2 l) (t,u,s, >= 10 & <= 15 yr) . . . 502
del1308 – drunk: amount high-proof alcohol (2 cl) (t,u,s, >= 10 & <= 15 yr) . . . 503
del1309 – being drunk: frequency (t,u,s, >= 10 & <= 15 yr) . . . 504
del1400 – delinquency ever: beating someone up (>= 10 yr) . . . 504
del1404 – delinquency last 24 months: beating someone up (>= 11 yr) . . . 505
del1405 – delinquency last 24 months: beating someone up frequency (>= 11 yr) . . . 506
del1500 – delinquency ever: consuming drugs (>= 10 yr) . . . 506
del1600 – delinquency ever: driving without license (>= 10 yr) . . . 507
del1604 – delinquency last 24 months: driving without license (>= 11 yr) . . . 508
del1605 – delinquency last 24 months: driving without license frequency (>= 11 yr) 509
del1700 – delinquency ever: driving drunk/under drugs (>= 10 yr) . . . 509
del1704 – delinquency last 24 months: driving drunk/under drugs (>= 11 yr) . . . 510
del1705 – delinquency last 24 months: driving drunk/under drugs frequency (>= 11 yr) . . . 510
del4000 – delinquency: flag for variable correction . . . 511
dev0100 – frequency: getting angry (self-assessment) (t,u,s, <11 yr) . . . 512
dev0101 – frequency: listening to parents (self-assessment) (t,u,s, <11 yr) . . . 512
dev0102 – frequency: arguments with other children (self-assessment) (t,u,s, <11 yr) 513
dev0103 – frequency: cheating / lying (self-assessment) (t,u,s, <11 yr) . . . 513

37 Counterproductive work behavior 514
cwb0100 – counterproductive work behavior - withdrawal: delay . . . 514
cwb0101 – counterproductive work behavior - withdrawal: sick leave . . . 514
cwb0102 – counterproductive work behavior - withdrawal: break length . . . 515
cwb0103 – counterproductive work behavior - withdrawal: closing time . . . 515

38 Personality / Temperament 516
brt0001 – balloon game: participation . . . 516

ses0100 – feeling of worthlessness (>= 10 yr) 574
ses0101 – liking oneself the way one is (>= 10 yr) 575
ses0102 – being satisfied with oneself (>= 10 yr) 575
ses0102t – I believe, all in all, twin 1 is satisfied with him-/herself (m/f/n/g) . . . 576
ses0102u – I believe, all in all, twin 2 is satisfied with him-/herself (m/f/n/g) . . . 576
ses0102s – I believe, all in all, sibling is satisfied with him-/herself (m/f/n/g) . . . 577
ses0200t – Twin 1 is self-confident (m/f/n/g) 577
ses0200u – Twin 2 is self-confident (m/f/n/g) 578
ses0200s – Sibling is self-confident (m/f/n/g) 578

40 Fear of failure **579**
fof0100 – setbacks: I worry about what others think about me 579
fof0101 – setbacks: I'm afraid I'm not talented enough 579
fof0102 – setbacks: mess up my plan for the future 580
fof0103 – setbacks: others aren't very interested in me 581
fof0104 – setbacks: important people are disappointed 581

41 Self-efficacy **582**
sef0100 – relying on own abilities in difficult situations (>= 10 yr) 582
sef0101 – ability to solve problems (>= 10 yr) 583
sef0102 – ability of solving tasks (>= 10 yr) 583

42 Parental behavior and involvement **584**
pas0100f – parenting style father: shows affection (t,u,s, age >= 8) 584
pas0100g – parenting style stepfather: shows affection (t,u,s, >= 8 yr) 584
pas0100m – parenting style mother: shows affection (t,u,s, >= 8 yr) 585
pas0100n – parenting style stepmother: shows affection (t,u,s, >= 8 yr) 586
pas0101f – parenting style father: praises (t,u,s, >= 8 yr) 586
pas0101g – parenting style stepfather: praises (t,u,s, >= 8 yr) 587
pas0101m – parenting style mother: praises (t,u,s, >= 8 yr) 587
pas0101n – parenting style stepmother: praises (t,u,s, >= 8 yr) 588
pas0102f – parenting style father: cheers up (t,u,s, >= 8 yr) 588
pas0102g – parenting style stepfather: cheers up (t,u,s, >= 8 yr) 589
pas0102m – parenting style mother: cheers up (t,u,s, >= 8 yr) 589
pas0102n – parenting style stepmother: cheers up (t,u,s, >= 8 yr) 590
pas0103f – parenting style father: supports (t,u,s, >= 8 yr) 590
pas0103g – parenting style stepfather: supports (t,u,s, >= 8 yr) 591
pas0103m – parenting style mother: supports (t,u,s, >= 8 yr) 592
pas0103n – parenting style stepmother: supports (t,u,s, >= 8 yr) 592
pas0104f – parenting style father: punishes (t,u,s, >= 8 yr) 593
pas0104g – parenting style stepfather: punishes (t,u,s, >= 8 yr) 593
pas0104m – parenting style mother: punishes (t,u,s, >= 8 yr) 594
pas0104n – parenting style stepmother: punishes (t,u,s, >= 8 yr) 594
pas0105f – parenting style father: disappointed by bad behavior (t,u,s, >= 8 yr) . . 595
pas0105g – parenting style stepfather: disappointed by bad behavior(t,u,s, >= 8 yr) 596
pas0105m – parenting style mother: disappointed by bad behavior (t,u,s, >= 8 yr) . 596
pas0105n – parenting style stepmother: disappointed by bad behavior(t,u,s, >= 8 yr) 597
pas0106f – parenting style father: demands obedience (t,u,s, >= 8 yr) 597
pas0106g – parenting style stepfather: demands obedience (t,u,s, >= 8 yr) 598
pas0106m – parenting style mother: demands obedience (t,u,s, >= 8 yr) 598

pas0106n – parenting style stepmother: demands obedience (t,u,s, >= 8 yr) 599
pas0107f – parenting style father: yells when child misbehaves (t,u,s, >= 8 yr) . . . 600
pas0107g – parenting style stepfather: yells when child misbehaves (t,u,s, >= 8 yr) 600
pas0107m – parenting style mother: yells when child misbehaves (t,u,s, >= 8 yr) . 601
pas0107n – parenting style stepmother: yells when child misbehaves (t,u,s, >= 8 yr) 601
pas0108f – parenting style father: gets angry and scolds child (t,u,s, >= 8 yr) . . . 602
pas0108g – parenting style stepfather: gets angry and scolds child (t,u,s, >= 8 yr) . 602
pas0108m – parenting style mother: gets angry and scolds child (t,u,s, >= 8 yr) . . 603
pas0108n – parenting style stepmother: gets angry and scolds child (t,u,s, >= 8 yr) 603
pas0109f – parenting style father: talks about new friends (t,u,s, >= 8 yr) 604
pas0109g – parenting style stepfather: talks about new friends (t,u,s, >= 8 yr) . . . 605
pas0109m – parenting style mother: talks about new friends (t,u,s, >= 8 yr) 605
pas0109n – parenting style stepmother: talks about new friends (t,u,s, >= 8 yr) . . 606
pas0110f – parenting style father: gets to know new friends (t,u,s, >= 8 yr) 606
pas0110g – parenting style stepfather: gets to know new friends (t,u,s, >= 8 yr) . . 607
pas0110m – parenting style mother: gets to know new friends (t,u,s, >= 8 yr) . . . 607
pas0110n – parenting style stepmother: gets to know new friends (t,u,s, >= 8 yr) . 608
pas0111f – parenting style father: makes empty threats of punishment (t,u,s, >= 8 yr) 608
pas0111g – parenting style stepfather: makes empty threats of punishment(t,u,s, >= 8 yr) 609
pas0111m – parenting style mother: makes empty threats of punishment (t,u,s, >= 8 yr) 609
pas0111n – parenting style stepmother:makes empty threats of punishment(t,u,s, >= 8 yr) 610
pas0112f – parenting style father: inconsistent (t,u,s, >= 8 yr) 611
pas0112g – parenting style stepfather: inconsistent (t,u,s, >= 8 yr) 611
pas0112m – parenting style mother: inconsistent (t,u,s, >= 8 yr) 612
pas0112n – parenting style stepmother: inconsistent (t,u,s, >= 8 yr) 612

43 Sibling relationship quality **613**
sre0400 – support from mother - comparison to other twin (t,u, >= 15 yr) 613
sre0400t – support from mother - comparison to twin 1 (s, >= 16 yr) 614
sre0400u – support from mother - comparison to twin 2 (s, >= 15 yr) 614
sre0400s – support from mother - comparison to sibling (t,u, >= 15 yr) 615
sre0401 – support from father - comparison to other twin (t,u, >= 15 yr) 615
sre0401t – support from father - comparison to twin 1 (s, >= 16 yr) 616
sre0401u – support from father - comparison to twin 2 (s, >= 15 yr) 616
sre0401s – support from father - comparison to sibling (t,u, >= 15 yr) 617
sre0402 – closeness to mother - comparison to other twin (t,u, >= 15 yr) 617
sre0402t – closeness to mother - comparison to twin 1 (s, >= 16 yr) 618
sre0402u – closeness to mother - comparison to twin 2 (s, >= 15 yr) 618
sre0402s – closeness to mother - comparison to sibling (t,u, >= 15 yr) 619
sre0403 – closeness to father - comparison to other twin (t,u, >= 15 yr) 620
sre0403t – closeness to father - comparison to twin 1 (s, >= 16 yr) 620
sre0403u – closeness to father - comparison to twin 2 (s, >= 15 yr) 621
sre0403s – closeness to father - comparison to sibling (t,u, >= 15 yr) 621

44 Family activities **622**
acc0100 – activities with family member:singing / playing music (t,u,s, <= 16 yr) . 622
acc0101 – activities with family member: reading/talking about books (t,u,s, <= 16 yr) 622

acc0102 – activities with family member: sports (t,u,s, <= 16 yr) 623
acc0103 – activities with family member: walks, day trips (t,u,s, <= 16 yr) 623
acp0100t – activities with twin 1: singing / making music (m,f,n,g, <= 10 yr) . . . 624
acp0100u – activities with twin 2: singing / making music (m,f,n,g, <= 10 yr) . . . 624
acp0100s – activities with sibling: singing / making music (m,f,n,g, <= 10 yr) . . . 625
acp0101t – activities with twin 1: reading books or stories (m,f,n,g, <= 10 yr) 626
acp0101u – activities with twin 2: reading books or stories (m,f,n,g, <= 10 yr) . . . 626
acp0101s – activities with sibling: reading books or stories (m,f,n,g, <= 10 yr) . . . 627
acp0102t – activities with twin 1: sports (m,f,n,g, <= 10 yr) 628
acp0102u – activities with twin 2: sports (m,f,n,g, <= 10 yr) 628
acp0102s – activities with sibling: sports (m,f,n,g, <= 10 yr) 629
acp0103t – activities with twin 1: playground, walks, day trips (m,f,n,g, <= 10 yr) . 629
acp0103u – activities with twin 2: playground, walks, day trips (m,f,n,g, <= 10 yr) . 630
acp0103s – activities with sibling: playground, walks, day trips (m,f,n,g, <= 10 yr) . 631

45 Media use **631**
med1100 – mobile phone: ownership 631
med1101 – mobile phone: age at the beginning 632
med1200 – mobile phone: concentration 633
med1201 – mobile phone: not miss anything 633
med1202 – mobile phone: longer use than intended 634
med1203 – mobile phone: criticized by parents 635

46 Experiences of discrimination **636**
dis0100 – experience with discrimination (>= 13 yr) 636
dis0200 – discrimination on grounds of ethnic or cultural background (>= 13 yr) . 636
dis0201 – burden of discrimination on grounds of ethnic or cultural background (>= 13 yr) 637
dis0300 – discrimination on grounds of sex (>= 13 yr) 637
dis0301 – burden of discrimination on grounds of sex (>= 13 yr) 638
dis0400 – discrimination on grounds of religion (>= 13 yr) 638
dis0401 – burden of discrimination on grounds of religion (>= 13 yr) 639
dis0500 – discrimination on grounds of age (>= 13 yr) 639
dis0501 – burden of discrimination on grounds of age (>= 13 yr) 640
dis0600 – discrimination on grounds of sexual identity (>= 13 yr) 640
dis0601 – burden of discrimination on grounds of sexual identity (>= 13 yr) 641
dis0610 – discrimination sexual identity: area - school / voc.training (>= 14 yr) . . 641
dis0611 – discrimination sexual identity: area - professional context (>= 14 yr) . . . 642
dis0612 – discrimination sexual identity: area - health services (>= 14 yr) 642
dis0613 – discrimination sexual identity: area - street (>= 14 yr) 643
dis0614 – discrimination sexual identity: area - family (>= 14 yr) 643
dis0615 – discrimination sexual identity: area - services/benefits (>= 14 yr) 644
dis0620 – discrimination sexual identity: reaction - do something (>= 14 yr) 644
dis0621 – discrimination sexual identity: reaction - acceptance (>= 14 yr) 645
dis0622 – discrimination sexual identity: reaction - work harder (>= 14 yr) 645
dis0623 – discrimination sexual identity: reaction - blame myself (>= 14 yr) 646
dis0624 – discrimination sexual identity: reaction - talk to someone (>= 14 yr) . . . 646
dis0625 – discrimination sexual identity: reaction - anger (>= 14 yr) 647
dis0700 – discrimination on grounds of disability (>= 13 yr) 647
dis0701 – burden of discrimination on grounds of disability (>= 13 yr) 648
dis0799 – discrimination because of: not specified (refused to answer) (>= 13 yr) . 648

dis0800 – discrimination due to: other (>= 13 yr) . . . 649
dis0801 – stress caused by discrimination due to: other (>= 13 yr) . . . 649

47 Bullying **650**
bul0100 – bullying: frequency of teasing recently (>= 10 yr) . . . 650
bul0101 – bullying: stress caused by teasing recently (>= 10 yr) . . . 650
bul0200 – bullying: frequency of rumors recently (>= 10 yr) . . . 651
bul0201 – bullying: stress caused by rumors recently (>= 10 yr) . . . 651
bul0300 – bullying: frequency of exclusion recently (>= 10 yr) . . . 651
bul0301 – bullying: stress caused by exclusion recently (>= 10 yr) . . . 652
bul0400 – bullying: frequency of physical threats recently (>= 10 yr) . . . 652
bul0401 – bullying: stress caused by physical threats recently (>= 10 yr) . . . 653
bul0500 – bullying: frequency of teasing (t,u,s, <=10 yr) . . . 653
bul0501 – bullying: stress caused by teasing (t,u,s, <=10 yr) . . . 654
bul0600 – bullying: frequency of physical threat (t,u,s, <=10 yr) . . . 654
bul0601 – bullying: stress caused by physical threat (t,u,s, <=10 yr) . . . 655
bul0700 – bullying: frequency of exclusion (t,u,s, <=10 yr) . . . 655
bul0701 – bullying: stress caused by exclusion (t,u,s, <=10 yr) . . . 656
bul0800 – bullying: frequency of rumors (t,u,s, <=10 yr) . . . 656
bul0801 – bullying: stress caused by rumors (t,u,s, <=10 yr) . . . 657

48 Life events **657**
lev0100 – life events: separation (>= 10 yr) . . . 657
lev0101 – life events: separation ever before (>= 10 yr) . . . 658
lev0103 – life events: separation subj. rating (>= 10 yr) . . . 658
lev0300 – life events: separation parents (t,u,s,p,q, >= 10 yr) . . . 659
lev0301 – life events: separation parents ever before (t,u,s,p,q, >= 10 yr) . . . 659
lev0303 – life events: separation parents subj. rating (t,u,s,p,q, >= 10 yr) . . . 659
lev0500 – life events: new relationship (>= 10 yr) . . . 660
lev0501 – life events: new relationship ever before (>= 10 yr) . . . 660
lev0503 – life events: new relationship (>= 10 yr) . . . 661
lev0900 – life events: money worries (>= 14 yr) . . . 661
lev0901 – life events: money worries ever before (>= 14 yr) . . . 662
lev0903 – life events: money worries subj. rating (>= 14 yr) . . . 662
lev1000 – life events: money worries family member (>= 10 yr) . . . 663
lev1001 – life events: money worries family member ever before (>= 10 yr) . . . 663
lev1003 – life events: money worries family member subj. rating (>= 10 yr) . . . 664
lev1100 – life events: Pregnancy/ birth (>= 16 yr) . . . 664
lev1101 – life events: Pregnancy/ birth ever before (t,u,s,p,q,n,g, >= 16 yr) . . . 665
lev1103 – life events: Pregnancy/ birth subj. Rating (>= 16 yr) . . . 665
lev1600 – life events: own accident/ illness (>= 10 yr) . . . 666
lev1601 – life events: own accident/ illness ever before (>= 10 yr) . . . 666
lev1603 – life events: own accident/ illness subj. rating (>= 10 yr) . . . 667
lev1800 – life events: own job loss (>= 16 yr) . . . 667
lev1801 – life events: own job loss ever before (>= 16 yr) . . . 668
lev1803 – life events: own job loss subj. rating (>= 16 yr) . . . 668
lev2100 – life events: Death (>= 10 yr) . . . 669
lev2101 – life events: Death ever before (>= 10 yr) . . . 669
lev2103 – life events: Death subj. rating (>= 10 yr) . . . 670
lev2111 – life events: Death twin 1 (>= 10 yr) . . . 670
lev2112 – life events: Death twin 2 (>= 10 yr) . . . 671

lev2113 – life events: Death sibling (>= 10 yr) . . . 671
lev2114 – life events: Death child (>= 10 yr) . . . 671
lev2115 – life events: Death parents (>= 10 yr) . . . 672
lev2116 – life events: Death stepparents (>= 10 yr) . . . 672
lev2117 – life events: Death parents-in- law (>= 10 yr) . . . 672
lev2118 – life events: Death grandparents (>= 10 yr) . . . 673
lev2119 – life events: Death grandparents of the partner (>= 10 yr) . . . 673
lev2120 – life events: Death aunt/uncle (>= 10 yr) . . . 674
lev2121 – life events: Death partner (>= 10 yr) . . . 674
lev2122 – life events: Death another familiar person (>= 10 yr) . . . 674
lev2123 – life events: Death another non-familiar person (>= 10 yr) . . . 675
lev2197 – life events: Death not assigned (>= 10 yr) . . . 675
lev2199 – life events: Death not specified (>= 10 yr) . . . 676
lev2600 – life events: school class repeated (t,u,s,p,q, >= 10 yr) . . . 676
lev2601 – life events: school class repeated ever before (t,u,s,p,q, >= 10 yr) . . . 676
lev2603 – life events: school class repeated subject. feeling (t,u,s,p,q, >= 10 yr) . . . 677
lev3200 – life events: stay abroad (>= 10 yr) . . . 677
lev3201 – life events: stay abroad ever before (>= 10 yr) . . . 678
lev3203 – life events: stay abroad subj. feeling (>= 10 yr) . . . 678
lev9000 – life events: another event . . . 679
lev9001 – life events: another event ever before (>= 10 & <= 15 yr) . . . 679
lev9003 – life events: another event subj. rating . . . 680
lev9025 – life events: most beautiful event in the last 12 months together with other twin . . . 680

49 Life transitions **681**
tra0100 – transitions: moving out of parental home (t,u,s) . . . 681
tra0101 – transitions: moving out subj. rating (t,u,s) . . . 681
tra0200 – transitions: change from sec. school (t,u,s) . . . 682
tra0201 – transitions: change from sec. school subj. rating (t,u,s) . . . 682
tra0300 – transitions: dropping out from training/university (t,u,s) . . . 683
tra0301 – transitions: dropping out from training/university subj. (t,u,s) . . . 683
tra0400t – transitions twin 1: enrollment (m,f,n,g) . . . 684
tra0400u – transitions twin 2: enrollment (m,f,n,g) . . . 684
tra0400s – transitions sibling: enrollment (m,f,n,g) . . . 685
tra0401t – transitions twin 1: enrollment parent subj. rating (m,f,n,g) . . . 685
tra0401u – transitions twin 2: enrollment parent subj. rating (m,f,n,g) . . . 686
tra0401s – transitions sibling: enrollment parent subj. rating (m,f,n,g) . . . 687
tra0500 – transitions: change to sec.school (t,u,s, <= 14 yr) . . . 687
tra0501 – transitions: change to sec.school subj. rating (t,u,s, <= 14 yr) . . . 688
tra0600 – self - starting a family (t,u,s) . . . 688
tra0601 – transitions: starting a family - subj. feeling (t,u,s) . . . 689

50 Survey and module participation **689**
euek – respondent parents about child . . . 690
f2f_mcapi – participation CAPI (gen) . . . 690
f2f_mcasi – participation CASI (gen) . . . 690
f2f_mcer – recorded certificates (gen) . . . 691
f2f_mhh – participation hh questionnaire (gen) . . . 691
f2f_miva1 – information on living environment by interviewer (gen) . . . 692
f2f_miva2 – information on interview by interviewer (gen) . . . 692

f2f_mpapie – participation PAPI adults (gen) . . . 692
f2f_mpapik – participation PAPI children (gen) . . . 693
mod0300 – survey mode . . . 693

51 Interviewer variables **694**
iid – interviewer ID . . . 694
ini0100 – interviewer: year of birth . . . 694
ini0101 – interviewer: sex . . . 694
ini0102 – interviewer: educational qualification . . . 695
ini0103 – interviewer: year of joining survey institute . . . 695

52 Interviewer assessments **696**
att0300 – attractiveness of family member: interviewer assessment . . . 696
iva0100 – dwelling is neat/messy (intr) . . . 697
iva0101 – home furnishings are simple/expensive (intr) . . . 697
iva0102 – dwelling is well-kept/neglected (intr) . . . 698
iva0103 – dwelling is cramped/spacious (intr) . . . 699
iva0104 – number of books in the household (intr) . . . 699
iva0402 – interference of children with each other in int./tests (intr) . . . 700
iva0403 – interference of parents with each other in int./tests (intr) . . . 701
iva0404 – parents' intervention in survey/testing of twins (intr) . . . 701
iva0405 – intervention of parents in survey / testing of sibling (intr) . . . 702
iva0901 – type of building (intr) . . . 702
iva0902 – condition of the house (intr) . . . 703
iva0903 – safety assessment of the residential area (intr) . . . 704
iva0904 – description of the residential area (intr) . . . 704
iva0905 – environmental pollution in residential area (intr) . . . 705
iva1000 – household edited in previous wave (intr) . . . 705
iva1100 – ease of interview (intr) . . . 706
iva1310 – attempts at identity fraud (intr) . . . 706

53 Para data **707**
mon_fq – month family questionnaire was conducted (gen) . . . 707
mon_hq – month household questionnaire was conducted (gen) . . . 707
mon_pq – month individual questionnaire was conducted (gen) . . . 708
yea_fq – year family questionnaire was conducted (gen) . . . 708
yea_hq – year household questionnaire was conducted (gen) . . . 709
yea_pq – year individual questionnaire was conducted (gen) . . . 709
new – new respondent - first F2F interview (gen) . . . 709
news – new sibling - first F2F interview (gen) . . . 710

1 How to use the codebook

The codebook includes information and frequencies of all variables that are included in the Scientific Use File of TwinLife. The variables are sorted alphabetically within content-related chapters. The codebook documents the following information for these variables: variable name, variable label, question text (from the major survey instrument - although the question text is usually identical in all survey modes, it may differ in some cases), categories (including the value labels), frequencies, data collections the variable was surveyed in, filter conditions based on the instruments used for the variable, and sources for additional information. The variable label includes information on age groups and person types surveyed. This information serves as rough orientation; for detailed filter conditions of the variable within the instrument/questionnaire, please see the filter conditions documented below the frequency table. Please note: For metric variables or variables with many categories, no frequencies are documented (except for missing categories) in order to avoid long lists of categories. The codebook is based on cross-sectional data.

2 Study description

TwinLife is an interdisciplinary longitudinal study that combines perspectives of psychological and sociological theories with behavioral genetic research. The aim of TwinLife is to examine the interplay of the genetic and environmental mechanisms that influence social inequalities over the life course. The study focuses on education and academic performance, career and labor market attainment, integration and participation in social, cultural and political life, quality of life and perceived capabilities, physical and psychological health as well as behavioral issues and deviant behavior. Therefore, more than 4,000 mono- and dizygotic twin couples from four birth cohorts and their families are interviewed alternately in person and by telephone every year. The population of the TwinLife study are families with same-sex twins in Germany who were 5, 11, 17, and 22-24 years old at the first interview in 2014 or 2015. Thus, birth cohorts are defined as follows:
subsample A: - cohort 1: 2009 - cohort 2: 2003 - cohort 3: 1997 - cohort 4: 1990/1991
subsample B: - cohort 1: 2010 - cohort 2: 2004 - cohort 3: 1998 - cohort 4: 1992/1993
More detailed information you can find on our documentation website `https://www.twin-life.de/documentation/`.

3 Data collection 5 (F2F 3)

The field period for F2F 3 was from Nov 26, 2018 to July 06, 2019 (subsample A) and from Sep 16, 2019 to June 06, 2020 (subsample B). Sub-sample A includes 1,120 families. Sub-sample B includes 1,142 families. Thus, a total of 2,262 families participated in the F2F3 survey.
The target persons in F2F 3 include: - both twins - their parents or stepparents - one sibling (5 years or older) - partners of twins, provided the twins are at least 18 years old
For more information on the F2F 3 survey, see the Methodological Report `https://pub.uni-bielefeld.de/record/2961284`.

4 Identifiers: IDs on wave, family, household and invidual level

This chapter contains information on: identifier on family level; identifier on household level; identifier on individual level; wave identifier.

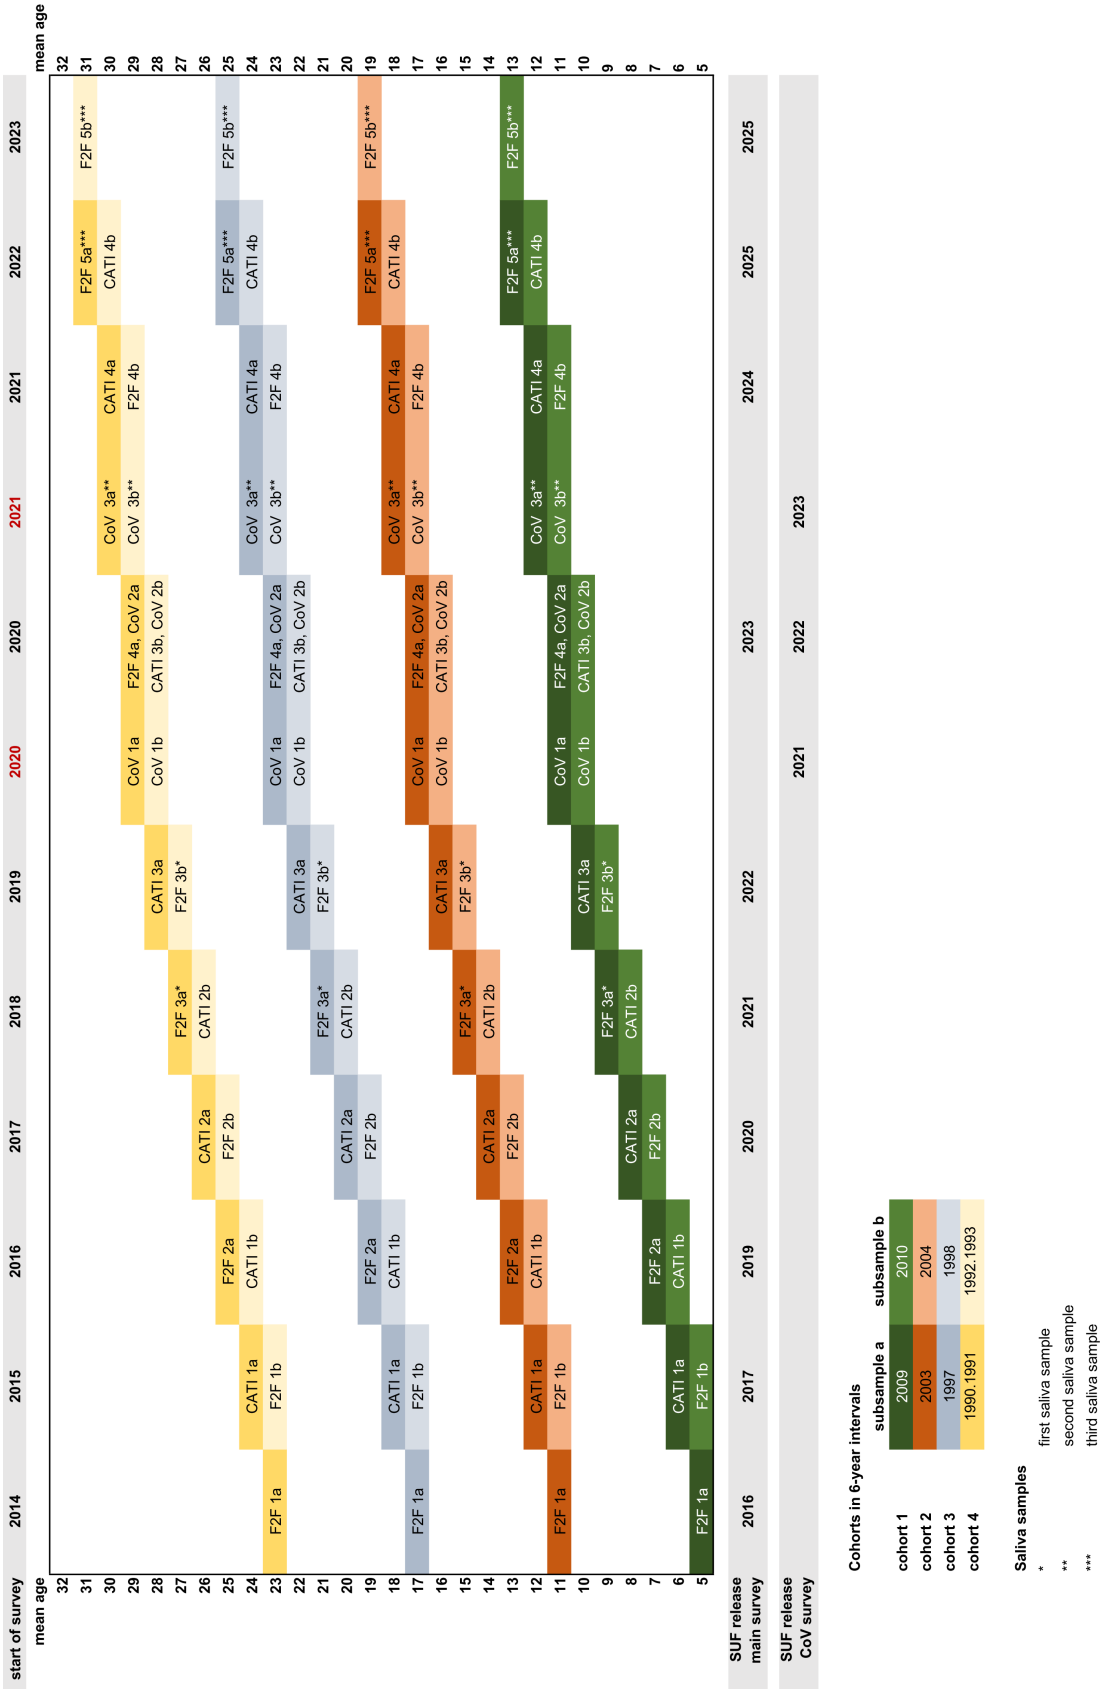

Figure 1: Overview of data collections in TwinLife

fid – family ID (scientific use file)

-85	-85: unknown	0
-86	-86: not available/empty/not codable	0
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	0
-92	-92: no participation in survey module	0
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	0
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 1; CATI 1; F2F 2; CATI 2; F2F 3; CATI 3; F2F 4; CATI 4; F2F 5; CoV 1; CoV 2; CoV 3; CoV 4
Filter based on instrument: always asked/always generated

hid_5 – household ID wave-specific (scientific use file) (F2F 3)

-85	-85: unknown	0
-86	-86: not available/empty/not codable	0
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	0
-92	-92: no participation in survey module	0
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	0
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 3
Filter based on instrument: always asked/always generated

pid – person ID (scientific use file)

-85	-85: unknown	0

5 Identifiers: Indicator and sample variables

This chapter contains information on: person types; sample information; wave identifier.

cgr – twin birth cohort

1	1: twins born 2009/2010	3142
2	2: twins born 2003/2004	2943
3	3: twins born 1997/1998	2388
4	4: twins born 1990-1993	2030
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	0
-92	-92: no participation in survey module	0
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	0
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 1; CATI 1; F2F 2; CATI 2; F2F 3; CATI 3; F2F 4; CATI 4; F2F 5; CoV 1; CoV 2; CoV 3; CoV 4
Filter based on instrument: always asked/always generated

ptyp – type of respondent

1	1: firstborn twin - t	2166
2	2: secondborn twin - u	2107
110	110: partner of first interviewed twin - p	238
120	120: partner of second interviewed twin - q	218
200	200: sibling - s	1001
201	201: sibling not participating	380
300	300: mother - m	2080
400	400: father - f	1756
500	500: partner of mother - g	129
600	600: partner of father - n	40
700	700: other person (not surveyed)	385
800	800: unknown person type	3
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	0
-92	-92: no participation in survey module	0
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	0
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 1; CATI 1; F2F 2; CATI 2; F2F 3; CATI 3; F2F 4; CATI 4; F2F 5; CoV 1; CoV 2; CoV 3; CoV 4
Filter based on instrument: always asked/always generated

ptyp_hq – type of respondent for household questionnaire (gen)

1	1: firstborn twin - t	1191
2	2: secondborn twin - u	950
110	110: partner of first interviewed twin - p	99
120	120: partner of second interviewed twin - q	97
200	200: sibling - s	365
201	201: sibling not participating	13
300	300: mother - m	6108
400	400: father - f	1594
500	500: partner of mother - g	7
600	600: partner of father - n	15
700	700: other person (not surveyed)	0
800	800: unknown person type	0
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	18
-92	-92: no participation in survey module	46
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	0
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 1; CATI 1; F2F 2; CATI 2; F2F 3; F2F 4; F2F 5
Question text: `Interviewer question: Who is the person that fills in the household questionnaire?`
Filter based on instrument: always asked/always generated

wav0100 – subsample (gen)

1	1: Sample A (start 2014/15)	5234
2	2: Sample B (start 2015/16)	5269
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	0
-92	-92: no participation in survey module	0
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	0
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 1; CATI 1; F2F 2; CATI 2; F2F 3; CATI 3; F2F 4; CATI 4; F2F 5; CoV 1; CoV 2; CoV 3; CoV 4
Question text:
Filter based on instrument: always asked/always generated
Generated variable
wav0100 specifies to which subsample of the whole TwinLife sample a family belongs: a (whose survey started in 2014/2015) or b (whose survey started in 2015/2016). For details about the survey and sampling design of TwinLife, see the methodology report of the first TwinLife survey wave (URL Link).

wav0200 – survey wave (gen)

3		10503
-85	-85: unknown	0
-86	-86: not available/empty/not codable	0
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	0
-92	-92: no participation in survey module	0
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	0
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 1; CATI 1; F2F 2; CATI 2; F2F 3; CATI 3; F2F 4; CATI 4; F2F 5
Question text:
Filter based on instrument: always asked/always generated
Generated variable
Each wave of the TwinLife survey consists of two data collections: A face-to-face (F2F) interview and a telephone (CATI) interview. **wav0200** specifies to which survey wave an observation belongs. For details about the survey and sampling design of TwinLife, see the methodology report of the first TwinLife survey wave (URL Link).

wav0300 – part of the survey wave (gen)

1	1: F2F survey part	10503
2	2: CATI survey part	0
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	0
-92	-92: no participation in survey module	0

Waves: F2F 1; CATI 1; F2F 2; CATI 2; F2F 3; CATI 3; F2F 4; CATI 4; F2F 5
Question text:
Filter based on instrument: always asked/always generated
Generated variable
wav0400 is a combination of **wav0200**, **wav0300**, and **wav0100**. It specifies to which concrete data collection (survey wave and part of the survey wave, see **wav0200** and **wav0300**) in which subsample (see **wav0100**) an observation belongs. For details about the survey and sampling design of TwinLife, see the methodology report of the first TwinLife survey wave (URL Link).

6 Socio-demographics

This chapter contains information on: ; socio-demographic information.

age0100 – age in years on the date of the family questionnaire (gen)

-85	-85: unknown	0
-86	-86: not available/empty/not codable	0
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	0
-92	-92: no participation in survey module	0
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	0
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	99

Waves: F2F 1; CATI 1; F2F 2; CATI 2; F2F 3; CATI 3; F2F 4; CATI 4; F2F 5; CoV 1; CoV 2; CoV 3; CoV 4
Question text:
Filter based on instrument: always asked/always generated
Generated variable
age0100 gives the age in years to the nearest month at the time of the family questionnaire. This means that the actual date of birth was set to the first day of the month and then the age was calculated. For reasons of data protection, the age in years to the day on the date of the family questionnaire (without change of the day of birth, as in **age0110**) cannot be released in the scientific use file. However, **age0110** is used to filter the questions. In most cases, **age0100** and **age0110** are identical. All age variables are based on the respondent's date of birth. This specification can be corrected by the respondent in each wave and is plausibilized longitudinally for further data processing. In the case of inconsistencies in an individual's date of birth, the most frequently given date of birth is used. If two dates of birth are equally frequent, the most recent is taken. Note that **age0100** in Cov3 is the age at the time of the individual questionnaire, as no family questionnaire is available in the Corona supplement.

age0100t – age twins in years on the date of the family questionnaire (gen)

-85	-85: unknown	0
-86	-86: not available/empty/not codable	0

-87	-87: multiple answers	0

Question text:
Filter based on instrument: always asked/always generated
Generated variable
age0101 gives the age in months at the time of the family questionnaire, rounded up to the nearest month. This means that the actual date of birth was set to the first day of the month and then the age in months was calculated. All age variables are based on the date of birth given by the respondent. This specification can be corrected by the respondent in each wave and is plausibilized longitudinally for further data processing. In the case of inconsistencies in an individual's date of birth, the most frequently given date of birth is used. If two dates of birth are equally frequent, the most recent is taken. Note that **age0101** in Cov3 is the age at the time of the individual questionnaire, as no family questionnaire is available in the Corona supplement.

age0200 – age in years on 01 January of survey year of subsample (gen)

-85	-85: unknown	0
-86	-86: not available/empty/not codable	0
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	0

Waves: F2F 1; CATI 1; F2F 2; CATI 2; F2F 3; CATI 3; F2F 4; CATI 4; F2F 5; CoV 1; CoV 2; CoV 3; CoV 4
Question text:
Filter based on instrument: always asked/always generated
Generated variable

age0200 specifies the age in years at January 1st of the (main) survey year of the subsample. The survey year is defined uniformly for the entire subsample in each wave, although in reality it may differ across families (see variable **yea_fq**). The defined survey years are: F2F 1 subsample a: 2015; F2F 1 subsample b: 2016; CATI 1a: 2016; CATI 1b: 2017; F2F 2a: 2017; F2F 2b: 2018; CATI 2a: 2018; CATI 2b: 2019. All age variables are based on the date of birth provided by the respondent. The specification can be corrected by the respondent in each wave and is plausibilized longitudinally for further data processing. In cases of inconsistent birth date information of an individual, the the most frequently cited date of birth is adopted. If two dates of birth were mentioned equally often, the latest specification is adopted.

age0201 – age in months on 01 January of survey year of subsample (gen)

Question text:
Filter based on instrument: always asked/always generated
Generated variable
In order to meet data protection requirements, regional information about a person, household, or family can only be provided in aggregated form. Therefore, an east-west indicator (**ewi**) was generated by dividing the German states (Bundeslaender) into two groups depending on their former affiliation to Western Germany (Federal Republic of Germany) or Eastern Germany (German Democratic Republic). Baden-Wuerttemberg, Bavaria, Bremen, Hamburg, Hesse, Lower Saxony, North Rhine-Westphalia, Rhineland-Palatinate, Saarland and Schleswig-Holstein belong to former Western Germany; Berlin, Brandenburg, Mecklenburg-West Pomerania, Saxony, Saxony-Anhalt and Thuringia belong to former Eastern Germany. According to the Federal Statistical Office of Germany, Berlin as a whole is count as part of former Eastern Germany. **ewi** is available on the household level. Please note that regional variables are generated from contextual information based on a household's contact address. In case of inconsistencies within a household ID, the regional information of the twins was prioritized over the information of the other household members. However, these inconsistencies occurred only in very rare cases.

gkpol_r – community size classification (political), 4 groups (gen)

1	1: 1 to 19,999 inhabitants	1938
2	2: 20,000 to 99,999 inhabitants	2826
3	3: 100,000 to 499,999 inhabitants	2375
4	4: 500,000 or more inhabitants	3364

Question text:
Filter based on instrument: always asked/always generated
Generated variable
In order to meet data protection requirements, regional information about a person, household, or family can only be provided in aggregated form. Therefore, the (political) size of the community (politische Gemeindegroessenklasse, **gkpol_7**, structured as follows: 1: 1 to 1,999 inhabitants, 2: 2,000 to 4,999 inhabitants, 3: 5,000 to 19,999 inhabitants, 4: 20,000 to 49,999 inhabitants, 5: 50,000 to 99,999 inhabitants, 6: 100,000 to 499,999 inhabitants, 7: 500,000 or more inhabitants) is classified into four groups and delivered in the SUF data (**gkpol_r**). **gkpol_r** is available on the household level. Please note that regional variables are generated from contextual information based on a household's contact address. In case

of inconsistencies within a household ID, the regional information of the twins was prioritized over the information of the other household members. However, these inconsistencies occurred only in very rare cases.

Generated variable
In each face-to-face survey, there is an option to correct the gender of family members. In general, the last reported gender is included in the dataset. In the F2F4 questionnaire, the gender category 'divers' (third gender) has been introduced. However, as gender is a quasi-identifying attribute, the third category is not provided in the SUF for data protection reasons, as this category has rarely been selected so far. Changes in the gender identity of twins are also not reported in the SUF for data protection reasons.

7 Family structure and household characteristics

This chapter contains information on: characteristics of family members (name, age, gender of twins; name, age, gender and relation to twins of siblings and parents who don't live in household; partners of twins); family members living in the household; housing characteristics; number of households in the family; number of persons belonging to the household.

Generated variable
The housing conditions were surveyed on the household level and the corresponding questions (**liv0200** and **liv0300/liv0310** resp.: 'Are you the main tenant, subletter, or owner?') were answered by the person that has filled the household questionnaire. The variable **liv0210** was generated by processing the available information into the twin perspective and on a personal level. Please note that from CATI 1 (**wid** == 2) onwards, the question 'Have you been living here since about a year ago?' (**liv0600**) was asked in advance. Only persons who answered

'No' to this question were asked about their living conditions in **liv0200** and **liv0310**. In the other cases, the previous year's information was inserted. The household type (**liv0400**: 'In what type of household do you live?') was also surveyed in a personal perspective (dependent on the person type that filled the household questionnaire). The question was asked regardless of whether or not a person had indicated that they had already lived in the apartment in the past year (**liv0600**). The information was processed into the generated variable **liv0410** that provides the information in a general and (between person types) comparable perspective.

mig0520, which is part of the master file of the Scientific Use File, includes all available information on the personal level and displays whether the individual has the German citizenship or not (*1: yes* or *2: no*). In the first face-to-face data collection (F2F 1) the citizenship was surveyed in a multicoding format as a self-report and a proxy-report of parents about their children, offering the respondent to mention one or several citizenships and give open answers (**mig0500(t/u/s)** - **mig0519(t/u/s)**). In the second face-to-face data collection (F2F 2), it was explicitly asked for the first citizenship as well as for the second citizenship, if applicable (including the offering of an open answer). The corresponding variables are **mig0550(t/u/s)** - **mig0553(t/u/s)**). The citizenship was surveyed of all respondents in both F2F 1 and F2F 2. It is stored, like the other migration variables, as constant variable in the master. In cases were the information given in F2F 2 differed from the one given in F2F 1, the latest information was used for the generation of **mig0520**.

Question text:
Filter based on instrument: always asked/always generated
Generated variable
mig0620 indicates the year in which German citizenship was granted. *mig0620* was generated on the basis of *mig0600* (self-reports) and *mig0600[t,u,s]* (parents' proxy statements) from F2F1 and, in the case of newly interviewed siblings, on the basis of *mig0600s* from F2F2. In *mig0620*, missing or even valid values for year of citizenship from F2F1 were replaced by valid information on year of citizenship from F2F2. This is only the case for a small number of siblings. Missing information on *mig0620* when German citizenship is available can be explained by the fact that certain persons did not receive the question, i.e. Alteri in F2F1, persons who were asked about their citizenship for the first time in F2F2 or later, or person who were asked about their citizenships in F2F2 again.

Question text:
Filter based on instrument: always asked/always generated

Generated variable
The country of birth was surveyed in the first face-to-face data collection (F2F 1) as a self-report (respondents aged 16 or above, **mig0100**, **mig0101**), proxy-report of parents about their children aged below 16 (twins and sibling, **mig0100t/u/s**, **mig0101t/u/s**) as well as a proxy-report about the own parents (**mig0300**, **mig0301**, **mig0400**, **mig0401**; persons aged 16 or above). In F2F 2 only first-time respondents were asked for their country of birth. In F2F 3, the country of birth was not surveyed. The information was collected by providing a list as well as the opportunity to give an open answer. For data privacy reasons the answers were recoded into country groups and stored in generated variables, where the self-reports and the proxy-reports of parents about their children were integrated into **mig2000**. Please note that proxy information by the twins or the sibling about the country of birth of their parents is *not* used for the generation of **mig2000** (e.g. **mig0300** for the generation of **mig2000** of the twin's mother, etc.). The treatment of missing values is addressed in **mig3000**. It can be derived from the table *mig2000_countrygroups.pdf* (URL Link) in the downloads section (URL Link) of the TwinLife documentation website which countries were included in which group. Please also note that different statements of twins about their country of birth are not harmonized. In about 20 cases/twin pairs the given information differs between the twins. The treatment of contradicting information is addressed in **mig3000**. **mig2000** is stored in the master data set.

Question text:
Filter based on instrument: always asked/always generated
Generated variable
The information whether a person was born in the German Democratic Republic (GDR) is stored in the variables **mig2001** (self-report), **mig2101** (respondent's report about mother) and **mig2201** (respondent's report about father). It is generated on the basis of the country of birth and considers whether the person was born during the existence of the GDR between 7/10/1949 and 2/10/1990. **mig0100** contains the answer on the question 'What country you were born in?'; *2* is the answer 'Germany, former GDR'. **mig0101** contains the open answers to the question. **gebdatg** is the individual birth date as the number of days since 01/01/1960; *-3738* corresponds to the date 07/10/1949 and *11232* to the date 02/10/1990.

```
replace mig2001 = 1 if (mig0100 == 2 | mig0101 == 'Ostdeutschland' | mig0101 == 'DDR')
replace mig2001 = 0 if (mig0100 == 2 | mig0101 == 'Ostdeutschland' | mig0101 == 'DDR')
```

The variable is stored in the master data set.

Question text:
Filter based on instrument: always asked/always generated
Generated variable
The variable **mig3000** is an extended and harmonized version of **mig2000** and combines all available information on respondents' country of birth. For those cases where the parents' self-report is not available, the information provided by the twins or the sibling about their biological parents' countries of birth is used (e.g. **mig2100** for the generation of **mig3000** of the twin's mother, etc.). If the twins' and the sibling's statements about their parents' countries of birth differ, the statement that is shared by two out of the three is designated as the parent's country of birth. Missing information of one of the twins is filled in with the information of the other twin. If the information about the twins' country of birth is contradicting, Germany is designated as the country of birth if at least one twin indicated to be born in Germany. The value -81 (contradictory information) is assigned for cases with no unambiguous information about the twins' country of birth.
mig3000 is stored in the master data set.

For those cases where there is no self-reported information available, the proxy-information provided by the twins or the sibling is used instead (i.e. **mig2200**). If the twins' and the sibling's statements about their father's country of birth differ, the statement that is shared by two out of three is designated as the father's country of birth. If there is no unambiguous information about the father's country of birth, the value -81 (contradictory information) is assigned. **mig3200** is stored in the master data set.

Question text:
Filter based on instrument: always asked/always generated
Generated variable
The variable **mig4000** is based on **mig3000**, **mig3100**, and **mig3200** and contains information on the twins and the sibling's migration background up to the third generation. The variable indicates whether the twins' or the sibling were born in Germany (0); born abroad (1); have no personal migration but migration of at least one parent (2); no personal nor migration of either parent but migration of at least one grandparent (3). The migration background was constructed for twins with at least one (grand-)parental information available. In cases where the information on the country of birth is contradicting but it is known that the respondent is born abroad, the information about the foreign birth is used without considering

the particular country. Twins and siblings with missing information on both parents or all grandparents were assigned the value -86 (not available/empty/not codable). Please note, **mig4000** only considers information about biological parents. The variable is stored in the master data set.

Question text:
Filter based on instrument: always asked/always generated
Generated variable
The variable **mig4100** is based on **mig3000**, **mig3100**, and **mig3200** and contains information on respondents' migration background up to the second generation. The variable indicates whether respondents were born in Germany (0); born in a country other than Germany (1); or have no personal migration but migration of at least one parent (2). The migration background was constructed for respondents with at least one parental information available. In cases where the information on the country of birth is contradicting but it is known that the respondent was born abroad, the information about the foreign birth is used without considering the particular country. Respondents with missing information on both parents were assigned the value -86 (not available/empty/not codable). Please note, **mig4100** only considers information about biological parents. The variable is stored in the master data set.

Question text:
Filter based on instrument: always asked/always generated
Generated variable
The variable *zyg0102* combines the information from the results of the zygosity questionnaire in F2F1 (zyg0100) and the DNA samples from F2F1 (zyg0101). It is recommended to use the new variable *zyg0112* as this is updated by the results of the DNA analysis of F2F3. For details regarding the generated zygosity variables, see the Technical Report No. 1 (URL Link).

Question text:
Filter based on instrument: always asked/always generated
Generated variable
The variable *zyg0112* combines the information from the results of the zygosity questionnaire in F2F1 (zyg0100) and the DNA samples from F2F1 (zyg0101) and F2F3 (zyg0111). It

is recommended to use this updated variable instead of *zyg0102* which does not yet contain the results of the DNA analysis from F2F3. For details regarding the generated zygosity variables, see the Technical Report No. 1 (URL Link).

11 Twin-specific questions

This chapter contains information on: twin-specific questions for parents (e.g., dress twins alike); twin-specific questions for siblings (e.g. relationship of the twins); twin-specific questions for twins themselves (e.g. relationship to other twin).

Question text:
Filter based on instrument: always asked/always generated
Generated variable
cer0001 was generated from the information provided in the report card module. Those respondents who did not consent to have a photo taken of their report card received the alternative questionnaire on the most recent or final report card. Those for whom there was consent for the report card photograph (cer1002==1), but for whom both the report card photograph and the alternative questionnaire were missing, received the code -94 (technical error).

Generated variable
cer1002 was generated from the variables cer1001 and cer1001[t,u,s] at the person level (ptyp=1,2,200) and indicates whether there was consent to photograph the report card. The missing code -94 in the variables of the report card photo module means that there is no photo due to a technical error, although the consent to take the photo was given (cer1002==1). It could be technical problems with taking the photo or it was forgotten to take the photo.

Waves: F2F 2; F2F 3; F2F 4; F2F 5
Generated variable
The response option 'orientation school' (German: 'Orientierungsschule') was incorrectly given in the questionnaire until data collection F2F2, although this type of school no longer exists in Germany. Therefore, this category was deleted from CATI2 onwards. In CATI3, edu0400 also contains the proxy information of the parents of the variables edu0400t and edu0400u.
Item developed for TwinLife.

The response option 'orientation school' (German: 'Orientierungsschule') was incorrectly given in the questionnaire until data collection F2F2, although this type of school no longer exists in Germany. Therefore, this category was deleted from CATI2 onwards. In CATI3, edu0400 also contains the proxy information of the parents of the variables edu0400t and edu0400u.

Generated variable
The International Standard Classification of Education (ISCED) is a classification of educational attainment and level of education. The ISCED classification takes into account the country-specific complexity of educational programs in terms of the type and duration of school or training. It ranges from 0 (pre-primary level of education) to 6 (second stage of tertiary education, leading to an advanced research qualification).
The qualifications of the German education system can be assigned to the following ISCED-97 levels (cf. Schneider 2008):

- Level 0: Pre-primary education, such as Kindergarten

- Level 1: Primary school
- Level 2B: Elementary and lower secondary school and apprenticeship training
- Level 2A: Realschule, Mittlere Reife and Polytechnische Oberschule (GDR)
- Level 3B: Vocational training in the dual system, intermediate administrative training, vocational/college school-leaving certificate and one-year schools of health services
- Level 3A: Advanced technical college entrance qualification and Abitur (A-levels)
- Level 4B: Combination of two vocational degrees in ISCED 3B
- Level 4A: Qualification in both levels 3A and 3B
- Level 5B: Master craftsman/technician, 2 to 3 year school of health services, technical/vocational academy, technical school diploma (GDR) and technical school of administration
- Level 5A: Fachhochschule degree, university degree
- Level 6: Doctorate, PhD

The variable **eca0108** is constructed from the two generated variables for the highest school leaving certificate (**eca0130**) and the highest vocational qualification (**eca0230**). The ISCED variable generated for TwinLife does not include level 2B, as information on pre-vocational programs is not available. In F2F2 (in contrast to F2F 1), additionally to the highest vocational qualification, information on a further professional qualification (**eca0221**) was collected. This also allows ISCED level 4B (combination of two vocational qualifications in level 3B) to be coded in F2F 2. However, a retroactive adjustment for F2F 1 could not be made, as the year of completion of the further education was not available. There is also no information on the length of training at health schools. In these cases, a minimum of two years was assumed when classifying according to ISCED levels.
Please note that **eca0108** cannot be used as an ordinal scale because ISCED levels are divided into subcategories (e.g. levels 5A and 5B, where level 5A is a more advanced qualification than level 5B).
For more information on the ISCED classification, see OECD (1999), and Schneider (2008).
OECD (Ed.). (1999). Classifying educational programmes: Manual for ISCED-97 implementation in OECD countries. Organisation for Economic Co-operation and Development. [URL link]; Schneider, S. L. (2008). Applying the ISCED-97 to the German educational qualifications. In (Ed.) Schneider, The International Standard Classification of Education (pp. 76-102). MZES, University of Mannheim. CASMIN (Comparative Analysis of Social Mobility in Industrial Nations) is a hierarchically structured educational scale that is classified on the basis of general school education and vocational qualifications. The CASMIN variable **eca0109** implemented for TwinLife is based on the highest school leaving certificate (**eca0130**) and the highest vocational qualification (**eca0230**).
For more information on the CASMIN classification, see Brauns et al. (2003), and Brauns & Steinmann (1999).
Brauns, Hildegard, Scherer, S., & Steinmann, S. (2003). The CASMIN Educational Classification in International Comparative Research. In J. H. P. Hoffmeyer-Zlotnik & C. Question text:
Filter based on instrument: always asked/always generated
Generated variable
Information on the highest school-leaving certificate was collected at the time of the first data collection (F2F1 or the first data collection a person participated in). In subsequent data collections, newly acquired school-leaving qualifications were collected and the previously recorded school-leaving qualification were replaced if the newly acquired qualification was a

higher school degree. If graduation information from the school module (**eca**) is not available for respondents, missing graduation information from the report card module (**cer**) is integrated. Please note: For those participants who stated in the second face-to-face data collection (F2F 2) that they had obtained a new school leaving certificate, the information on the highest school leaving certificate was collected again. For some respondents who were wrongly identified as first-surveyed respondents, there are also duplicate entries in F2F1 and F2F2. If a higher school leaving certificate was reported in F2F 2 and the certificate was obtained before the interview of the first data collection, the highest school qualification was corrected retroactively. Open statements were recoded into categories 1 to 5. Special school qualifications (Foerderschule) were equated with the 'Hauptschulabschluss'. Open entries that could not be assigned to these categories were recoded into -89 (not codable). If respondents do not have graduation information from the school module, missing graduation information from the report card module is integrated.

eca0200 – type of vocational training or university degree/diploma/qualification(>= 15 yr)

In F2F 1, the degrees *university of applied sciences* and *university of cooperative education* were asked in a joint category (category 8). Starting with F2F 2, the categories were asked separately (categories 6 and 7) and updated in subsequent data deliveries unless another higher degree was reported.

The International Standard Classification of Occupations from 2008 (ISCO-08) classifies occupations (internationally comparably) considering the required skill level (degree of complexity, based on the educational qualification) of an occupation as well as the skill specialization (the type of skills that are needed especially for this occupation). TwinLife delivers the ISCO classification on the sub-major group level (two digits) for the occupational activity (**emp0503** and **emp0513**), the field of study of the highest vocational qualification (**eca0205**) and as well as the occupational activities of the twins' grandparents (**bpa0208**, **bpa0308**, **bpa0508**, **bpa0608**). For more information about the ISCO classification visit the ILO website (URL Link). The open-ended responses on occupation were coded into ISCO-08 by the survey institute (TNS Infratest/Kantar for F2F 1, infas for F2F 2). Infratest performs the coding on the basis of an electronically available directory developed by Statistik Austria (see TNS Infratest/Kantar ISCO-08 documentation (URL Link) on the TwinLife documentation website (URL Link)). Infas bases the ISCO coding on specifications developed by GESIS. The exact procedure of occupation coding was described in detail by Geis and Hoffmeyer-Zlotnik (2000) using ISCO-88 as an example. In addition, extensive guidance on the practical implementation of occupational coding can be found in Geis (2011). Building on this knowledge of ISCO-88, there is the ISCO-08 code scheme, explanations and notes on the differences between ISCO-08 and ISCO-88. These have been coordinated by infas with GESIS. Specifications that could not translated into the schemes (such as 'team leader', 'specialist', or 'intern') were coded into -81 (no occupation or occupational activity mentioned) or -89 (not codable).

ISEI (International Socio-Economic Index of Occupational Status) is a measure of a person's socio-economic status and takes into account the individual's occupation, income and education. ISEI-08 categories range from 12 to 90. The ISEI is generated for

- the occupation of the current employment (**emp0505**),
- the apprenticeship or field of study of the highest professional qualification (**eca0207**),
- the apprenticeship or field of study acquired since the last interview (**eca1207**),
- the apprenticeship or field of study of the vocational qualifications mentioned in F2F3 and F2F4, which were surveyed in a follow-up in F2F5 (**eca1217**, **eca1227**).

The ISEI variables have been coded on the basis of the four-digit version of the ISCO-08 classification. It was created using the Stata program *iscogen.ado* (Jann, B. (2019)), which is based on the SPSS script *isqoisei08.sps* by Harry Ganzeboom. For more information see Ganzeboom & Treiman (1996) and Ganzeboom (2010).

SIOPS (Standard Index of Occupational Prestige Scale) is a classification for a prestige ranking of occupations (from 0 to 100). The SIOPS is generated for

- the occupation of current employment (**emp0508**),
- the apprenticeship or field of study of the highest professional qualification (**eca0208**),
- the apprenticeship or field of study acquired since the last interview (**eca1208**),
- the apprenticeship or field of study of the vocational qualifications mentioned in F2F3 and F2F4, which were surveyed in a follow-up in F2F5 (**eca1218**, **eca1228**).

The SIOPS variables have been coded on the basis of the four-digit version of the ISCO-08 classification. It was created using the Stata program *iscogen.ado* (Jann, B. (2019)). For more information see Ganzeboom & Treiman (1996).

Question text:
Filter based on instrument: always asked/always generated
Generated variable
Information on the highest professional qualification was collected at the time of the first data collection (F2F1 or the first data collection a person participated in). In subsequent data collections, newly acquired professional degrees were collected and the previously recorded professional qualification was replaced if the newly acquired qualification was a higher professional degree. The second face-to-face data collection (F2F 2) again asked for the highest professional qualification as well as any further professional degree. If a higher professional certificate was reported in the second face-to-face data collection and the certificate was obtained before the interview of the first data collection, the highest professional qualification was corrected retroactively. The same applies to the family members who indicated in the first wave that they had obtained a degree from a 'Berufsakademie or Fachhochschule' (university of applied sciences, university of cooperative education). While these degrees were recorded jointly into one category in the first data collection (category 8), separate categories

were introduced in the subsequent data collection (categories 6 and 7). A retroactive correction is thus made for those family members for whom both F2F1 and F2F2 contain information on the highest degree. The respondents' information on a second professional qualification (only available from F2F2) was also taken into account if this could be recognized as a higher qualification. Open statements were recoded into categories 1 to 10. Open entries that could not be assigned to these categories were recoded into -89 (not codable). Plausibility checks by age and corresponding adjustments were not made.

Waves: F2F 1; CATI 1; F2F 2; CATI 2; F2F 3; CATI 3; F2F 4; CATI 4; F2F 5
Generated variable
The response option 'orientation school' (German: 'Orientierungsschule') was incorrectly given in the questionnaire until data collection F2F2, although this type of school no longer exists in Germany. Therefore, this category was deleted from CATI2 onwards. In CATI3, edu0400 also contains the proxy information of the parents of the variables edu0400t and edu0400u.

Two different Likert scales were used for this variable in the data collection, which may affect the interpretation of the data. The following scale was used in data collections 1 (F2F1) and consists of five response options, with each option having a specific label: 1 'does not apply at all', 2 'does not apply', 3 'nor', 4 'does apply', 5 'does apply exactly'. In subsequent data

collections, only a partially labeled Likert scale was used: 1 'does not apply at all' and 5 'does apply exactly'. The intermediate values (2 to 4) are not explicitly labeled, giving respondents more room for interpretation.

Question text: `Now it's back to school in general. Please rate the extent to which each statement applies to you. We would like to ask you some more questions about school in general. Please rate the extent to which each statement applies to you.` [item text: `I like doing the things that I learn at school.`]
Filter based on instrument: module 'school/occupation' (CAPI): (age0110>=11) & (edu0100==2 | edu0301==1); module 'children under 11' (CAPI): (age0110<11) & (inlist(ptyp,1,2,200)) & edu0100==2
Two different Likert scales were used for this variable in the data collection, which may affect the interpretation of the data. The following scale was used in data collections 1 (F2F1) and consists of five response options, with each option having a specific label: 1 'does not apply at all', 2 'does not apply', 3 'nor', 4 'does apply', 5 'does apply exactly'. In subsequent data collections, only a partially labeled Likert scale was used: 1 'does not apply at all' and 5 'does apply exactly'. The intermediate values (2 to 4) are not explicitly labeled, giving respondents more room for interpretation.

The following scale was used in data collections 1 (F2F1) and consists of five response options, with each option having a specific label: 1 'does not apply at all', 2 'does not apply', 3 'nor', 4 'does apply', 5 'does apply exactly'. In subsequent data collections, only a partially labeled Likert scale was used: 1 'does not apply at all' and 5 'does apply exactly'. The intermediate values (2 to 4) are not explicitly labeled, giving respondents more room for interpretation.
Item developed for TwinLife.

imo0701s – it is important for me that sibling gets good grades (m,f,n,g, sib<=15 yr)

1	1: does not apply at all	3
2		15
3		158
4		325
5	5: does apply exactly	245
-81	-81: not applicable	0
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	1634
-92	-92: no participation in survey module	0
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	6
-95	-95: doesn't apply (screened out)	8108
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	9

Waves: F2F 1; F2F 2; F2F 3
Question text: `Please rate the extent to which the following statement applies.` [item text: `It is important for me that [name of child] gets good grades.`]
Filter based on instrument: module 'school/occupation' (CAPI): age0110s>=5 & age0110s<=15 & inlist(ptyp,300,400,500,600)
Two different Likert scales were used for this variable in the data collection, which may affect the interpretation of the data. The following scale was used in data collections 1 (F2F1) and consists of five response options, with each option having a specific label: 1 'does not apply at all', 2 'does not apply', 3 'nor', 4 'does apply', 5 'does apply exactly'. In subsequent data collections, only a partially labeled Likert scale was used: 1 'does not apply at all' and 5 'does apply exactly'. The intermediate values (2 to 4) are not explicitly labeled, giving respondents more room for interpretation.
Item developed for TwinLife.

16 Employment status of household members

This chapter contains information on: educational and employment status of all household members (employment / education / vocational training / parental leave / pension).

hpr0101 – employment status - kindergarten/child care institution

Generated variable
When interpreting and analyzing the variable **emp0400**, it is important to note that changes in the specification of response categories were made starting from F2F 2. Specifically, in F2F 2, the categories Full-time employed and Part-time employment were specified with weekly hours to enable a more accurate recording of working hours. The category Marginally employed also includes a weekly hours limit since F2F 2. The category for voluntary services has been simplified to unify various types of voluntary services under one term. The category for non-employment was slightly rephrased to ensure broader coverage. In F2F 5, the category for training was expanded to include dual study programs.
Categories in F2F1:

```
1. Full employed
2. Part-time employment
3. In-company training/apprenticeship or in-company retraining
4. Marginally employed; Mini Job; One-euro job, e.g., when receiving unemployment benefit
5. Occasionally or irregularly employed
6. Voluntary military service
7. Voluntary social/ecological year, federal voluntary service
8. In phased retirement with zero working hours
9. Early retirees, pensioners, unable to work
10. Not employed
11. Other, namely:
```

Categories from F2F2:

```
1. Full-time employed (at least 35 weekly hours)
2. Part-time employment (also with parallel part-time jobs) (at least 16 and less than 35
3. In-company training/apprenticeship or in-company retraining
3. In-company training/apprenticeship (also dual study programs) or in-company retraining
4. Marginally employed, Mini Job, One-euro job (when receiving unemployment benefit 2) (
5. Occasionally or irregularly employed
6. Voluntary military service
7. Voluntary year, e.g., social or ecological year, federal voluntary service
8. In phased retirement with zero working hours
9. Early retirees, pensioners, unable to work
10. Other non-employment
11. Other, namely:

Generated variable
The International Standard Classification of Occupations of 2008 (ISCO-08) classifies occupations (internationally comparable) according to the required skill level (degree of complexity, based on educational qualifications) of an occupation as well as the skill specialization (the type of skills required specifically for this occupation). TwinLife provides the ISCO classification at the level of sub-subgroups (two digits) for

- the occupation of the current employment (**emp0503** and **emp0513**),
- the occupation of the previous employment (**emp0553**, CATI1 only),
- the apprenticeship or field of study of the highest professional qualification (**eca0205**),
- the apprenticeship or field of study acquired since the last interview(**eca1205**),

- the apprenticeship or field of study of the vocational qualifications mentioned in F2F3 and F2F4, which were surveyed in a follow-up in F2F5 (**eca1215**, **eca1225**), and
- the occupational activities of the grandparents of the twins (**bpa0208**, **bpa0308**, **bpa0508**, **bpa0608**).

For more information about the ISCO classification visit the ILO website (URL Link). The open-ended responses on occupation were coded into ISCO-08 by the survey institute (TNS Infratest/Kantar for F2F 1, infas for Fall other waves). Infratest performs the coding on the basis of an electronically available directory developed by Statistik Austria (see TNS Infratest/Kantar ISCO-08 documentation (URL Link) on the TwinLife documentation website (URL Link)). Infas bases the ISCO coding on specifications developed by GESIS. The exact procedure of occupation coding was described in detail by Geis and Hoffmeyer-Zlotnik (2000) using ISCO-88 as an example. In addition, extensive guidance on the practical implementation of occupational coding can be found in Geis (2011). Building on this knowledge of ISCO-88, there is the ISCO-08 code scheme, explanations and notes on the differences between ISCO-08 and ISCO-88. These have been coordinated by infas with GESIS. Specifications that could not translated into the schemes (such as 'team leader', 'specialist', or 'intern') were coded into -81 (no occupation or occupational activity mentioned) or -89 (not codable).

Generated variable
ISEI (International Socio-Economic Index of Occupational Status) is a measure of a person's socio-economic status and takes into account the individual's occupation, income and education. ISEI-08 categories range from 12 to 90. The ISEI is generated for

- the occupation of the current employment (**emp0505**),
- the apprenticeship or field of study of the highest professional qualification (**eca0207**),
- the apprenticeship or field of study acquired since the last interview (**eca1207**),

- the apprenticeship or field of study of the vocational qualifications mentioned in F2F3 and F2F4, which were surveyed in a follow-up in F2F5 (**eca1217**, **eca1227**).

The ISEI variables have been coded on the basis of the four-digit version of the ISCO-08 classification. It was created using the Stata program *iscogen.ado* (Jann, B. (2019)), which is based on the SPSS script *isqoisei08.sps* by Harry Ganzeboom. For more information see Ganzeboom & Treiman (1996) and Ganzeboom (2010).

Waves: F2F 1; F2F 2; F2F 3; F2F 4; F2F 5
Question text:
Filter based on instrument: always asked/always generated
Generated variable
The EGP-classes (Erikson-Goldthorpe-Portocarero classes) is a classification for the socioeconomic status of the parents, considering the type of occupational activity, the occupational status, managerial responsibility, and the kind of qualification needed for the occupational activity. For the generation of the EGP of the occupational activity (**emp0508**) the ISCO-08 variable **emp0503_iuf** (4 digits (unit group level), not part of the Scientific Use File) needed to be translated in the ISCO-88 classification first, using the Stata ado *iscogen.ado* that bases on a conversion tool by Harry Ganzeboom (URL Link).

```
iscogen emp0503_88 = isco88(emp0503_iuf), from(isco08)
```

Then, the EGP variable was generated, again using the Stata ado *iscogen.ado* (Jann, B. (2019)), also considering self-employment (**emp0602**) and supervisory status (**supviss**).

```
iscogen emp0508 = egp11(emp0503_88 emp0602 supviss), from(isco88)
```

The necessary information about the number of employees (**supviss**) only differentiates between whether the person supervises more than one and less than ten persons (**supviss** == 2), or more than ten persons (**supviss** == 11). It is based on information about the occupational status (from **emp0601** and **emp0605**) and the actual number of employees when being self-employed (**emp0603**):

```
gen supviss = .
replace supviss = 2 if emp0603 == 2   // self-employed with 1-9 employees
replace supviss = 11 if emp0603 == 3   // self-employed w. 10+ employees
```

```
replace supviss = 2 if emp0601 >= 4   // assumption: 1-9 subordinates
replace supviss = 2 if emp0605 == 6   // assumption: 1-9 subordinates
replace supviss = 11 if emp0605 == 7   // assumption: 10+ subordinates
replace supviss =. if wid == 2     // necessary inf. NA in CATI 1 (wid==2)
```

emp0508 was only generated for the F2F data collections. For more information, see Ganzeboom & Treiman (1996).

Question text:
Filter based on instrument: always asked/always generated
Generated variable
The ESeC (The European Socio-economic Classification) is a scheme provided for the whole adult population, but is mainly occupationally based classification. It was developed from the EGP (Erikson-Goldthorpe-Portocarero) scheme. The categories of the ESeC summarize occupations according to their position in the labor market and the type of labor regulation. The information required to create ESeC is: occupation coded to the minor groups (i.e. 3-digit groups) of the EU variant of the International Standard Classification of Occupations 1988 (ISCO88 (COM)); details of employment status, i.e. whether an employer, self-employed or employee; number of employees at the workplace; whether a worker is a supervisor. For the generation of the ESeC (**emp0515**) the ISCO-08 variable **emp0503_iuf** (4 digits (unit group level), not part of the Scientific Use File) needed to be translated in the ISCO-88 classification first, and then in the ISCO-88-COM classification, using the Stata ado *iscogen.ado* (Jann (2019)) that bases on a conversion tool by Harry Ganzeboom (URL Link).

Further, self-employment (**emp0602**) and supervisory status (**supviss**, for the generation of this variable, see **emp0508**, EGP) is considered.

```
iscogen emp0503_88 = isco88(emp0503_iuf), from(isco08)
iscogen emp0503_88com = isco88com(emp0503_88), from(isco88)
iscogen emp0515 = esec(emp0503_88com emp0602 supviss)
```

emp0515 was only generated for F2F 1 (wid 1) and F2F 2 (wid 3). For more information on the ESeC classification, see Harrison & Rose (2006).

The WZ 2008 is the German classification of economic sectors and bases on the Statistical Classification of Economic Activities in the European Community (NACE). In **emp0709** the open answers of the respondents on the question about the sector in which they work (**emp0707**: 'In which sector of the economy/which branch/which service area is the company or the institution predominantly active? Please quote the exact name, e.g. not industry, but electrical industry; not trade, but retail; not public service, but hospital.') are classified into 88 departments. For more information about this classification, see the documentation on the classification server of the Federal Statistical Office of Germany (URL Link).

Filter based on instrument: always asked/always generated
Generated variable
Twin families are a special type of family that could be de-anonymized more easily than other families when combining several characteristics known from the data, especially when these characteristics exceedingly diverge from the average, such as a very high or very low income. In order to ensure the anonymity of the twin families, very high and very low values of the personal income variable **inc0100** is manipulated in a way that the incomes cannot lead back to one individual, but the income distribution, as well as analyses, are not affected by the alterations. The manipulation follows the recommendations of Wirth (1992). Personal income was collected in variable **inc0100** in all data collections except CATI 2 and 3. First, only for CATI 1 a categorical variable (corresponding to **inc0103**) is generated from the variables **inc0102**, **inc0105**, **inc0106**. In the next step, for the cases in which no monthly personal income was reported, the annual income from **inc0101** (if available) is divided by 12 and integrated into **inc0100**. A single case correction was made in F2F 1, where monthly and annual income were obviously confused (**pid_suf** == 124589400). Other conspicuities are recorded and flagged in the variables **inc0120** and **inc0121**. Finally, following Wirth (1992), the five highest and lowest income specifications are replaced by their average (manipulation of the strongest outliers) and the 10% highest and lowest income statements are assigned a random error of +/- 1% of the initial value using a random variable. As a result, 80% of the incomes are not affected by the manipulation. The resulting manipulated variable **inc0110** is supplied in the SUF.
Please note: No structured plausibility analyses were conducted based on the income data. Accordingly, no adjustment to the income was made, except for the described manipulations in the interest of data protection. In rare cases it seems that annual rather than monthly income were inadvertently reported in **inc0400**.

Question text:
Filter based on instrument: always asked/always generated
Generated variable
Twin families are a special type of family that could be de-anonymized more easily than other families when combining several characteristics known from the data, especially when these characteristics exceedingly diverge from the average, such as a very high or very low income. In order to ensure the anonymity of the twin families, very high and very low values of the household income variable **inc0400** are manipulated in a way that the incomes cannot lead back to one household or individual, but the income distribution, as well as analyses, are not affected by the alterations. The manipulation follows the recommendations of Wirth (1992). In order to process a maximum of income information, the first step is to integrate the specification of income categories from **inc0403** into the variable **inc0400**. Here, the middle of the specified category is used. In F2F 2, CATI 2 and F2F 3, the yearly household income (**inc0404**) was also recorded as an alternative - this information is also converted first (divided by 12) and then integrated into **inc0400**. In CATI 1, household income was recorded at the personal level. Therefore, it may happen that within one household several different household incomes are specified. Here, the median of all information provided in the household was used. Finally, following Wirth (1992), the five highest and lowest income specifications are replaced by their average (manipulation of the strongest outliers) and the 10% highest and lowest income statements are assigned a random error of +/- 1% of the initial value using a random variable. As a result, 80% of the incomes are not affected by the manipulation. The resulting manipulated variable **inc0401** is supplied in the SUF. Conspicuities are recorded and flagged in the variables **inc0420**, **inc0421**, **inc0423** and **inc0423**.
Please note: No structured plausibility analyses were conducted based on the income data. Accordingly, no adjustment to the income was made, except for the described manipulations in the interest of data protection.
Please note: Due to the reduced questionnaire in CATI 2 (wid=4), twins in cohorts 3 and 4 were not asked about their household income if they were still living with at least one parent. As a result, mean and median incomes are much lower than in previous data collections in these cohorts.
Please note: In rare cases it seems that annual rather than monthly income were inadvertently reported in **inc0400**.

Question text:
Filter based on instrument: always asked/always generated
Generated variable
Besides the (manipulated) household income, we generate and provide the net equivalent household income using the modified OECD scale (`http://www.oecd.org/els/soc/OECD-Note-Equivalenc` `pdf`). For this generated variable, the household size and composition are taken into account. The concept is based on the assumption that people (e.g., two adults) save money and are fictitiously 'richer' by living together in one household and sharing a common budget and the fixed costs instead of living in separate households. For more information about the concept, see OECD (2011). For this purpose, the household composition recorded in the household questionnaire is used to calculate how many adult persons (aged 14 and older) and how many children (under 14) live in the household. In CATI 2 and 3, the household composition was not recorded systematically by the interviewer, but was surveyed in the household questionnaire. This self-report of the respondent was used as the basis for calculating the equivalence income. According to OECD (2011), the 'household head' gets a weight of 1, each further adult person gets a weight of 0.5, and each child a weight of 0.3. The household income is then divided by the sum of all weights in the household. The resulting variable **inc0411**, the net equivalent household income, is published in the SUF.
Please note: Due to the reduced questionnaire in CATI 2 (wid=4), twins in cohorts 3 and 4 were not asked about their household income if they were still living with at least one parent.

Question text:
Filter based on instrument: always asked/always generated
Generated variable
This flag variable indicates whether a multiple of child allowances are specified in the generated monthly household income variable (**inc0401**). Imprecise question wording in F2F 1 may have led respondents to relate the question about monthly household income to the total of their government benefit payments (public services). This is only verifiable for child allowances, as this is the only fixed (and thus known to us) variable for government benefits. The number of cases in F2F 1 for which the flag applies suggests that an even larger proportion of households could have reported the sum of government benefits received, which should be kept in mind when analyzing the variable. Please note that only cases where the exact amount of a multiple of child benefit was stated have been flagged. In the SUF data, these cases are not uniquely identifiable, as the lower 10% of household income data have been manipulated (see the variable text for **inc0401**).

Question text: `How much time, on average, do you spend reading in your free time each day? Please consider all possible occasions when you read, not only books or magazines, but also e-mails or material on the Internet.` [item text: `hours`]
Filter based on instrument: module 'PAPI children' (PAPI): (inlist(ptyp,1,2,110,120,200,300,400,500,600)) & (inrange(age0110,11,16)); module 'PAPI adults' (PAPI): (inlist(ptyp,1,2,110,120,200,300,400,500,600)) & (age0110>=17)
The daily reading time in hours **cul0100** was recoded based on the plain text information in the PAPI. If information was given in a range of values, then the mean value of this information is used (e.g., plain text information 1-2 is coded as 1.5). Inconclusive specifications are coded as -85. Generated variables in a consistent time format are provided in **cul0110** and **cul0111**.

Question text:
Filter based on instrument: always asked/always generated
Generated variable

The variables on reading time in hours (**cul0110**) and in minutes (**cul0111**) were generated based on **cul0100** and **cul0101** and stored in a consistent time format (hh:mm) so that **cul0110** reflects full hours and **cul0111** minutes from 0 to 59. In the case of identical entries on both variables (e.g., cul0100 = 1 and cul0101 = 60), only one value was considered. Daily reading durations of more than 20 hours were not included. **cul0110**, for example, can be converted to minutes and summed with **cul0111** if the reading duration to the precise minute is to be included in the analysis. The proxy information of the parents on the reading times of the younger children is stored in the variables **cul0110[t,u,s]** and **cul0111[t,u,s]**.

The variables for reading time in hours (**cul0110[t,u,s]**) and in minutes (**cul0111[t,u,s]**) were generated based on **cul0100[t,u,s]** and **cul0101[t,u,s]**. If only one specification was made - either hours or minutes - then the respective missing value is assumed to be zero. Self-reported reading times for participants 10 years and older are stored in variables **cul0110** and **cul0111**.

23 Global life satisfaction

This chapter contains information on: global life satisfaction.

gls0100 – satisfaction: life almost ideal (>=16 yr)

1	1: strong rejection	110
2	2: rather rejection	483
3	3: neither rejection nor agreement	966
4	4: rather agreement	2269
5	5: strong agreement	1693
-85	-85: information not evaluable	0
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	1618
-92	-92: no participation in survey module	3241
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	14
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	109

Waves: F2F 1; F2F 2; F2F 3; CATI 3; F2F 4; CATI 4; F2F 5
Question text: `Finally, we would like to know how satisfied you are with your life in general. How much do you agree with the following statements?` [item text: `In most ways my life is close to my ideal.`]
Filter based on instrument: module 'PAPI adults' (PAPI): (inlist(ptyp,1,2,110,120,200,300,400,500,600)) & (age0110>=17)
In wid = 2 (CATI 1), in contrast to the other data collections, the following response options were given: 1: strongly disagree; 2: disagree; 3: neither disagree nor agree; 4: agree; 5: strongly agree. The variable names gls*10 were therefore assigned to these variables instead of gls*00.
Diener, E., Emmons, R. A., Larsen, R. J., & Griffin, S. (1985). The Satisfaction With Life Scale. Journal of Personality Assessment, 49(1), 71-75. [URL link]

gls0200 – satisfaction: excellent life conditions (>=16 yr)

1	1: strong rejection	68
2	2: rather rejection	360
3	3: neither rejection nor agreement	716
4	4: rather agreement	2131
5	5: strong agreement	2275
-85	-85: information not evaluable	0
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	1618
-92	-92: no participation in survey module	3241
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	14
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	80

Waves: F2F 1; F2F 2; F2F 3; CATI 3; F2F 4; CATI 4; F2F 5
Question text: `Finally, we would like to know how satisfied you are with your life in general. How much do you agree with the following statements?` [item text: `The conditions of my life are excellent.`]
Filter based on instrument: module 'PAPI adults' (PAPI): (inlist(ptyp,1,2,110,120,200,300,400,500,600)) & (age0110>=17)
In wid = 2 (CATI 1), in contrast to the other data collections, the following response options were given: 1: strongly disagree; 2: disagree; 3: neither disagree nor agree; 4: agree; 5: strongly agree. The variable names gls*10 were therefore assigned to these variables instead of gls*00.

Question text: `Finally, we would like to know how satisfied you are with your life in general. How much do you agree with the following statements?` [item text: `If I could live my life over, I would have it the same way.`]
Filter based on instrument: module 'PAPI children' (PAPI): (inlist(ptyp,1,2,110,120,200,300,400,500,600)) & (inrange(age0110,11,16))
In wid = 2 (CATI 1), in contrast to the other data collections, the following response options were given: 1: strongly disagree; 2: disagree; 3: neither disagree nor agree; 4: agree; 5: strongly agree. The variable names gls*10 were therefore assigned to these variables instead of gls*00.

Waves: F2F 3; F2F 5
Question text: `At which age did you have your first menstruation?`
Filter based on instrument: module 'health' (CASI): inlist(ptyp,1,2,200) & sex==2 & ((inrange(age0110,11,16) & pub0400==1) | (age0110>=17))
Item developed for TwinLife.

32 Sexual behavior

This chapter contains information on: sexual attraction to males and females, sexual labeling, sexual behavior.

seo0100 – consent to answering questions about sexuality (>= 16 yr)

1	1: agree	5785
2	2: don't agree	948
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	1634
-92	-92: no participation in survey module	660
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	1476
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 2; F2F 3

Question text: `In the following, we would like to ask you some questions that concern your sexuality. Do you consent to this?`
Filter based on instrument: module 'personality, discrimination, political participation' (CASI): age0110>=14
Item developed for TwinLife.

seo0200 – sexual attraction (>= 14 yr)

1	1: only attracted to women	2280
2	2: mainly attracted to women	285
3	3: attracted equally to women and men	107
4	4: mainly attracted to men	756
5	5: only attracted to men	2189
6	6: uncertain	60
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	1634
-92	-92: no participation in survey module	660
-93	-93: unclear classification of system missing	0

Waves: F2F 1; F2F 2; F2F 3; F2F 4; F2F 5
Generated variable
When analyzing the delinquency questions longitudinally, it must be taken into account that the question on delinquency in the face-to-face data collections from F2F3 onwards has been adapted to the extent that the questions 'Have you ever [...]' (variables **del*00) are only asked to***

new survey participants. Panel participants are instead asked the question 'In the last 24 months, have you [...]' (variables del*04**). The subsequent question on the frequency of the respective behavior refers to the period of the last 12 months in F2F1 and F2F2 (**del*01), and to the last 24 months in F2F3 (del*05'**). In CATI1, the question was asked as follows: 'In the last 12 months, have you [...]' (**del2) but no frequencies were asked. Parents provided proxy statements about delinquent behavior of their children aged 9 or younger (**del2*[t,u,s]**) in CATI1 only.

When analyzing the delinquency questions longitudinally, it must be taken into account that the question on delinquency in the face-to-face data collections from F2F3 onwards has been adapted to the extent that the questions 'Have you ever [...]' (variables **del*00) are only asked to new survey participants. Panel participants are instead asked the question 'In the last 24 months, have you [...]' (variables del*04**). The subsequent question on the frequency of the respective behavior refers to the period of the last 12 months in F2F1 and F2F2 (**del*01), and to the last 24 months in F2F3 (del*05**'). In CATI1, the question was asked as follows: 'In the last 12 months, have you [...]' (**del2***) but no frequencies were asked. Parents provided proxy statements about delinquent behavior of their children aged 9 or younger (**del2*[t,u,s]**) in CATI1 only.

When analyzing the delinquency questions longitudinally, it must be taken into account that the question on delinquency in the face-to-face data collections from F2F3 onwards has been adapted to the extent that the questions 'Have you ever [...]' (variables **del*00) are only asked to new survey participants. Panel participants are instead asked the question 'In the last 24 months,**

have you [...]' (variables del*04**). The subsequent question on the frequency of the respective behavior refers to the period of the last 12 months in F2F1 and F2F2 **(del*01), and to the last 24 months in F2F3 (del*05'**). In CATI1, the question was asked as follows: 'In the last 12 months, have you [...]' (**del2) but no frequencies were asked. Parents provided proxy statements about delinquent behavior of their children aged 9 or younger (**del2*[t,u,s]**) in CATI1 only.

Generated variable
When analyzing the delinquency questions longitudinally, it must be taken into account that the question on delinquency in the face-to-face data collections from F2F3 onwards has been adapted to the extent that the questions 'Have you ever [...]' (variables **del*00) are only asked to new survey participants. Panel participants are instead asked the question 'In the last 24 months, have you [...]' (variables del*04**). The subsequent question on the frequency of the respective behavior refers to the period of the last 12 months in F2F1 and F2F2 (**del*01), and to the last 24 months in F2F3 (del*05**'). In CATI1, the question was asked as follows: 'In the last 12 months, have you [...]' (**del2***) but no frequencies were asked. Parents provided proxy statements about delinquent behavior of their children aged 9 or younger (**del2*[t,u,s]**) in CATI1 only.

Waves: F2F 3
Question text:
Filter based on instrument: always asked/always generated
Generated variable
In F2F3 (subsample A), the delinquency questions were mixed up due to a programming error in the computer-assisted questionnaire. New panel participants received the questions for the prior panel participants and vice versa. The programming error was noticed during the field period and was corrected so that the remaining subsample A and the full subsample B of the F2F3 sample were asked the correct questions. Based on the question about the frequency of each mentioned delinquent behavior that new and prior panel participants answered, nearly all delinquency values could be corrected. The flag variable **del4000** indicates which respondents were affected by the incorrect filtering and were corrected.

dev0100 – frequency: getting angry (self-assessment) (t,u,s, <11 yr)

1	1: never	63
2	2: occasionally	1170
3	3: very often	150

-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 3
Generated variable
The BART is a measuring instrument that can be used to record risk behavior scientifically and behaviorally. In the game, a balloon is inflated with individual pump blasts. In our experiment, 5 points were awarded for each of these pump blasts. Depending on the number of points achieved, participants could enter a lottery pot 1 time, 5 times (from about 2500 points), 7 times (from about 5000 points) or 10 times (from about 7500 points). A maximum of 128 pump blasts are possible, and the balloon can burst randomly at any time (i.e., even during the first pump blast). If the balloon bursts, the points of this balloon are lost. Therefore, it is always possible to save the points to a total account before the balloon bursts. In total there were 30 rounds with one balloon each. The variables in TwinLife contain the following information, for each round there is the same set of variables: brt*00: Was the game stopped in this round?

brt*01: Did the balloon burst in this round? brt*02: How many pumps were made in this round? There are also two total scores: brt4000: number of total pumps brt4001: number of rounds played To calculate a measure of risk, the authors of the test (Lejuez et al., 2002) recommend forming a score based on the average number of pumps (brt*02) of trials in which the balloon did not burst (brt*01). Pictures of the programmed app can be viewed here: (URL Link).

48 Life events

This chapter contains information on: occurence and subjective evaluation of different life events (e.g., marriage, death, unemployment).

lev0100 – life events: separation (>= 10 yr)

1	1: yes	144
2	2: yes, divorce (asked for >= 16 yrs)	34
3	3: yes, separated (asked for >= 16 yrs)	312
4	4: yes, as well divoced as separated (asked for >= 16 yrs)	5
5	5: no	4657
6	6: no, I have / had no boyfriend or partner / no girlfriend or partner	815
7	7: no, I've never had a boyfriend or partner / girlfriend or partner	941
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	1634
-92	-92: no participation in survey module	660
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	1289
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	12

Waves: CATI 1; F2F 2; CATI 2; F2F 3; F2F 4; F2F 5
Question text: `Have you and your partner separated or divorced from each other in the last 12 months ?`

Filter based on instrument: module 'life events, bullying, deviant behavior' (CASI): (age0110>=11) & (inlist(ptyp,1,2,110,120,200,300,400,500,600))
Item developed for TwinLife.

lev0101 – life events: separation ever before (>= 10 yr)

1	1: yes	57
2	2: no	111
-84	-84: unassignable	0
-85	-85: information not evaluable	0
-86	-86: inconclusive specification	0
-87	-87: multiple answers	0
-89	-89: illegible	0
-90	-90: no participation in survey wave	1634
-92	-92: no participation in survey module	660
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	24
-95	-95: doesn't apply (screened out)	8016
-98	-98: don't know	0

50 Survey and module participation

This chapter contains information on: module participation; participation parent's questionnaire about children; survey mode.

euek – respondent parents about child

0	0: not true	8438
1	1: true	1762
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	303
-92	-92: no participation in survey module	0
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	0
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 2; F2F 3; F2F 4; F2F 5
Filter based on instrument: always asked/always generated

f2f_mcapi – participation CAPI (gen)

0	0: not true	0
1	1: true	8869
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	1634
-92	-92: no participation in survey module	0
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	0
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 2; F2F 3; F2F 4; F2F 5
Question text:
Filter based on instrument: always asked/always generated
Generated variable
The variables **f2f** and **f2f_m*** indicate whether a person participated in F2F 1 overall (**f2f**) or in the single modules of F2F 1 and F2F 2 (**f2f_m***). Here it is irrelevant whether the person completed the module or dropped out in between.

f2f_mcasi – participation CASI (gen)

0	0: not true	0
1	1: true	8209
-87	-87: multiple answers	0
-90	-90: no participation in survey wave	1634
-92	-92: no participation in survey module	660
-93	-93: unclear classification of system missing	0
-94	-94: technical error / faulty insertion	0
-95	-95: doesn't apply (screened out)	0
-98	-98: don't know	0
-99	-99: not specified (refused to answer)	0

Waves: F2F 2; F2F 3; F2F 4; F2F 5
Question text:
Filter based on instrument: always asked/always generated
Generated variable
The variables **f2f** and **f2f_m*** indicate whether a person participated in F2F 1 overall (**f2f**) or in the single modules of F2F 1 and F2F 2 (**f2f_m***). Here it is irrelevant whether the person completed the module or dropped out in between.

f2f_mcer – recorded certificates (gen)

0	0: not true	0

[IF age0100s >= 12 and age0100s < 16] [name of sibling] compared to other young people of the same age and gender? [IF age0100s < 12] [name of sibling] compared to other children of the same age and gender? | [name of mother] compared to other females of her age? | [name of father] compared to other males of his age?`]
Filter based on instrument: module 'interviewer' (CAPI): hlm==1 & fpr0107==21; module 'interviewer' (CAPI): hlf==1 & fpr0107==22; module 'interviewer' (CAPI): hls==1; module 'interviewer' (CAPI): hlu==1; module 'interviewer' (CAPI): hlt==1
The interviewer was asked questions about the attractiveness of the persons in the family at the end of the last personal interview. For about 250 persons, multiple data were erroneously collected if several interview appointments took place in the household. In these cases, the

information from the first interview is retained under the assumption that the questions would not have been asked a second time if information on attractiveness had already been collected.

Question text: `What is your general impression of the home?` [item text: `tidy - untidy`]
Filter based on instrument: always asked/always generated
iva01, ***iva0500***, ***iva09***, **iva1000**: The interviewer was asked questions about the home and neighborhood where the interview took place following the last person interview. There are a few families that conduct all interviews in one location, although not all of these family members live in the same household. Since the location of the interview is not known, it is assumed that the interviewer was given information about the home and neighborhood of the last person interviewed. Accordingly, the information is assigned to all family members sharing the same household ID of the last person interviewed.

iva01, ***iva0500***, ***iva09***, **iva1000**: The interviewer was asked questions about the home and neighborhood where the interview took place following the last person interview. There are a few families that conduct all interviews in one location, although not all of these family members live in the same household. Since the location of the interview is not known, it is assumed that the interviewer was given information about the home and neighborhood of

the last person interviewed. Accordingly, the information is assigned to all family members sharing the same household ID of the last person interviewed.

iva04, ***iva11***, **iva12**, ***iva13***: The interviewer was asked questions about the interview process or disturbances during the interview at the end of the last person interview in a household. The questions refer to the group of respondents interviewed by the interviewer that day. In some cases, however, interviewers had answered the same questions more than once. Since complete interviewer assessments may not be available until after the last individual interview, only this last information is retained. Exception to this rule: If there is more than one assessment for multiple households in a family on a given day, the information for each household is retained. As a result, the information is assigned to all persons in a family (or at the household level in exceptional cases) with the same interview date.
